JANUARY JESTS.

IN SOME parts of Maryland the corn grows so short that the farmers have to get down on their knees to pull it. Several years ago, Mr. Corwin, in company with a friend, was passing through the most sterile region of the western shore. Seeing a man on his knees in a field near the road, they accosted him, and inquired what he was doing. He answered that he was pulling corn. "Ah, I see," said Mr. Corwin, in a tone of apology and commiseration, "you must be very poor, indeed." "Not so very poor as you might imagine," replied the farmer, rising to his feet and surveying the sorrowful group around him, "I don't own all this land."
