Who Commands the Trim Steamer Garden City-Brief Sketch

of His Career. Capt. Robert Cooney, who commands the trim steamer Garden City, needs no introduction to citizens of Toronto. People who have enjoyed a trip under his care during the past seven years, will never forget the genial and obliging Robert. Although only 36 years of age, he has had a wide experience on the water. He was born in Port Dalhousie and at 14 years of age en-

gaged himself with a vessel. For years he traded between Chicago, Duluth and Kingston, and for three seasons was first mate on the Modjeska. Capt. Cooney is also a on the Modjeska. Capt. Cooney is also a favorite at the American ports and at one time was the only Canadian captain that dared enter Buffalo harbor. He possesses many presents, which he has received from various associations and clubs. He took a big excursion party to Oshawa yesterday, when he again endeared himself to many hundred.

Mr.G.O.ARCHIBALD'S CASE.

Didn't Walk for 5 Months. Doctors said Locomotor Ataxia.

Milburn's Heart and Nerve Pills | Cure a Disease hitherto regarded

The case of Mr. G. O. Archibald, of Hopewell Cape, N.B., (a cut of whom appears below), is one of the severest and most intractable that has ever been

reported from the eastern provinces, and his cure by Milburn's Heart and Nerve Pills the more remarkable from the fact that he was given up as incurable by

worthy and respected physicians.

The disease, Locomotor Ataxia, with which Mr. Archibald was afflicted is considered the most obstinate and incurable disease of the nervous system known. When once it starts it gradually but surely progresses, paralyzing the lower extremities and rendering its vic-tim helpless and hopeless, enduring the indescribable agony of seeing himself die

That Milburn's Heart and Nerve Pills can cure thoroughly and completely a disease of such severity ought to encourge those whose disorders are not so erious to try this remedy.

The following is Mr. Archibald's letter:

I do not know, exactly, what was the cause of the disease, but it gradually affected my legs, until I was unable to walk hardly any for five months.

"I was under the care of Dr. Morse, of Melrose, who said I had Locomoto' Ataxia, and gave me up as incurable.

"Dr. Solomon, a well-known physician of Boston, told me that nothing could be done for me. Every one who came to visit me thought I never could get better.
