ST. JOHN LAST OF THREE BIG MEETS

Frank White, Home, Speaks of the Skating Programme Chicago, Montreal and Then the International in This City—Lake Placid Delegates Present Proposal Re the Diamond Trophy.

Frank White, president of the Maritime Provinces Amateur Skating Association, who attended a meeting of the International Skating Union of America held in Montreal on last Saturday, arrived home yesterday.

In conversation with a representative of the Times this morning Mr. White said the major portion of the meeting was occupied with rules and regulations, and quite a few changes were made.

Regarding the big international meet which was awarded to St. John, Mr. White said it will be conducted by the Maritime Provinces Amateur Skating Association. No dates have as yet been set.

While at the meeting, Mr. White spoke in favor of the skating going on in a meet to be held there. He told of the interest being manifested there in skating and the strong membership of the branch, which was to be affiliated with the Maritime Association.

It is felt that by looking after the younger generation of the future of skating as one of the national winter sports will be assured.

Mr. White said that the big skating classic was awarded to St. John largely through the efforts of President Taylor of the Canadian Association, and of Alderman Rubenstein, who is a member of the board of control.

BETTER THAN EVER SAYS M. CORR ON RETURN. D. J. Corr arrived home today from Montreal where he had been with Frank White attending the meeting of the International Skating Union.

PAVING COMPLETED.

The pavement work in Haymarket Square is practically completed, so Thomas Stephen, manager of the Stephen Construction Co., said this morning. There remain only a few finishing touches to be added, and these the company expect to have carried out today.

The Diamond Trophy.

The Montreal Gazette says: "Lake Placid delegates—E. C. Pearson and Patrick Hennessy—sprung a surprise on the Chicago representatives by not asking for sanction to hold another diamond trophy meet, but instead offering the diamond trophy idea to the International Skating Union of America as a premier event, if the officers so desired. When the offer was made it was pointed out clearly that, if accepted, every association would have an opportunity to compete to decide who is the international skating ace and that Lake Placid stood ready to take her chances along with the rest rather than confine the event to Lake Placid rink."

TINKER WITH HOCKEY RULES

Toronto, Nov. 7.—Hockey leagues everywhere appear to be obsessed with the idea that they are not doing their duty to themselves and to the game unless they do some tinkering to the rules of play, says the Globe. The pioneers are the Pacific Coast League, who have "monkeyed" with the playing code until they have all but succeeded in ruining the game. Their example was followed by the pros in the east, but the climax was capped yesterday when the U. S. Intercollegiate Hockey Association got to work. The organization is composed of eight eastern colleges, namely Harvard, Yale, Princeton, Cornell, Columbia, Pennsylvania, and Princeton.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "is there as much frivolity in the Settlement as there is in the city?" "No, sir," said Hiram, "they ain't. If I do say so, our young folks tries to improve their minds. You'd be surprised if you come out there to a concert or a school class or something like that and see what they do do. Me an' Hanner often talks about it. Hanner says the country is goin' on the same as it always did raisin' up the young folks in a circle an' thinkin' they're gittin' somewhere. I tell you Mister, the young fellers in back settlements readin' books an' papers an' thinkin' deeper than most of them that's in town."
