U. S. PRESIDENT ON HIGH SOCIETY

"For Those Who No Longer Have Anything Important to Do," He Says

President Wilson paid his respects to so-called "high society" in a speech he delivered recently at a public meeting held in Washington in the interest of Bera College, Kentucky.

"It is very amusing sometimes," said President Wilson, "to see the air that high society gives itself. The world could dispense with high society and never miss it. High society is for those who have stopped working and no longer have anything important to do."

The president said among other things: "The only thing that is worth while in human intercourse after all is to wake somebody up, provided you wake them up to see the light, provided you wake them up to see something that is worth seeing and to comprehend something that their spirits have not hitherto comprehended."

"There are colleges and colleges. I have spent the greater part of my life doing what is called teaching, but most of the pupils of most of our universities systematically resist being taught."

"I remember being somewhat comforted and reassured some years ago, after I had taught for ten or fifteen years, by being told by a friend of mine at Yale University who had taught for twenty years that he had found that the human mind had infinite resources for resisting the introduction of knowledge."

"But here a college filled with people hungry to learn. If I had the sense that I thought was worth their hearing I should love to address a body of people hungry to learn. I have never done it yet. I have devoted the best energies to getting their attention."

"What America has vindicated above all things else is that native ability has nothing to do with social origin."

The president here made the remarks quoted.

"Those who can open up the great organs of power," he continued, "are those who feed the nation, and when one thinks of that old stock in storage there in the mountains for over one hundred years untapped, some of the original stuff of the nation, waiting to be used one ought to bid goodnight to those who are going there and using their old capital that has not even been put out at interest, that has been, as it were, kept in a chimney-piece until we shall go to it and use it and find that the usury from it was that same usury of freedom and of power and of capacity which has been so characteristic of the American from the first."

"I do not see how anybody can think of Bera and the work it has to do without catching fire. The trouble about the world is that there are so many interesting things to do that one hates to confine himself to one or two of them. I find myself envying missionaries, engineers, surveyors, pioneers of all sorts, envying those who touch with the closest possible contact the genuine stuffs."

whether of the animate or inanimate world, because they must have the sense to use their imagination at all, or in some way carrying the great world upon their shoulders and making it servicable for mankind."

"So that I have not come here to patronize this cause. I have not come here to lend it such support as it may get from the office that I temporarily occupy."

"I have come here as I have come on many other occasions before the American people had put any burdens on me, to help Dr. Frost, if I can attract the attention of men, and thinking men and women everywhere, and men with power and men with energy to these great and noble things that need to be done and done well and done at once."

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts

Rheumatism is easier to avoid than cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinges of rheumatism get from any pharmacy about four ounces of Jod Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jod Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

SECOND-HAND GOODS

WANTED TO PURCHASE. Gentlemen's cast off clothing, boots, musical instruments, jewelry, bicycles, guns, revolvers, tools, etc. Highest cash prices paid. Call or write L. Williams, 16 Dock street, St. John, N. B.

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises All Women to Take "Fruit-a-Tives"

Hagerstown, Ont., Aug. 20th, 1913. "I can highly recommend 'Fruit-a-tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-tives' for a general break-down and they did me a world of good. We bought a good many dollars' worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

MRS. W. N. KELLY.

"Fruit-a-tives" are sold by all dealers at 50c. a box, 8 for \$2.50, trial size, 25c., or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.
