Secret That Every

Woman Should Know beauty, but so many unconsciously handicap themselves in the effort to look their best! Any physician will tell you that the basis of good health tell you that the basis of good health lies in keeping the system free from those poisons that accumulate so quickly if the body does not function naturally every day. Unfortunately, six out of ten women, it is estimated, are risking their good health constantly because of the fact that these toxic poisons do not naturally move out of their systems. And the result is that their health is impaired, not to the extent of putting them into a sick bed, but through little headaches, a constant feeling of fatigue, aches, a constant feeling of fatigue, a heaviness that makes them dull and creates a spiritless attitude to-ward life and its duties. Their beauty is seriously affected. The color of the skin becomes sallow because of these poisons, circles appear under the eyes, the complexion goes. To overcome such a condition it is imperative to rid the body of this waste material. For over twenty years women have been aided by Sal Lithofos, a gentle cleanser and pleasant laxative which has been highly recommended by leading physicians that is required. Results are really marvelous. Health is restored, ap-
