The new steam treatment

Pale, sallow skins
The new steam treatment for them
 One night a week try this treatment. Fill your bowl full of hot water—almost boiling hot. Bend over the top of the bowl and cover your head and the bowl with a heavy bath towel, so that no steam can escape. Steam your face for thirty seconds.
 Now lather a hot cloth with Woodbury's Facial Soap. With this, wash your face thoroughly, rubbing the lather well into the skin in an upward and outward direction. Rinse the skin well, first with warm water, then with cold, and finish by rubbing it for thirty seconds with a piece of ice.

Skin blemishes
How to get rid of them
 Just before retiring, wash in your usual way with warm water and Woodbury's Facial Soap and then dry your face. Now dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy cream-like lather. Cover each blemish with a thick coat of this soap cream and leave it on for ten minutes. Then rinse very carefully with clear, hot water; then with cold.
 Use Woodbury's regularly in your daily toilet. This will make your skin so firm and active that it will resist the frequent cause of blemishes and clear your skin.

Blackheads
How to keep your skin free from them
 Try the treatment given here. Apply hot cloths to the face until the skin is reddened. Then with a rough wash cloth, work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with clear, hot water, then with cold. Dry the skin carefully.
 To remove blackheads already formed, substitute a flesh brush for the wash cloth in the treatment above. Then protect the fingers with a handkerchief and press out the blackheads.

DO YOU know how to rouse pale, sallow skin? Do you know what causes blackheads? Do you know why the nose, especially, is apt to have enlarged pores?
 Do you know that the oil in your skin is necessary to keep it smooth, velvety, supple?
 Do you know that bacteria and parasites carried into the pores are one cause of skin blemishes?
 These are things you ought to know about your own skin. Unless you understand what is keeping your skin from having the fine texture and delicate coloring that nature intended, you cannot have the clear, soft skin every girl longs for.
 To have a lovely skin, you must know the fundamental facts about the nature of the skin and its needs.

How to improve your skin
 Find out just what is the matter with it. Is it too oily? Is it growing coarse? Are the pores on nose and chin conspicuous? Whatever your trouble may be, examine your skin carefully and learn the special Woodbury treatment to remedy the condition.

For an oily skin and shiny nose
How to correct them
 With warm water work up a heavy lather of Woodbury's Facial Soap in your hands. Apply it to your face and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with warm water, then with cold—the colder the better. If possible, rub your face for thirty seconds with a piece of ice.
 This treatment will make your skin fresher and clearer the first time you use it. Make it a nightly habit, and before long you will see a marked improvement.
