

- Submucous myoma, sloughing, sausage-shaped, 70  
 size of, 64  
 vaginal discharge from, 67  
 vegetative endocarditis with, 422  
 suspicious changes in, 248, 281  
 symptoms of, 571  
 thrombi of vessels with, 67  
 vaginal discharge with, 571
- Submucous myosarcoma of uterus, 171
- Subperitoneal myoma, 1, 135-144  
 edema in, 249  
 hemorrhage from pedicle of, 621  
 suppurating, 134, 139  
 adherent to abdominal wall, 136  
 communicating with bowel, 134  
 torsion of, 81
- Subperitoneal myosarcoma of uterus, 171  
 pedunculated myoma, abdominal myomectomy for, 508  
 bleeding into abdominal cavity after bimanual examination of, 444
- Subvesical myoma, 365, 510
- Suppression of urine after hysteromyomectomy, 657, 682
- Suppurating interstitial myoma, 144, 146-152  
 results after operation for, 153  
 with perforation of uterus, 150  
 intra-ligamentary myoma, 137
- Suppurating myoma, 134-154  
 cause of, 152  
 opening into cecum, 45  
 into small bowel, 47  
 results after operation for, 153  
 symptoms of, 152  
 treatment of, 153  
 subperitoneal myoma, 134-144  
 adherent to abdominal wall, 136  
 communicating with bowel, 134  
 pedunculated, 139  
 results after operation, 153  
 rupture of, 139
- Suppuration of abdominal wound after abdominal hysteromyomectomy, 662  
 of uterine wall after death of fetus, 470
- Supravaginal hysterectomy for myoma, 593  
 portion of cervix, elongation of, with myoma, 442
- Suspension of uterus after abdominal myomectomy, 525, 528
- Syphilis, abdominal hysteromyomectomy in, 625  
 as contraindication to abdominal myomectomy, 518
- TEARS into rectal lumen during hysteromyomectomy, 387
- Temperature after abdominal hysteromyomectomy, 655  
 after abdominal myomectomy, 545, 546  
 after vaginal myomectomy, 578, 579  
 in myoma cases, 457
- Tenesmus, rectal, after abdominal hysteromyomectomy, 659
- Three-leaf-clover-shaped myoma, 5
- Thrill felt on vaginal examination with myoma, 442
- Thrombosed ovarian veins after hysteromyomectomy, 222
- Thrombosis of blood-vessels in sloughing submucous myoma, 67  
 of veins in uterine mucosa with myoma, 320
- Tonsillitis after abdominal myomectomy, 554
- Torsion of cervix uteri with myoma, 77  
 of subperitoneal myoma, 81  
 of uterus with myoma, 77, 79
- Toxemia from sloughing submucous myoma, 427
- Treatment of myoma, 504, 506, 571, 588, 629, 630, 654, 671
- Tubal pregnancy with myoma, 342
- Tuberculosis of endometrium with myoma, 335  
 of Fallopian tubes with myoma, 341, 396  
 of uterus associated with myoma, 421
- Tuberculous kidney, removal of, after hysteromyomectomy, 384, 385  
 peritonitis associated with myoma, 464
- Tubo-ovarian abscess with myoma, 344  
 and adenocarcinoma of uterus, 290  
 cysts with myoma, 340
- Tumors of breast, benign, with myoma, 450
- ULCERATION of vagina with myoma, 440
- Umbilical cyst associated with myoma, 462  
 depression, obliteration of, associated with myoma, 461  
 hernia, strangulated, 120  
 with carcinoma of cervix and myoma, 398  
 with myoma, 461, 639
- Umbilicus, condition of, with myoma, 461
- Uraechus, cysts of, associated with myoma, 463
- Ureter, accidental cutting of, during hysteromyomectomy, 383  
 and myoma, 378-385  
 condition of, in myoma cases, 396  
 dilatation of, in myoma cases, 378  
 dislocation of, in myoma cases, 378  
 double, in myoma cases, 381  
 injury to, during hysteromyomectomy, 382, 383, 384  
 ligation of, accidental, during hysteromyomectomy, 382  
 location of, during hysteromyomectomy, 385
