Athens, Dec. 26-(Correspondence)-y a vivid impression on the Athens pop ndence)-Field Marshal Earl Kitchener left toulation, and especially on Constanting I, King of the Greeks. Speaking of the British war minister's visit, the Greek monarch said to the Associated Press correspondent :--

"I am a soldier, Kitchener is a soldier. We speak the same language, and stand one another

"One story which Lord Kitchener told in Athens, made a particularly deep npression. No public account of the incident had ever been given. "When the manoeuvres of the great fleet were held about a month ago, orth of Scotland, said Lord iKtchener, eight German submarines of the newest and strongest type went out with the purpose of getting to the fleet and playing avoc with the manoeuvres. The gate in the net had been closed. Two were lost desperately trying to get through. The remaining three finally were forced to come to the surface and surrender themselves. We took them in-tact crews, submarines, and all? "Another declaration of the British war minister, made to General Dous-manis, the chief of the Greek general staff, was less favorably received in Addons

Athens.

'Suppose the Germans do conquer Egypt,' he is credited with saying. 'Sup-ose they extend their line throughout Turkey and hold the Euphrates Valley. uppose they take India, what then? We shall get it all back when we defeat Suppose they take india, what then? We shall get it all back which we defeat the Germans in France. The war is not going to be fought out in Egypt or India, or the Balkans. It is going to be fought out in Germany?" King Constantine's only comment was:--"It was all very well for England to talk about what she will get back at the war's end. But we Greeks live in

London, Jan. 12-The correspondent of Reuter's Telegram Com. ny sends from British headquarters an interview with an unnamed nent staff officer, who was quoted as saying:

BEATING IN WEST"

"We now have full information about the German forces fac-ing us. We know their exact dispositions and strength. We everywhere outnumber the Germans, and also outnumber them in both field and heavy artillery, and our weapons are better than theirs. We can fire five shells to their one, without deplet-ing our munitions. We can take their first line of trenches when-ever we wish. "To say that we have got them beaten is dangerous rubbish, but, the truth is, we have got them ready for a beating."

MONTENEGRO LIKELY TO SUFFER FATE OF BELGRADE.

London, Jan. 12-Cettinje, the capital of Montenegro, now seems likely to suffer the fate of Belgrade, and British observers are already asking anx-lously what menace the Austrian conquest of Montenegro is likely to hold over the Allies at Saloniki.

Fighting is going on all around Cettinje, the small town which nearly a year ago ceased to be the seat of the Montenegrin government. Never before, in the long history of the little Montenegrin kingdom, has it been com-pelled to bow to a foreign conqueror, but there seems little hope that it can long withstand the overwhelming strength in men and guns of General Koe-

For Italy the new Austrian success has a most serious aspect. The long narrow Italian peninsula is peculiarly vulnerable to an attack from the sea, Any really great Austrian naval base in the magnificent harbor of Cattaro would have been impossible without Lovcen, but under the new circumstances, Austrian possession of Cattaro is almost as great a menace to Italy as the Ger-man conquest of Calais would have been to Great Britain.

While attention is centred on the developments on the Adriatic coast, it is announced from Rome that two Italian transports, the Brindisi and Citta Di Palermo, last week struck mines and sank. A majority of the crews were

There have been no important developments on the western front. The blowing up of a large German munitions depot near Lille is admitted in the German communication. According to one account, this was due to a British air raid. The English press believes that the cautious wording of the German

communication conceals a disaster of large proportions. There is a great spirit of optimism in both British and French despatches from the western front, the correspondents expressing the firm conviction of the Allied generals that there is no possibility of any successful German of-fensive anywhere in the west lines.
