~~indicative of~~ but ~~nothing~~ as  
 evidence of bruising to any  
 part of the body. There  
 was no evidence of cut  
 to <sup>the</sup> genitalia. I saw no  
 signs of recent sexual  
 intercourse, but in the course  
 could have taken place without  
 showing any evidence of  
 such as the examination  
 was 30 hrs after the alleged  
 offense.

On 11 May 11 I examined  
 Elsie Simons, about 8 hrs
