THE USE OF STRONG SOAP WILL NOT WASH OUT DIAMOND DYE COLORS.

SPRINGLIKE NOW IN ENGLAND.

Quick Rise in Temperature After Recent Severe Storm. London, Jan. 5.—After a period of gales which swept the country with snow and completely disorganized the telegraphic service, English weather has assumed springlike mildness. In London the temperature on Christmas day was the same as at Cannes, and it has remained far above the average since.

But the soft, warm rain, combined with the rapid thawing of the premature heavy snow parts of the country, caused extensive floods. Thousands of acres are under water in Yorkshire, causing the Rye in Derwent Valley is from three to four feet under water.

A similar state of affairs prevails in Northamptonshire and the Valley of the Neuse presents the appearance of a great lake.

INSANITY CURED BY LOVE.

She found her husband in a state of insanity, and he is now entirely recovered.

"JUST AS GOOD"

Has no glimmer of truth in it when it means a substitute for Dr. Agnew's Ointment. There are cases on record where men and women too have suffered unspeakable torture from piles; but all kinds of remedies have been applied, where the surgeon's knife has been resorted to as the only hope; where electricity has tried its good offices, but without any permanent cure; and Dr. Agnew's Ointment, as the last resort, has proved its magic—one application has given relief. There is no other "just as good" Don't take chances.
