NEW YORK STOCKS STRONG AT CLOSE

Early Indecision Over Railway Situation Soon Replaced by Confidence.

NEW YORK, Sept. 2.—Today's market hesitated at the outset, first quotations indicating doubt on the part of the professional element as to the significance of overnight developments in the railway labor situation. This condition gave way later to general strength, the advance being aided by extensive short covering.

Steel of Canada Strengthens and Sentiment Improves With Strike Situation Settled.

The Toronto Stock Market had little activity on Saturday and, with one exception, Steel of Canada, prices showed no variations worth mentioning. Steel of Canada rose 1½ points, to 60, but the support was cautlous, and lowered to 59 at the close. The pool in this stock are allowing dividend rumors to filter out again, but outside speculators are not playing the shares except for quick turns, and the distribution is slow. There is a steady series of investment demand for Brazilian and Mackay, and there is consequently a good market for these issues at current prices. More interest is beginning to develop for the unlisted stocks, with the active Porcupines in principal demand. With the American strike situation cleared the market feeling was more confident here at the week end.

NORTH TORONTO AND ST. LAW-RENCE MARKETS.

There was a beavy market at both places Saturday, with firm prices prevailing. The North Toronto market had more farmers come in than on any previous day.

Butter was scarce, and as there was a great demand for it, higher prices were the rule; a very small quantity bringing 40c per pound, and some selling as low as 35c per lb., but the bulk bringing 37c and 38c per lb.

New-laid eggs sold well at the opening, and there were some high prices obtained, but there was such a large quantity offered, especially on the St. Lawrence, that they became draggy and closed at lower prices. There were a few dozen of Thursday's and Friday's gathering which brought 45c per dozen; the bulk going at 40c per dozen, with quite a large quantity declining to 38c and 37c per dozen, and some closing at 35c. Chickens and ducks were both brought in heavily, but there was a good demand for them, so they kept about stationary in price; the chickens selling at 28c to 32c per lb., and the ducks at 18c to 24c per lb.; some sold over the counter at so much each, bringing slightly more.
