### PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

Those fortunate hostesses who can find time to entertain their guests are emphatically the best time of the year, for it is the season when strictly laid aside, when the hostess feels it incumbent to maintain lines of hospitality. Later on the social season begins on one's to find time for the "small and which hostesses and guests desire while the scene is being shifted to the city residence. The past two weeks, second in importance to the informal entertainers are the autumn weddings of these have been a great number, the past two weeks, second in importance to the informal entertainers are the autumn weddings of these have been a great number, the past two weeks, second in importance to the informal entertainers are the autumn weddings of these have been a great number.

### DANGER SIGNAL AT CORNER OF PORTLAND STREET SUGGESTED

Red Light When Fire Alarm Sounds To Warn Main Street Traffic—Fall River Freights Are Heavy—The Mills

Citizens of the North End point out that when the apparatus from No. 3 Hook and Ladder Station of the city fire department in Portland street, is called out there is much danger of collision with teams going either way in Main street, and especially with street cars.

The danger arises from the fact of Portland street being narrow and there is a very sharp corner to turn to get into Main street, also the fact that the apparatus is called out at the same time as the fire alarm, and the teams are often in a hurry to get out of the street.

It has been suggested as a remedy that a red light should be installed on the corner of Main and Portland streets which would flash on automatically with the sounding of the gong and give the signal of danger to the traffic in Main street.

Since the old fire bell at the public steps Indian town has been removed the North End has been without a fire alarm to that the fire department is frequently called out when the people have no idea where the fire is. In the estimates last year for the expenditure of the fire department during the present year a sum was voted for a fire bell for the North End and the population in the North End are awaiting action.

The river steamers are beginning to have their usual fall rush of river produce coming to the city and some evenings are quite late on arriving at the city owing to heavy cargoes.

Big game is quite plentiful and some fine specimens have been brought to the city this week. The price of moose meat is not as high as it was last week. There is very little deer meat coming down the river yet.

Some market prices for produce at the river boats are: \$1.15 a barrel for potatoes, apples \$2.25 a barrel, turnips 90

cents a barrel, tomatoes \$2 a barrel, but-ter 25 cents a pound, eggs 25 cents a dozen, poultry \$1.25 a pair, corn 15 cents a dozen and squash and pumpkins 1-1-2 cents a pound.

After being closed all summer because of labor trouble, all the lumber mills with the exception of one, have resumed operations. The men for the most part have gone back at the same wage scale and several others have also returned to work so that the mills have no difficulty in running to their former capacity. With the starting of the mills again several things which had to be tied up to their wharves have again joined the harbor. The former activity in the streets of the North End has been resumed and a great sense of relief is felt by the merchants and others who were indirectly affected.

### THE LORD MAYOR'S MOTTO

Big Wm. Thelmer when Lord Mayor of London, said: "My motto for womanhood is, 'The better the cook, the happier the husband'."

There is no earthly reason why wives should not, nowadays, perfect themselves in the gentle art of cooking. Instructions of the very best is open to them; the accumulated experience of centuries is theirs to command and culinary helps, such as have never been available before, are brought within the reach of the narrowest purse.

Take, for instance, the delicious H. P. Sauce, introduced only a short time ago from England. The different choice flavorings of Oriental fruits and spices are blended with the best of the finest oil of olive, and the young housewife, with a bottle of H. P. Sauce at her elbow, will make a certain success of the little stew, ragout, and lasagne, which are so much of a puzzle and trial to the inexperienced cook.

### TO ELIMINATE THE ONE-ROOM SCHOOLHOUSE

Washington, Oct. 4.—The old fashioned one-room schoolhouse of the country crosses roads within whose walls many of the country's most illustrious men received the rudiments of their education would be entirely a thing of the past if the United States bureau of education

had its way. Its place would be taken by the consolidated or centralized school as recommended in a bulletin just issued by the bureau. Wherever this change can be made without too great expense and without breaking up or disintegrating communities, it should be done, says the bureau.

### IMMIGRATION MATTERS

(Montreal Star)

London, Oct. 2.—The continuance of the emigrant premium frauds in the Canadian West has compelled the British government's emigrants' information office to issue a warning against the payment of any money to agents here for forms, instruction, or employment in Canada.

The family reunion movement forges ahead. The Tunisian from Liverpool yesterday took a large number of married women with babies going to join their husbands, also young women to be married in the dominion.

The proportion of such travelers was three-quarters of the whole passenger list. The husbands, in many cases, only emigrated in the spring of the present year.
