

in the *Century Dictionary* is unauthoritative, incorrect, and misses the entire point.

An extremely valuable discussion follows this lecture, and it is absolutely necessary for the student to acquaint himself with the whole of these pages (45-99).

*Restrictions in Marriage: Studies in National Eugenics: Eugenics as a Factor in Religion.* By FRANCIS GALTON.

These are memoirs communicated to the Sociological Society in 1905, and published together with the subsequent discussions in *Sociological Papers* (1905). The three memoirs are also published separately under one cover.

*Probability, the Foundation of Eugenics.* The Herbert Spencer Lecture of 1907. By FRANCIS GALTON.

This lecture contains a very brief historical outline of the recent progress of eugenic enquiry and a simple discussion of the mathematical method of studying heredity. It must, of course, be read by every serious student.

*National Life from the Standpoint of Science.* (1905.) By KARL PEARSON.

This is a reprint of a lecture delivered by Professor Pearson in 1900, together with some other valuable contributions of his to the subject. There is scarcely a better introduction to eugenics.

*The Scope and Importance to the State of the Science of National Eugenics.* The Robert Boyle Lecture, 1907. (Second edition, 1909.) By KARL PEARSON.

This fine lecture should be carefully read. It gives some index to the quantity and quality of the work done by Professor Pearson and his followers since the Francis Galton Eugenics Laboratory was founded.

*Population and Progress.* (1907.) By MONTAGUE CRACKANTHORPE, K.C.

Though only published recently, part of this book goes
