

## SHIPPING NEWS.

## REPORTS, &amp;c.

Ship Stewart Freeman, Raymond, from Cardiff for Montevideo, which put into Rio Janeiro leaking, has been surveyed. The surveyors recommended that she discharge and sell at auction 600 tons of her cargo.

Liverpool June 25—Ship Minnie Burrill, Robertson, from St John, NB, struck the dock entrance and received damage.

Brig Hope, from New York for Venezuela, which put into Barbadoes June 17 leaky, also had foremast broken.

Brig Jura, of Lunenburg, has been purchased by J D McLearn and others of Liverpool, NS. She will be commanded by Capt Morrison.

Schr Henrietta, Smeltzer, from Salt River, Ja, for Boston, with 66 hhd and 31 tierces sugar (before reported), sprung a leak June 9, lat 24 11, lon 74 44, and put into Nassau on the 14th, as before stated. She discharged cargo on the 19th, and went on the marine railway 20th for repairs.

Schr Barbara F Latimer, Capt Trowbridge, from Aspinwall June 5 for New York, which ran ashore at Rio Indio had become a total loss prior to June 16. It was supposed that, although she was despatched for New York in ballast, the captain believed he could obtain a cargo at Rio Indio, and attempting to make that port she ran ashore. There are heavy currents and very variable and uncertain winds in that quarter during the wet season.

BERMUDA June 18—Barque Underwriter, Stanwood, which arrived at St George in January last from New York for Bilbao, with a cargo of petroleum, and which was seized, together with her cargo, for alleged breach of "the dangerous commodities act," still remains in port, the owner having refused to take the vessel ever since the seizure, although she has been tendered to him. The cargo, about 23,000 cases of crude petroleum, was advertised by the receiver-general to be sold by auction 10th inst, but only about 250 cases were sold on that day. Before the sale Mr Allen, the owner of barque Underwriter, read a protest. The remainder of cargo was again offered 17th inst and sold for a lump sum to Mr Ingram, one of the proprietors of the oil depot where it is stored. Mr Allen again reminding intending purchasers of his protest. It is said that a suit will shortly be entered in England against the governor of Bermuda in consequence of aforesaid seizures.

GLOUCESTER, MASS, June 26—Schr Lizzie Griffin, from Grand Banks, reports on June 13, in lat 43 45, lon 51 18, passed a large vessel bottom up, much damaged, supposed to be a barque; could not make name out.

LONDON June 26—Ship Minnie Burrill, Robertson, at Liverpool from St John, NB, was in a gale on the 7th inst and lost a portion of bulwarks and had cabin doors and skylights damaged. On Wednesday she collided with a pier head and damaged her figure-head.

LOWESTOFT June 11—Barque Freidix (Nor), at this port from Darien, reports May 11, in lat 37 53 N, lon 57 18 W, passed with in a cable length of a barque or full-rigged ship of about 700 or 800 tons register on fire and then burning from stem to stern. The two aftermasts were gone, and the foremast went over the bows with two or three yards on, with the sails attached, all in flames. She was painted black with a narrow white streak, had a figurehead, some ornaments on stern but could not make out name on stern or bows because of the smoke. Her hull was holed down nearly to the water's edge. She appeared to have a cargo of big timber logs, as they were observed lying in rows burning. The bowsprit was standing. On May 14, in lat 41 05 N, lon 47 09 W, passed near to a ship's quarterdeck, with some side planks and a deck beam painted white of about 16 or 18 inches diameter attached, the beam standing nearly on end some 15 or 20 feet out of the water. The wreckage seemed to have been cut square over, and the breaks in the planks and timber looked quite new.

MONTREAL June 23—The steamer Grassbrook, of the Hansa line, now ashore on the coast of Newfoundland, is said to be but a very short distance from the place where the Anglo-Saxon, of the Allan line, went ashore in 1863. The Grassbrook is an iron steamer, built in 1882 at Hamburg, classing in the French Lloyd's equal to A1 English. She is of 1,335 tons gross, 1,450 tons net, and owned by the Demppschiff Rheiderei (Hansa) company of Hamburg. She left Antwerp on June 11th with a general cargo, amongst which was a considerable amount of window glass, merchants having supplemented their orders in many cases after the wreck of the steamer Helvetia a few weeks ago. Another window glass famine is anticipated in consequence. The Grassbrook is the second vessel of the line lost this year and the fifth of the steamships going to Antwerp within the last three years, the others being the Daniel Steinmann, the Vorsetzen, Hermann Ludwig and the Helvetia. The Vorsetzen and Grassbrook were of the Hansa line and the others of the White Cross line.

QUEENSTOWN June 23—Barque Albion (Nor), Christensen, from Liverpool June 16 for Halifax, has put in here leaky.

Rio Janeiro June 17—The Stewart Freeman, from Cardiff for Montevideo, has put in here leaky, making nine inches of water per hour.
