"CATARACT" WILL APPEAL AGAINST POWER DECISION

Further Recourse to Law's Delays—Board of Education to Carry on Art School.

HAMILTON, Ont., Sept. 30.—(Special.)—The technical committee has decided to carry on the full art course, with the exception of the life classes, formerly carried on by the Hamilton Art School, and J. S. Gordon was appointed instructor at \$1200 a year. The top floor of the Technical College will be used for the art school, and the classes will open on Oct. 11.

There will be classes three nights a week. Instruction will be given in the following subjects: Painting in oil and water colors from nature and still life; designing for illustration and etching, clay modeling, arts and crafts, stenciling and lettering for engraving.

Richard W. Leslie, 29 Emily-street, filed this morning.

Chief Justice Meredith wound up the session this morning after a short session of three days. F. C. Smith got judgment against R. A. Campbell for \$351, rent and charges, including the cost of a new roof.

Sick Headache And Indigestion

The Former is Very Frequently Caused by the Other.

The pneumo-gastric nerve connects the stomach region directly with the brain, and when the stomach is out of order the head is almost certain to be affected through reflex or sympathetic nervous irritation.

Persons subject to indigestion and other forms of stomach trouble are very frequent sufferers from headache, and in numerous cases a sick headache is the only noticeable symptom of indigestion present; in others, there are stomach manifestations as well.

CONSTANT USE

Is the real test of durability in a trunk and it is in the hard knocks of heavy traveling that the "Dreadnought" shows its superiority.

Get a "Dreadnought." It will give you a lifetime of service. Express prepaid anywhere 6.00 in Ontario.

Continued From Page 1.

remained steady and the thermometer sank. The weather became settled and clear. The pack became a more permanent glitter of color and joy. At noon there was now a jangling light, while the sun shined brightly for but a few moments, leaving the frosted blues bathed in noonday splendor.

In these days we made long marches. The ice steadily improved. Fields became larger and thicker, the pressure less frequent and less troublesome. Nothing changed materially; the horizon moved, our footing was seemingly a solid crust of earth but it shifted eastward; all was in motion.

We moved, but we took our landscape with us. Often we were too tired to build snow houses, and in sheer exhaustion we bivouacked in the lee of hillsides. Here, the overworked body called for sleep, but the mind refused to close the eye.

WHERE THERE IS NO LIVING THING.

There was a weird attraction in the anomaly of our surroundings which aroused the spirits. We had passed beyond the range of all life. In many days we had not seen a suggestion of animate nature. There were no longer footprints to indicate other life, no breath spouts escaped from the frosted bosom of the sea.

TEN FEET LIMIT OF ICE THICKNESS.

In these troubled areas we were given frequent opportunities to measure ice thickness, and from these we may come to the conclusion that the ice during one year does not freeze to a depth of more than 10 feet. But much of the ice of the central pack reaches a depth of from 20 to 30 feet, and occasionally we measured it as 50 feet thick. These invariably showed the signs of many years of surface upbuilding.

It is very difficult to surmise the amount of submerged freezing after the first year, but the very uniform thickness of the Antarctic sea ice leads to the suggestion that a limit is reached in the second year, when the ice, with its cover of snow, is so thick that very little is added afterward from below.

The almost ceaseless snowfall, combined with the alternate melting and freezing of summer, and also the natural process of glacial erosion, has resulted in an ice capable of an almost limitless increase of its superstructure. The very heavy, undulating fields which give character to the mid-polar ice and escape along the east and west coasts of Greenland are therefore mostly augmented from the surface.

DIDN'T WORRY OVER COOK

The next instalment will be published in The Sunday World.

WINNIPEG AND SEGREGATION

Council Pass Resolution Abolishing Police Regulation.

WINNIPEG, Sept. 30.—(Special.)—At a special meeting of the city council to-night which has been conferring in camera with the police commission regarding the segregation of vice, lately put in practice by the police, a resolution was unanimously passed abolishing and instructing the police to break up the Rachel-street colony.

BIG BUDGET OF NEWS

FROM OVER THE COUNTY

North, West, and East Toronto Briefs—Newmarket Fair To-day

WEST TORONTO, Sept. 30.—The sum of \$500 was voted by the board of control this morning to repair the drains and plumbing of the local or No. 3 police station. The recommendation was that something be done without delay to put the West Toronto station in better condition. The chief stated that the place was in about as bad shape as it could be for it to be, and he presented a report from Dr. Sheard, which he said would bear out his statement. R. C. Harris suggested that the new public library on Annette-street will be open from 7 till 9 p.m. The library will be open in the afternoon from 1.30 till 5.30. After further arrangements are completed, the readings room will be kept open continuously from 1.30 till 9 p.m.

WEST TORONTO, Sept. 30.—(Special.)—

The Laskay branch of the Women's Institute will hold their October meeting at the home of Mrs. Joseph Egan, Strangely, on Tuesday, Oct. 5, at 8 p.m. Two papers will be read, one on "Care of Winter Vegetables," and the other on "Warm Suppers." All ladies are cordially invited.

DOVERCOURT.

The Rev. Dr. Manson of Detroit City, U.S., will preach at 11 a.m. and 7 p.m. at Davenport-road Church (Presbyterian) next Sunday, Oct. 3. The services at this church are bright, varied and interesting and crowds are already beginning to attend at night.

FAIRBANK

Little Fellow Dies Presumably From Heart Failure.

FAIRBANK, Sept. 30.—(Special.)—Without a moment's warning, the little seven-year-old son of James Wickson, living near the village, dropped dead at his father's home last night. The little fellow had been playing around apparently in his usual health, when he suddenly died to his mother, "I am choking," and fell to the ground. Dr. Corrigan was summoned, but life was extinct. Coroner Johnson was notified, but death was so instantaneous that it was necessary to take the body to the cemetery on Friday afternoon.

WEXFORD.

WEXFORD, Sept. 30.—(Special.)—The death of Mrs. John Tingle removes one of Scarborough's most respected citizens.

Mrs. Tingle was in her 64th year, had resided in Scarborough all her life and had long been prominently identified with St. Andrew's Presbyterian Church. She is survived by her husband and two daughters, Mrs. Laraway of Wexford and Mrs. David Mason of Oshawa's corner. The funeral takes place on Friday afternoon at 2 o'clock to St. Andrew's Cemetery.

A Boon to Corn Growers.

Scarboro and York Township farmers who have allies to fill from year to year are pleased to hear that the old reliable Jack Parsell has a great corn cutting outfit, with attachments complete for filling the highest silos. The outfit is made by Bell & Son of St. George, and was made up specially to Mr. Parsell's order.

Jack has been thrashing for about thirty or thirty-five years in the neighborhood, and at some places has had an undisputed run for all that time, and he has thrashed for twenty years. This sounds like good work on his part and we can only bespeak success for him in the new line of business he has added.

FARMERS WOULD LIKE TO SEE THE NEW OUTFIT.

Farmers who would like to see the new outfit, Mr. Munro's, Burnside Farm, on Sandhurst, will be glad to call on the latter's silo.

THOMPSON'S FARM STOCK SALE.

Hewson Thompson of Clarendon sells by auction at his farm, two miles from Scarborough, on the P.R., much valuable farm stock and implements, on Saturday, Oct. 2. There are four milk cows, Shorthorn grades; some purebred Shorthorn cows and calves and a few stockers. Cows and sheep well woolled, are to be sold, and a full line of newly worn implements, such as wagons, disc drills, cutting box, power cultivators and plows.

In horses he has a hackney colt, 3 years old, out of imported stock, and prize winner at Toronto as a foal. It will make a good driver for a town or country man. Two two-year-old hackneys and a span of two-year-old greys, two roos, are pulled for a month, but that is hard to beat. You can't afford to miss this sale. Auctioneer Thomas Poucher is in charge.

ONTARIO CO. PLOWING MATCH.

R. B. Smith, secretary, calls a meeting of the officers and directors of the Ontario Co. Plowing Club, at the Hotel Myrtle Station, on Saturday, Oct. 2, at 7 o'clock p.m.

SHOT HIMSELF.

CLEVELAND, Ohio, Sept. 30.—Sylvanus Bourne, aged 62, president and treasurer of the Bourne & Knowles Manufacturing Co., maker of iron specialties, committed suicide in the offices of his plant to-day by shooting himself in the head. Worry over the illness of a son prompted the act.

DARING BANK ROBBERY

Two Bandits Hold Up Cashier While Crowd Looks On. GLENWOOD SPRINGS, Col., Sept. 30.—Two armed posses are scouring the mountains in the vicinity of this city, in the hope of capturing the two bandits who yesterday afternoon robbed the Citizens' National Bank of Glenwood Springs of \$6000.

The robbery, the most spectacular ever known in the west, took place in broad daylight, while the street in front of the little bank was thronged with summer resorters. The robbers eluded their way thru the crowd and entered the bank.

F. E. Drach, the acting cashier, was at the window. The robbers wore no masks. Drach and his bookkeeper were compelled to throw up their hands, and as they did so the contents of the safe into a sack and the two made their way out of the rear door, mounted horses and galloped for the mountains. One of the bandits' horses was shot down, but the men continued their flight on the one remaining animal.

DOMINION COAL STOCK SOARS

Eight Points Advance—Par Offer for Ross Stock. MONTREAL, Sept. 30.—(Special.)—The sudden jump in Dominion Coal to-day from 76 to 84 was attributed in some quarters to a rumor that President James Ross had been offered pay for his holdings, but the rise is more likely due to the fact that Mr. Ross considers the backbone of "John Milton" to be broken. As a matter of fact, a gentleman sometime ago is said to have asked Mr. Ross if he would take part for his common stock. The rumored reply was to the effect that he would agree to no deal of this kind that did not include the minority shareholders.

Knox College Conference.

The Knox College post-graduate conference continues its sessions yesterday. Rev. W. M. Grant, M.A., of Marlham, spoke in the afternoon on "The Self-revelation of Jesus, as Discussed by Dr. Denney in His Jesus and the Gospel," and an address on "John Milton" was delivered by George H. Robinson, M.A. At the morning session Rev. Prof. Ballantyne, D.D., spoke on "Old and New Factors in the Religious History of Canada." Prof. Prof. Kilpatrick, D.D., concluded his series of lectures on evangelism, speaking at the morning and evening sessions. Rev. J. G. Goff was the speaker at the luncheon in the college hall. His topic was "China." The conference concludes with this morning's session.

PASSENGER TRAFFIC.
