However, better late than never. At present the only provision for free maternity care in hospital in this city consists of one or two beds at the Saint John Infirmary, when, mercifully, they are available. At its last meeting the Municipal Council made a grant of \$1,000 for maternity care among the city's poor, as the Victorian Order nurses cannot attend cases where there is no doctor, and Saint John does not provide a physician to care for poor find the Globe editorially taking the help me carry these boxes downstairs. mothers in their homes at a time when ground that through the Railway Comskilled help si more needed than at any mission, the Duncan Commission and NOWADAYS when you ask a man

If we were to regard the matter even from the most selfsh standpoint, such action is still necessary, for we pay dearly in money and in community weakness for neglecting to look after the poor mothers and their off-spring until such time as they are able to fend for themselves.

"Drake's Drum," by Sir Henry Newbolt.

F YOU like a rousing ballad, as I do, here is one that has always set my pulses beating faster. It would make a splendid recitation. The master of one of our best boys' schools has taguht it to many a youngster, and there isn't a manly lad, he says, who does not love the flowing lines.

Newbolt has written many stirring songs, which are better known in England, perhaps, than over here. He is one of the modern poets well

all seems clear sailing. He seems to have a definite plan of action which he followed from the first and which led him straight to success. But isn't this largely a delusion? Isn't it true, as Randolph S. Bourne points out, that we all, rich and poor, successful and unsuccessful, live from hand to mouth.

AN ARBOR that harbored a lass who was fair, still lingers, so kind, in my mind. Her face was the trace of all sweetness. Her hair round innocence closely entwined.

THE MAIN STREET ATHEIST. also of the aggressive unbeliever of that elder Main Street to dare Providence

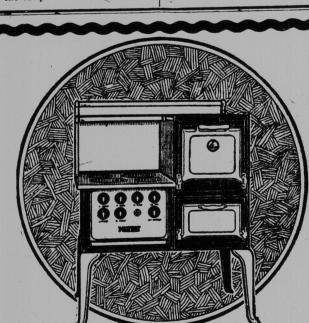

(New York Sun.)

A generation ago every American hamlet had a village atheist as well as a village idiot. Until yesterday, when the news came that Mr. Sinclair Lewis had "defied the Deity" in a Kansas City church, we had believed that the roaring atheist of yore had become rarer than the idiot or in many cases shared a single identity with that unfortunate.

Needless to say, nothing happened to Mr. Lewis on Sunday, just as nothing ever happened to the village atheist of Sauk Centre who doubtless terrified the Sinclair boy with his mouthings in the early '90's. It was the habit in series of the aggressive underect of that elder Main Street to dare Providence to strike him down as he stood beside the cracker barrel in the general store and shook his first toward the coal oil hanging lamp.

Fabre does not tell us that insects have cosmic thoughts, but we can imagine a devastating and provocative cockroach creeping to the roof of a tenement house on a starlit night and defying Betelgeuse or Aldebaran to come down and burn him up; and saying to himself, when destruction did not ensue. "He didn't dare try it."
