WILL LEASE DUKE STREET SITE TO BRUSH COMPANY

Council Provides for Location of Industry Burned Out in Recent Fire --- Must Erect Factory and Employ Fifty Men--More Money for Dunn's Wharf Repairs.

At the meeting of the City Council yesterday, it was decided to grant the Canada Brush Company a lease of certain lots on Duke street, on condition that they would erect a new factory and employ 50 hands. Commissioner Schofield submitted the following report which was adopted as read:

Your commissioner recommends that arrangements be entered into with the Canadian Pacific Railway Company, for repairing the trestles at berths Nos. 1, 2, 3, and 4, Sand Point, by the said railway company, at cost price payment thereof to be made upon presentation of properly certified bills. The estimate and specification to be prepared by the railway company's engineer and agreed to by the city engineer and your commissioner; the expenditure not to exceed the amount of the estimate and also that an agreement be drawn up by the recorder.

(3 Your commissioner recommends that a lease be given to the Canada Brush Company, Ltd., of lots Nos. 5, 6, and 7, block F., fronting on Duke street, to be used for manufacturing purposes only, at annual rental of $10 per lot, or $30 in all, and for a term of 21 years from 1st Nov. next, the lease to be on the new form, that is to say: with covenant that when the improvements are appraised the rental also shall be appraised, payment for improvements, however, not in any case to exceed 50 per cent. on the original cost; the lease to be prepared by the recorder and to contain the following provisions:

That unless the construction of the buildings is commenced within three months from the date of the lease, or if the buildings and property are destroyed by fire during the term of the lease, and reconstruction be not commenced within three months, the lease shall be cancelled.

That the company guarantee to employ 50 hands at all times, unless the works happen to be closed down by a strike, otherwise the lease to be forfeited unless the authorities under the Lemieux act find the company at fault.

That if the works are closed down at any one time for over twelve consecutive months, or shall only be ordinarily operated during such period (except on account of strikes, unless the authorities under the Lemieux act find the company at fault) when the lessee may have the privilege of taking away the machinery within six months, and if not removed, to become the property of the city, when the lessee shall have no claim against the city for the same.

11. Your commissioner also reports that he called for tenders for planking Rodney wharf, and placing guards along the southern face of dock shed No. 4, Sand Point, but he cannot recommend the acceptance of any of the tenders.

A letter was received from James Sugrue, president of the Trades and Labor Council, asking the Council to give further consideration to the matter of offering inducements for the Trades and Labor Congress to meet here next year. It was referred to the private committee.

Com. Agar moved that the question of closing up Nelson street on the west side, be laid over for further consideration. This was adopted.

Council adjourned.

Valuable Discovery in Complexion Beautifier

(From The Home Maker.)

Because of its peculiar power of absorption, also because it serves every emollient purpose, ordinary mercolized wax is perhaps the most valuable complexion beautifier discovered within recent years. If one uses this she needs no toilet cream. Some use powder afterward, but this is not necessary and is inadvisable particularly when one perspires freely. This rule for applying mercolized wax has been found very satisfactory: Wash the face with warm water, drying lightly. Before thoroughly dry, anoint face and neck with the wax, but don't rub it in. The favorite way is to use before retiring, allowing it to remain on all night and washing it off in the morning with warm water. All druggists have this wax in original one ounce packages.

For the removal of a wrinkled or flabby condition there's nothing better than to bathe the face in a solution made by dissolving 1 ounce powdered saxolite in ½ pint witch hazel. Beneficial results are quickly noticeable.

Withdrawal Suburban Service.

After September 14th, all C. P. R. suburban trains running between St. John and Welsford with the exception of train leaving Welsford at 6.45 a. m., and train leaving city at 6.10 p. m., will be withdrawn. These two trains to be discontinued after September 21st.

STRENGTHEN THE STAFF AT ACADIA

Separate Professor Now for Each Language - Dr. Adolf F. Herrmann Takes Chair of German.

Wolfville, N. S., Sept. 3.—Acadia University has taken a step in advance in providing a separate professor for each language. Last year Prof. W. H. Thompson, Ph. D., took charge of the Latin, while Prof. R. V. Jones, Ph. D., continued with the Greek. This year a professor has been appointed for French and another for German.

Dr. Adolf F. Herrmann has recently been appointed to the chair of German. He is a native of Germany, holding the degree of Reifezeugin from the Rielgymnasium, Berlin, having received the Harnisch prize at that time. After graduating he studied in Jena, Berlin, Kiel, Grenoble, and Paris. He holds a diploma from the French University of Grenoble, and the degree of Doctor of Philosophy from the German University of Kiel. He has taught in the Universitatschule of Professor Rein of Jena, and in other schools in Hamburg, and London. German has never received the attention that it merited in the Maritime Provinces, but now at Acadia we may expect a most thorough department.

The Professor of French is John Rice, Ph. D. Dr. Rice is a citizen of the United States and at the age of eleven went abroad on account of his father's health and spent the next five years on the continent, largely in France but also in Germany and Italy. After a year in an American preparatory school he entered Yale University and graduated in 1900 with a high oration standing. In 1901 he took his M. A. at Yale, and in 1902 was awarded the Scott Hurt Fellowship. In 1903 he was appointed Instructor of French which position he held until 1909, when he took the degre of Doctor of Philosophy. He had since been Instructor in Williams' College, teaching besides French, Spanish and Italian. He has kept up his connection with his work abroad, spending a portion of 1909 in Spain and Portugal, 1904 in Italy, and has spent frequent summers in France since. Dr. Rice was informed of his appointment while in Paris and is now on his way to Wolfville.
