rest Esliway Builder's Views Before the tersiate Commerce Committee - He orges an Amendment to Existing Laws which will Cut off Canadian Competition in Freight Transportation - Canada Must Come Into the Union or Not Expect Favors.

VASHINGTON, D.C., Feb. 10.—The Senate erstate Commerce Committee held a cisl med tig to-day to listen to an arguit by Ricc J. H. Wilson, a distinguished to the strategy of th road builder and manager, on the subject he competition of Canadian railroads in rying freight from one point in the United tes to another.

eneral Witson urged an amendment of the eneral sylison urged an amendment of the enstate Commerce Act to provide that ds shipped in bond from any part in the ted States across the Canadian border and gued to be returned to another port in United States, shall be subject to duties their return.

his amendment would virtually cut off present Canadian competition in the r-State freight transportation of this ntry. This competition is increasing dily and very rapidly and deprives this reads and transferring business to those Canada. The legislation proposed is upon same principle as that of the navigation s by which this Government seeks to preforeign nations from having equal rantages with the United States in carrying trade by vessels. The tical effect would simply be that of nonstrating to Canada how much more roughly her interests are identified with United States than with Canada Reits United States than with Great Britain. argued earnestly as to the necessity for h modification of law for many commer-

The absurdity and injustice of the pre-t methods (permitting the bonding through t methods (permitting the bonding through hada) were abundantly manifest when it remembered that the Government of the y Dominion which was becoming enriched the enjoyment from us, refused positively pormit American cailroads in the Northest to take wheat of Manitoba, haul it ough the United Stares and re-enter it free duty for Canadian points. Only a few ago urgent appeals were made by the dians to the authorities at Ottawa to had their orders on this subject lest our ernment might retaliate and thus bring Grand Trunk, Canadian Pacific and other ninion railroa la to bankrupte;

ur Government had in the express of its legal right to regulate commerce pussed v, which justly enough limited the freeof our own railread corporations to mantheir business in their own way and asurably to protect themselves agaist for competition. Their hands were to a tain extent bound while Croadian roads re picking their pockets. It would seem, fore, to be no more than fair that Conss should cut off all the facilities which are ended to the Canadian roads under paraoh 3,000 of the revised statutes, article 30 he treaty of 1871, and the regulations of treasury department which carry them into But inasmuch as article 30 had exd by limitation and by the President's clamation it was no longer binding upon as a rule of conduct, and for paramont pocal reasons it should no longer be our de in determining our course towards the ninion of Canada, and our Treasury Dement should be prohibited from making regulations to carry it into effect. Back hese more obvious considerations is the at question: Shall we live in such relaas with the Dominion of Canada and the tish Maritime Provinces as to encourage m in their allegiance to the British Crown their political union with the British Emor shall we so manage our affairs as to them ultimately to a political union the United States? He wouldn't itate to declare that many of our and most thoughtful citizens were ing to look upon the existence of nada and the allied British possessions in rth America as a continuous and growing nace to our peace and prosperity, and that y should be brought under the constitution laws of our country as soon as possible, eably if it can be so arranged, but forcivif we must. The Dominion has 10,773 les of railroad, all of which has been built der British subsidies, and most of which been specially located so that it can be ed for military purposes against our entire rthern frontier. It was also well kown that tile the light of free navigation had been nceded to us under the treaties, all vessels, lether British or American, carrying reight But sweeter by far is Love's young dream. re compelled to pay higher dues than those rying freight for transhipment from nadian ports to Europe, Upper and wer Canada offered advantageous bases in eat number for military operations against most popular interior towns and cities. Dominion of Canada contained a populaof 4,324,810 sonis whom we justly disrerd as a public enemy, but at the end of 25 are it would probably contain twenty miln souls whom it would be exceedingly diffi-It to expel from an armed invasion of our rder, and impossible to prevent from in

I am an aged pilgrim, Was born long years ago; No mortal can control me, Or rule me here below.

If you have all, or any considerable number

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maindies—Billious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, Dr. Pierce's Golden Micdical Discovery will subdue it, if taken according to directured, complications multiply and Consumption of the Lungs, Skin Disease, Heart Disease, Rheumatism, Kidney Disease, or other grave muladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr Piorce's Golden Medical Discovery acts powerfully upon the Liver, and

Dr Pierco's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other exerctory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CONSUMPTION,

which is Scrofula of the Lungs, is arrested and cured by this remody, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "Consumerron Cune," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for all Chronic Diseases of the

Liver, Blood, and Lungs. For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasel Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.
