PEERLESS PERFECTION

The Fence That's Locked Together

It's close enough to keep small fowl in and strong enough to keep large animals out. Securely locked together at each intersection of the wires. It's many times heavier and stronger than poultry netting, and being well galvanized, will last many years longer. Top and bottom wires are extra heavy. No top and bottom boards required. PEERLESS Poultry Fence is built so strong and heavy, that but half the ordinary number of posts are required. It gives you real fence service.

MADE IN CANADA

Note the extra close spacing at bottom, no base boards required. Turns the small chicks, keeps small animals in or out. The Peerless Lock holds the intersecting wires in a firm grip that is non-slipable. Compare it with any other poultry fence. The Peerless fence is built to stand any test. It is durable.
