## MILL TO BE OPERATED THROUGHOUT WINTER

Col. Conrad Says Plant Near Conrad City is Running Successfully.

At the cost of \$100,000, with the same amount to be spent next year on additions which will double the plant, the first mill in the Yukon with a capacity of one hundred tons per day has recently been completed on the Conrad mines, in the immediate neighborhood of Conrad city, and is now running successfully, and will be continued at work throughout the winter.

Col. J. H. Conrad, of Conrad city, who arrived in the city last night, having recently completed the mill, is satisfied regarding the territory around Conrad and Porcupine creek, and backs up his optimism by the expenditure of \$100,000 for the mill at Conrad mine, and plans large sums for the construction of a flume and
