TWENTIETH YEAR

Mr. Maclean Shows That the

Only Cure is a National .

Extension

OF THE INTERCOLONIAL.

Would Take That Road Right on to

Winnipeg, When Branches

Would Be Constructed.

Resolutions Which Won't Pro-

tect the People.

What Sir Wilfrid Said.

Sir Wilfrid Laurier denied that the Liberal party was opposed to the granting of railway subsidies; what it was opposed to was the granting of subsidies to charter-hawkers, whose only object was to obtain a charter, get a subsidy voted and then sell the charter for what they could get. He had never opposed the granting of aid to roads, the construction of which would develop the country. The Government was spending money in this way, because it was not afraid to develop the country. There were plenty of farmers, even in Ontario, who were 40 or 50 miles from a railway. He strongly supported the subsidy to the Ontario and Rainy River Road, saying that it would create a new Ontario, passing as it did for part of its length through a magnificent agricultural district and for another part of its length opening up a splendid mining country. He was not in favor of Government ownership of railways, as he believed that public opinion was opposed to it.

Mr. Oliver supported Mr. Elchardson's amendment.

Mr. McMullen Approves

BUBSIDIES UNDER DISCUSSION. Mr. McMullen Approves, Mr. McMullen Approves.

Mr. McMullen spoke up to 6 o'clock in general approval of the Government's resolutions, being specially pleased with the clause providing for the free carriage of mails, etc., to the extent of three per cent. per annum on the amount of subsidy granted.

Mr. Maclean on the Floor.

resolutions were at once taken up.

"Mercly Loans."

Hon. Mr. Blair, in introducing the resolutions, briefly explained that the Government by the introduction of the clause requiring the subsidized roads to carry mails,

cent, of the subsidy were really not grantcent. of the subsidy were really not granting a bonus, but making a loan to the companies, on which they were paying 3 percent. in transportation.

How Mr. Blair Has Changed,
Hon. Mr. Foster said that in New Brunswick during the election campaign Mr. Blair had stigmatized the late Government's light of the work of the government. Sut I was surprised to hear the hon. gentleman go a step further and lecture his friends on that side upon what their attitude ought to be in regard to the expenditures of the Government. granting of railway subsidies as a scheme

Biair had stigmatized the late Government sgranting of railway subsidies as a school of making deals and raising corruption funds for election purposes, and tonoidate the same copinion now. He believed in the same copinion now. He believed in granting of the monopoles, he was always their development of the country, and the Conservative party had adopted that policy and dadred to it, but for eighteen long of the monopoles, he was always their development of the country, and the Conservative party had adopted that policy and adhered to it, but for eighteen long for Assimblood (Mr. Davin), and party. He quoted at some length from the same thing, and the continuous and the Northways. He was not able to the common expression, he is prepared to the continuous and said again adopted when in office the Conservative party had been opposed by the Liberat party had seen the error of their ways and the wast gain to the surprised at anything he does. To see that at last the leaders of the Liberat party had seen the error of their ways and the west gain the went as little too far is not be surprised at anything he does. To see that at last the leaders of the Conservative with the search of the common expression, he is prepared to the work of the common expression had an adopted when in office the Conservative and the results of the common expression had a prepared to the common expression had been controlled and the leader of the Conservative and the leader of the Conservati

what Should Have Been Done.

If the Government and done its duty it would have joined hands with the Government and other and the policy of the control of railways, but in Government and the would be presented in the two policy of the control of railways, but in Government where the control of railways of railways, and said that people were not prepared to justify any railway on that act and the control of the C. P. K. He thades the control of the C. P. K. He thades the control of the C. P. K. He thades the control of the C. P. K. He thades the control of the C. P. K. He thades the control of the control of the C. P. M. Company were one. The road would be the lander to the control of the C. P. M. Company were one. The road would be retailed in connection with her anticol of the control of the C. P. M. Company were one of the control of the C. P. M. Company were one of the control of the C. P. M. Company were one of the control of the C. P. M. Company were one of the control of the C. P. M. Company were one of the control of the control of the C. P. M. Company were one of the control of the C. P. M. Company were one of the control of the C. P. M. Company were one of the control of the C. P. M. Mr. Richardson (Liberal) said he was opposed to granting bonuses to raliways, although he would be willing to make advances for the construction of rallways, but the loam should be returned. He entered into an elaborate calculation to show that the Dominion Government had given bonuses in land and money for transportation to the extent of \$350,000,000, or \$70 per head for every man, woman and child

By the licinstation placed to Bonnaes, which was one posed to granting bonnaes and he was opened to granting bonnaes, and he was opened to granting granting bonnaes, and he was opened to granting granting bonnaes, and he was opened to granting grant

rule the higher politics of the world concerned all the rallways, and the Government that did not control the rallways had hardly any future. And only the other day, the president of a great metal organization in England, speaking of the competition which the merchants and manufacturers of Great Britain are now forced to encounter that fir it is subsequently determined by the Government to acquire any or all of the rallways subsidized they roay be so acquired with a knowledge of their actual, cost, and at a figure from which shall be deducted the bonuses given by the Government.

"That the rates, both passenger and freight, shall be all subject to revision and control by the Governor-General-incompletion of rallways. And all the world over that the rates, both passenger and freight, shall be all subject to revision and control by the Governor-General-incompletion of the denationalized her system of rallways. And all the world over that same principle is going on, and the green and for a moment of the denationalization of the railways and turning them over to the rates by the governor-General-incompletion that the force and the rallways, and the Government that did not control the rallways, and the Government in order that did not control the rallways, and the Government that did not control the rallways, and the Government in order that did not control the rallways, and the Government in that did not control the rallways, and the Government that did not control the rallways, and the Government in order that did not control the rallways, and the Government in order that did not control the rallways, and the Government in that did not control the rallways, and the Government in that did not control the rallways, and the Government in that did not control the all the did not control that did not control the rallways, and the Government that did not control that did not control that did not control the all that did not control that Where Railways Are Nationalized.

Bismarck, when he undertook to consolidate and regenerate Germany, nationalized the railways. Australia has nationalized ner railways; Italy has nationalized her system of railways. And all the world over that same principle is going on, and the people of those countries would not hear for a moment of the de-nationalization of those railways and turning them over to the control of companies.
