Some 10,000 tons of Canadian bacon have just been purchased by the British Government. Doubtless the packers will use this fact as an excuse to keep up the home prices.-Kingston Whig.

THE Ottawa Journal defines the "hog the sort of protection which will enable him to bleed his countrymen both ways -namely, both by keeping out foreign goods and by bleeding his own country in order to make an extravagant profit on his own goods both abroad and at home. Canada, at this particular crisis has no use for this kind of hog.

The chief item of interest during the week was the continuance of the Debate on the Budget, by Mr. C. M. Bowman of West Bruce. Mr. Bowman ironically congratulated the Government upon the recent appointment of the Minister of Agriculture, who, according to the Provincial Treasurer, was particularly well qualified for the post. He had a happy disposition, was a graduate of Toronto University and Guelph Agricultural College, and also a practical farmer. Mr. Bowman could only think that the province must have suffered a severe loss in not having this gentleman at the head of the Department of Agriculture for the past couple of years, when his outstanding qualifications must have been apparent to the first Minister all By the time Mr. Bowman had finished with the Treasurer's financial statement he had revealed a deficit of approximately \$1,544,000 in lieu of the Treasurer's announced surplus of some thing over \$1,800,000.

The lists are now being prepared covering the exports which Germany will be permitted to send out. They will consist chiefly of coal, dyestuffs, potash and timber.

The German ships will start for America via England in a few days. It is not likely that they will carry a capacity load of American troops on their first voyage as alterations will have to be made when they reach America.

Sir Edward Kemp Speaks of Kinmel

LONDON, March 17.—Many Canadian officers were entertained at dinner Saturday by the National Liberal Club in the room in which the Canadian Confederation agreement was signed over fifty years ago. The Marquis of Lincolnshire presided, and the toast of Canada was proposed by Sir Hamar Greenwood.

Marquis of Linconsaire presided, and the toast of Canada was proposed by Sir Hamar Greenwood.

Responding Sir Edward Kemp said that at the beginning of the war a man would have been regarded as a lunatic who had foreshadowed that 410,000 or 415,000 Canadian soldiers would be sent to fight in Europe, yet that was what had been accomplished. Many now lay in France and Belgium. They in Canada were not sorry that Canada had brought upon herself a similar burden to that of other countries, but they were proud they had come into the war. If there should be any change in that attitude Canada would not be blameable.
