

Flashing green on Upper Middle Rd.

The flashing green light on the stop lights at the corner of Hurontario and the Queensway (formerly Upper Middle Rd.) may be put to use 24 hours a day. Mississauga council earlier suggested the advance

green light for northbound traffic on Hurontario to turn left by the hospital be extended. Town engineer Bill Anderson said a survey indicated the existing cycle was all right.

He recommended, however, and council concurred, that the advance green be used in conjunction with hospital visiting hours. Presently the light is used at peak traffic hours
