Milking Time

Don't You Dread It?

THE morning and evening drudgery on that hard, shiny milk stool, the tired arms and aching wrists—the daily grind of an uncomfortable distasteful year 'round chore?

Small wonder you dislike it. And the cows like hand milking no more than you do. But with

The Macartney Machine Milker

THE COW'S ADOPTED CHILD

it's different. For the Macartney Milker not only takes all the drudgery out of milking time and makes it the most pleasant work on the farm, but it is a big money-maker and a big labor saver. The Macartney does its work thoroughly and completely and pays for itself in a short time. Furthermore, it is so natural, uniform and gentle that the cows are quieter—more contented, the milk flow is greater than under harsh hand treatment.

Learn all about the exclusive features of the Macartney Machine Milker—put your name and address on the coupon below and mail it to-day. There is no obligation involved and we feel sure you will be interested even if you do not figure on purchasing a "milker" immediately.
