

THE EVENING TIMES, ST. JOHN, N. B., WEDNESDAY, AUGUST 2, 1905.

## GEORGE ROBERTSON TO BE REGISTRAR OF PROBATES

There is no longer any doubt that the position of registrar of probates will go to George Robertson, M. P. P., although the date when his appointment will be officially announced is not yet made public. Mr. Robertson's name has been prominently mentioned in the connection for some weeks past, and considerable speculation has been rife in local political circles as to his successor in the New Brunswick legislature.

On the Liberal side several names have been put forward in street talk as possible candidates. Among these, A. O.

Shinner, the government nominee at the last election, is naturally regarded as still in the running, but if any surprise is in store it may be found in the election of Ald. Frink or Ald. Bullock. The Conservatives are thought to be likely to contest the seat. Their choice is said to be among Ald. MacKae, L. P. D. Tilley, Ald. Baxter and John E. Wilson. It is claimed by friends of each of these gentlemen he has a considerable following, and the chances are that a lively election campaign may be in operation in the near future.

## SUPREME COURT OF I. O. F.

Much Business Done at the Session in Atlantic City—A Plan to Settle the West With Foresters.

Atlantic City, N. J., July 31.—Previous to the business session of the Independent Order of Foresters, which convened here today, a reception was tendered Dr. Oronhyatskah and the members of the supreme council at the Hotel Bedford, where they have headquarters. In his address to the Foresters today, in speaking of the life insurance rate, Dr. Oronhyatskah said:

"Our premium rate has given us much content. With our experience in Massachusetts, where we were met with the statement that the law of the state required of all orders seeking license to do business in Massachusetts that they should have rates equal at least to the national fraternal congress table of rates, with the thought before us that the uniform bill of the national fraternal congress would be adopted in many of the states of the United States, I at last came to the conclusion that it was better that we should at the present time harmonize our rates with the requirements of the national fraternal congress table of mortality, at four per cent, because it would come ere long a legal necessity in many of our jurisdictions."

He also advised that a movement be started toward sending young men, members of the Foresters order, to the richly cultivated lands of the northern state and in Canada, saying:

"In our great Canadian northwest there are millions of acres rich with the accumulated fertility of the centuries awaiting settlement, whereon any young or middle-aged man can easily in a few years make a competence and secure a comfortable home. This year it is estimated that from the Canadian northwest alone there will be harvested 100,000,000 bushels of wheat. In a few years this will be doubled and quadrupled. Lands now can be purchased at a small cost. They are rapidly rising in value, and those who are able to procure and take possession of them now have their future assured. The opportunities thus offered are being embraced today by hundreds of thousands of people from the different countries of the world, and I am anxious that a large number of Foresters should reap a share of the prosperity which must flow from the development of

this great agricultural empire. I propose that we shall take hold of every sober, industrious, honest young man who is a member of our order, or is willing to become one, and place him on one of these farms, thereby giving him such opportunities as will enable him to become the possessor of a home and a self-supporting member of the community."

Dr. T. Millman, the supreme judicial examiner, who is prominently identified with the Royal Society of Surgeons, rather startled the delegates by sending a warning against the steady increase of tuberculosis, stating that twenty-one per cent. of the applications for life insurance were rejected and eighteen per cent. of the deaths the past three years were due to tuberculosis.

Atlantic City, N. J., Aug. 1.—The Supreme Court, Independent Order of Foresters, today elected Toronto (Ont.), as the next place of meeting, four years hence. The salary of the supreme chief ranger increased to \$15,000 per year, and the treasurer's salary to \$8,000. Among the officers elected were:

Supreme chief ranger, Dr. Oronhyatskah, Toronto.

Supreme secretary, John A. McGillivray, Toronto.

Supreme treasurer, H. A. Collins, Toronto.

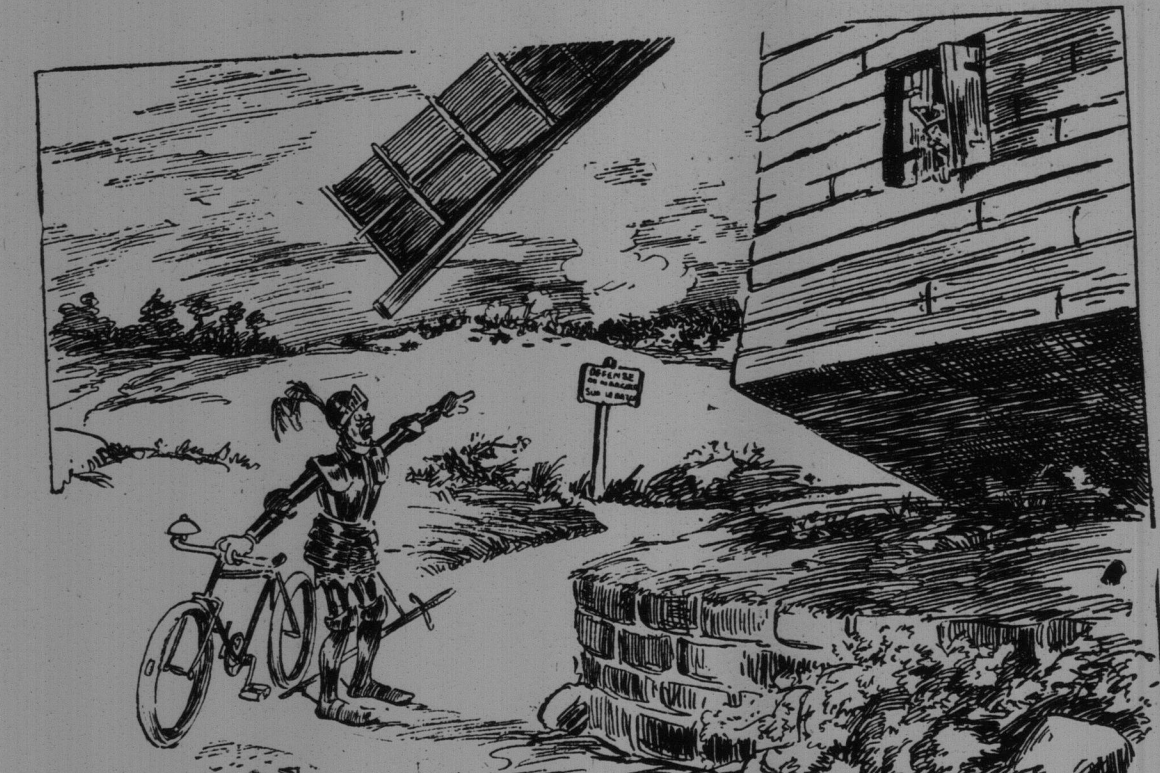

Supreme physician, Dr. Thomas Millman, Toronto.

Supreme councillor, Elliott G. Stevenson, Michigan.

## A POINT OF ETIQUETTE

Toronto, Aug. 1.—(Special)—An interesting point of military etiquette was raised in the police court today when an escort from Stanley barracks appeared before Magistrate Denison to claim one of their comrades arrested for drunkenness. The escort wore their helmets in court, and for this they were reprimanded by the magistrate, who made them remove them. Officers at the barracks claim that the magistrate was in error, for, according to military etiquette, the men should have worn their helmets.

## HUMORS OF HISTORY---107.

The Prince of Wales Wins his Spurs. A.D. 1346

KING EDWARD III. it is reported, watched the battle of Crecy from a windmill. The Prince of Wales, a lad of fifteen, was sorely pressed in the front of the battle, and an urgent request for reinforcements was sent to the King. "No," said Edward, "let the boy win his spurs; his shall be the play of the day." The French were defeated—with a loss of eleven princes, twelve hundred knights, and thirty thousand soldiers.

## MONCTON NEWS

I. C. R. Firemen Discuss Grievances—The Case of the Armstrongs—Baseball.

Moncton, N. B., Aug. 1.—(Special)—The grievance committee of the Brotherhood of Locomotive Firemen, who are holding their annual meeting here, had a conference today with G. R. Doughty, superintendent of motive power, for the purpose of adjusting a few minor grievances of members of the order.

The committee re-elected last year's officers for another term. The chairman says there were very few grievances for the committee to take up. All matters to be dealt with were arranged with the superintendent of motive power without having to confer with the general manager.

The preliminary examination of the Armstrongs on a charge of stealing from an I. C. R. train, was adjourned until Thursday after three more witnesses were examined by the prosecution. Miss Bell McRae, who lost the selected, is expected here to give evidence Thursday.

The total fines and costs in the police court July were \$338.75, including Scott act, \$250.

At a meeting of the base ball league executive today, the N. B. C. team re-joined the league, and W. McCarthy, the Boston pitcher, was added to the pitching staff. Ned Embree will play with the Trojans, and these two teams will cross swords Friday night. Great interest is taken in the game in consequence of its trouble and the two crack players that have been added.

## TAKE IT OR GET OUT

Northern Pacific Railway Sends Rather a Drastic Order to its Telegraphers in relation to Question of Wages.

St. Paul, Minn., Aug. 1.—General Manager Horne, of the Northern Pacific Railroad, today sent an order to all telegraph operators employed by the system from St. Paul to the Pacific coast, that they should accept the terms of settlement of the wage question, offered by the company, or they could leave the company. Just how many men have refused to accept the company's terms is not yet known. After having issued the ultimatum in the men, Mr. Horne gave out a statement in which he said among other things:

"Mr. Perham, president of the Order of Railroad Telegraphers, this morning advised me that he intends to go the limit with both the Northern Pacific and Great Northern Railways, just as soon as he thinks such a course necessary."

The Northern Pacific started a lock-out of its telegraphers because of a strike vote taken on May 27th. Strike instructions were issued July 5th and these with the vote are still hanging over its head in spite of the fact that during several weeks negotiations the points of difference have been pretty generally cleaned up, excepting the Sunday rate and raise of minimums.

The Sunday rate demanded is different from any in the United States and would add to the pay roll of the telegraphers about \$100,000 per year. The company's rate of pay is not exceeded, but on the other hand is considerably higher than on most of the roads in the same territory. It has granted liberal increases to its telegraphers during the past five years. When the conference started on July 1st strike instructions had already been in force for an entire week. Last Friday when we concluded negotiations they were still hanging over our head. The road was in this position:

"Mr. Perham or his committee could inaugurate a strike of our telegraphers any time they saw fit. They would neither accept nor reject the company's proposition. This uncertainty the company would not put up with and as a result a lock-out was inaugurated today."

President Perham, of the Railway Telegraphers' Union, said to day:

"But one man has failed us. Elsewhere they have gone out uniformly. The superintendents have not called on operators or agents in the Twin Cities or any of the large stations. I want to make it

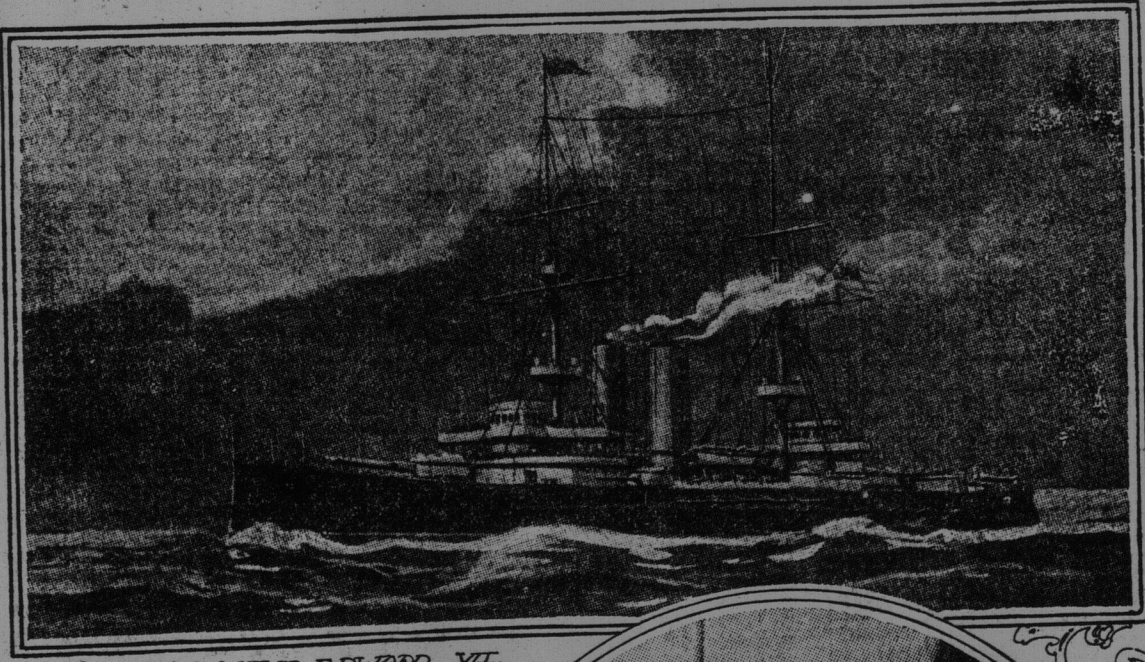

clear that this is not a strike, but it is a lock-out."

## WEALTH.

Robust Health More Valuable Than a Gold Mine.

Everyone desires to be wealthy. What is wealth? A hoard of gold or bank stocks? No, not by any means. A Croesus, facing death, would freely give all for health. A healthy, strong man or woman is wealthy. Analyse this and see. To be healthy, all the functions of the body must work well. The bowels must move daily, the kidneys must act regularly and the skin must do its work. Constipation brings headaches, back-aches, sallow or grey complexion, because of the bowels, which they cannot do, and the body is poisoned. Fruit acts on the bowels, kidneys and skin—it cures constipation, biliousness, liver and kidney disease—purifies the blood—and makes the complexion clear. To get the full benefit of ordinary fruit, you must take a lot of it. A physician in Ottawa has discovered a method of combining the juices of oranges, apples, prunes and figs and forcing into the united juices one more atom of bitter from the orange pith. This makes a stronger and more condensed fruit. This condensed, stronger fruit, with tonics added, is put up into tablets under the name of "Fruit-a-lives" or "Fruit Liver Tablets." For those travelling, "Fruit-a-lives" are invaluable, protecting the system against changes of climate, diet and water. The sale of these tablets all over Canada is simply enormous. Use them and become healthy which means wealth. At drug stores, 50c. a box or 6 boxes for \$2.50, or sent by mail on receipt of price by Fruit-a-lives Limited, Ottawa.

## BRITAIN'S FINE NEW BATTLESHIP AND MAN WHO WILL COMMAND HER

H.M.S. VICTORIA VII.

## WILL FIGHT FOR TRADING STAMPS

The Dominion Trading Stamp Company Has No Intention of Going Out of Business.

Ottawa, Aug. 1.—(Special)—The Dominion Trading Stamp Company is evidently not going out of business without a fight. In a circular to its patrons the company says: "The act just passed by the house of commons gives us until next November to go out of business. But this does not mean that we are going out of business, as we intend to test the constitutionality of the law just passed in the house. We have won in three similar cases and we think we can do so again."

It is said that A. B. Aylesworth will be employed by the company to test the case.

The law providing for the punishment of those who adulterate foods is to be enforced rigidly and those found guilty will be dealt with as severely as the statutes allow.

W. J. Gerald, deputy minister of inland revenue, stated today that tests will be continued and when a dealer is detected the punishment will be inflicted in every case in as severe a manner as the nature of the offence calls for.

Spices, maple syrup, maple sugar, and coffee are found to be more frequently adulterated than any other class of food stuffs, but in many cases the adulteration does not always mean that harmful ingredients are used, but that the consumer is cheated by the introduction of cheaper commodities. These latter are hard to detect by the consumer.

## P. E. ISLAND NEWS

Charlottetown, P. E. I., Aug. 1.—(Special)—At a special meeting of the city council tonight it was decided to renew the contract for five years with the Charlottetown Light & Power Company for lighting the city on the terms as announced recently.

Before the agreement is finally ratified it must be submitted to a public meeting for endorsement of the citizens, to be held Tuesday next.

The governor-general will formally open the Macdonald Consolidated School at Hillboro on Thursday afternoon. On Friday afternoon he will be tendered a reception at Government House, and a tennis tea will be given in his honor at Victoria Park.

## SAYS DUTY WAS PAID

J. M. Johnson Talks on That Wool Seizure.

Calais, July 30.—The people of Calais are greatly interested in the announcement that 22 bales of wool had been seized in Boston on suspicion that the duties had not been paid in Calais. The wool was alleged to have been consigned to Crimmins & Pierce of Boston by former Mayor Johnson of Calais.

Mr. Johnson was seen Saturday night and said that no wool had been shipped by him, but that the consigners of the wool seized were undoubtedly the Calais Tanning Co., of which Mr. Johnson is a director and treasurer. Mr. Johnson says he can see no reason why the wool should have been seized. He says the duty has been paid and the Calais Tanning Co. has receipts for it. It also has affidavits from several reliable men, he says, showing that the wool was properly declared and weighed, and in fact that there was nothing irregular whatever in the transaction.

## RIOTOUS STIKERS

Montreal Laborers Make a Demonstration

Montreal, Aug. 1.—(Special)—Two hundred and fifty men, composed of striking carpenters and sympathizers, made a demonstration against non-union labor in front of Grovenor flats this afternoon, and a detachment entered the building and allowed the foreman into the street.

The Grovenor flats employ in their construction just now more non-union men than any other building in the city, and are therefore of special interest to the strikers.

When the foreman found himself in the street he called up the police reserves of two districts, who arrived on the scene and dispersed the crowd. One man, however, refused to move on and was arrested. A guard of two mounted policemen and nine footmen was placed over the building, and it will be maintained until there is no further evidence of interference.

Four-year-old Edith Thompson, of 151 Queen street, who yesterday was reported to the police as lost, was found in Harry McBeath's grocery store, Charlotte street, whither she had wandered. She was taken to her home.

No Breakfast Table complete without

# EPPS'S

An admirable food, with all its natural qualities intact, fitted to build up and maintain the system, and to resist winter's extreme cold. It is a valuable diet for children.

# COCOA

The Most Nutritious and Economical

# Amland Bros' Annual August Furniture Sale.

Now is the time to acquaint yourself with our establishment, our assortments, good values and rare opportunity of buying new and stylish furniture at and below cost in many instances. In all these essential elements our pre-eminence is shown and our mastery of merchandizing is evident. We make a specialty of refurnishing new homes, and we strongly urge intending purchasers to do their shopping early. Open every night. See below the money to be saved:
