	ALARMS AMERICANS	OF LADING PROBLEM

Serious Blow-Many Mills Will Move to Canada.

NEW YORK, Sept. 13—The Prevince of Quebec has definitely decided to prohibit the exportation of pulpwood cut from Crown lands. In September, 1900, the Premier of the province made a promise that the stumpage rates of sixty cents per cord on wood cut from Crown lands would not be raised for a period of ten years. It is intended to carry out that pledge and no increase in stumpage charges will be made until September, 1910. The Canadian paper-makers are urging the provincial

in stumpage charges will be made until September, 1910. The Canadian paper-makers are urging the provincial authorities to stop the exportation of pulpwood cut from Crown lands but the American owners of rights to cut timber on more than 12,000 square miles of those lands represent that the pledge of September, 1900, implied a right of importation for ten years and that in good faith no prohibition should be made until the lapse of that period. The Canadian paper and pulpinterests retort that the pledge specifically related to stumpage taxes, no to exportation and that the extension of that privilege to American owners for another year will retard Canadian plans and discriminate against Canadian manufacturers who now suffer because of the retallatory clauses of the United States tariff on print paper. The provincial authorities are balancing the question whether they should prohibit the exportation of the main convention of the National Association of Supervisors of State Banks was held a which the supervisors from each state represented outlined the convention of the National Association of Supervisors of State Banks was held a which the supervisors from each state represented outlined the convention of the National Association of Supervisors of State Banks was held a which the supervisors from each state represented outlined the convention of the National Association of Supervisors of State Banks was held a which the supervisors from each state represented outlined the convention of the National Association of Supervisors of State Banks was held a which the supervisors from each state represented outlined the convention of the National Association of t

CHICAGO, Ill., Sept. 13—Out of a multiplicity of conferences today preliminary to the convening of the 35th annual convention of the American Bankers' Association tomorrow, one fact stands out supreme in the opinion of the bankers and that is that "the bill of lading question, one of the greatest commercial problems of the day, will soon be settled to the satisfaction of bankers, carriers and shippers."

The cry of the bankers has long been for a bill of lading which will make the carrier issuing it responsible so that it will be a safe negotiable instrument. police court this morning and owing to the fact of that few cases out of the ordinary wereon the docket there was quite a large number o spectators in court. The session was a rather lively one and Magistrate Ritchie was no way mild in his sentences as well as his remarks to the prisoners. There were common drunks, a tramp, a man charged with highway robbery, another with common theft, and one with obtaining money under

Charles Kane, a young man who has on numerous occasions been a source of trouble to his family, was the first victim called to face his honor. He pleaded guilty to being drunk on Richmond street. Officer Scott in-formed the court that he had been called by the prisoner's brother to eject him from the house, that he was drunk and was using some very bac language to his mother and sister.

The magistrate then gave Kane a lecture that he should not forget for

some time. 'I thought you were forbidden by me to go near your home; you shouldn't be living at home disgracing your mother and sister as you have been doing. I told you once it would be better for you to take the name of Hum Hum."

MISS ELKINS CAN HAVE HER PRINCE IF SHE WANTS HIM

Abruzzi's Family Will Place No Obstacles in Way of a Regular Marriage

the present time the rink property is held by W. D. Baskin, Israel E. Smith and Major John J. Gordon as a board of trustees. The incorporation of the club will facilitate the raising of money for the purpose of alterations and repairs to the building.

MUST BE A REASON.

The Currie Business University is in closer touch with the business offices than is any other school.

Its graduates receive from fifty to one hundred per cent, more salary to start than graduates of other business schools.

There must be a reason.

DODD'S

KIDNEY

PARIS, Sept. 14.—A high personage in touch with previous preliminary arrangements in regard to the marriage of the Duke of the Abruzzi and Miss Katherine Elkins, said today, that contrary to the popular impression the real hitch was not due to objections by the Italian royal family but to the attitude of Miss Elkins herself.

"If Miss Elkins would accept the duke," said this authority, "no obstacle would be placed in the way of the marriage by his family. I know that the king and the royal family have offered to grant their consent, not to a morganatic union, but to a marriage which would include the privileges and rank for Miss Elkins to which the duke is entitled.

"The queen mother, perhaps, was now pleased with the prospect of the duke contracting a union with an American, but her objections would have been withdrawn. The duke's fate rests with Miss Elkins herself. If she should say the word, the duke would be at her side tomorrow and the marriage would not long be delayed."

The police were called into Amelia

The police were called into Amelia Francis' house on Sheffield street last night to eject an undesirable person. He must have been very objectionable.

The police were summoned to 15.
Horsfield street last night to quell a disturbance.
