National Unity Essential to VICTORY

To-day, Canada, like the other fighting nations, has Union Government. War has proved its absolute necessity. It is the ONLY way in which Canada can throw her whole strength into the business and finish the war victoriously.

Party must give way to the supreme concern for the safety and continued existence of the state.

Any opposition to national unity at such a time as this must, if it is not to plead guilty to a charge of utter disloyalty, arise from thoughtlessness, rank prejudice, or narrow party spirit. The following extract from de Tocqueville written half a century ago, condemns such opposition as is being launched by the Laurier-Bourassa faction—"For a generation which is manifestly called upon to witness the stern and terrible changes of the con-stitutions of the empires of the earth, the deadliest sin is thoughtlessness, the most noxious food is prejudice, and the most fatal disease is party spirit."

Patriots will Support Union Government

The fainthearts, the indifferents, and the quitters in the Province of Quebec must NOT be permitted to interfere with the will of the people as represented in the leading men of both the great parties, brought together in Union Government. If Laurier

prefers Bourassa to the great Liberal leaders who have thrown in their strength and influence with the great Conservative leaders for the Winning of the War, Laurier must be prepared to lose his personal following while there is real work to be done.

The Vote is your Seal of Approval

Union Government is formed by the union of men who have sunk political differences in the hour of great national danger. It has come into existence in order that the whole moral power of Canada could be organized for victory.

The task of getting these strong men together has been accomplished; all that remains is for the people to put their seal of approval on the best Government Canada has ever had.

Support and Reinforcement of our Fighting Forces Supremely Important

Union Government is pledged to supply reinforcements of men and money at the earliest possible moment. The rejection of Union Government and all it implies would be disastrous, and its effects far-reaching. This war is a test of civilian morale as well as of military efficiency. Behind the armies stand the people; if they break no valor in the field can avert defeat.

The Kaiser hopes the Laurier-Bourassa faction will accomplish in Canada what Lenine is achieving for him in Russia. Your interests and the Kaiser's are absolutely opposite—and it is you who have the vote.

WOMEN WHO CAN VOTE

Every woman may vote who is a British subject, 21 years of age, resident in Canada one year, and in the constituency 30 days, who is the mother, wife, widow, daughter, sister or half-sister of any person, male or female, living or dead, who is serving or has served without Canada in any of the

Military forces, or within or without Canada in any of the Naval forces of Canada or of Great Britain in the present war, or who has been honorably discharged from such services, and the date of whose enlistment was prior to September 20th, 1917.
