FACILE PRINCEPS.

QUESTIONS AND ANSWERS. Miscellaneous.

A WAGER.

I had a bet with a neighbor about the reciprocity treaty. I said there were twelve other nations which would get the same privilege as the United States. I would like you to state who was right, and if other countries were included, to name them.

J. G.

Ans.—The reciprocity agreement, had it become law, primarily included only Canada and the United States. The twelve nations you have in mind are those contained in the Favored-nations Treaty. These were named in "The Farmer's Advocate," issue of August 24, 1911; page 1393.

SHORTHORN BULL WANTED.

I am desirous of purchasing a young Shorthorn bull this fall, and as there are none in this neighborhood, will have to import, but do not want to bring him further than necessary. Is there any list of breeders? Does the Dominion Cattle-breeders' Association keep a record of breeders, and would it be advantageous to join the Association?

J. R.

Ans.—Many breeders of Shorthorn cattle have their stock advertised in these columns. You could doubtless secure a bull from one of these.

The Branch of the Live-stock Commissioner's Department of Agriculture, Ottawa, publishes a Directory of breeders of all classes of pure-bred live stock in the Dominion. This may be had upon application.

Lists of breeders are kept by the various live-stock associations. If you contemplate breeding pure-bred stock, it would be advisable to join the association.

IRREGULAR MILK FLOW.

I have a good young cow which gave her usual amount of milk once a day, and only about a quart or less at the other milking. In a few weeks she gave only about a quart at each milking. Occasionally she will give her usual amount, but very seldom. She milked all right for about a month after coming in in the spring. She is in very good condition, does not appear sick, and we cannot notice any difference in her in any other way. Can you tell the cause? Is there any remedy for it?

J. D. J.

Ans.—As there seems to be nothing constitutionally wrong with the cow, and her udder and milk organs are in a normal state, we are inclined to think that the cow must draw the milk from her udder by sucking. This frequently occurs. Would suggest that you watch her carefully, and if such proves to be the case, it will be necessary to muzzle her to prevent the trouble. If she is running with young cattle, it is quite probable that one of them may be sucking her.

SCRATCHES.

Will you kindly answer the following question through your paper: I have a driving mare that took scratches last spring; gave her a dose of physic and applied zinc ointment, and have tried a good many other remedies through the summer, but have not been able to get them healed up yet. They crack open right across the heel, and form scabs. Mare has been on grass.

S. W. B.

Ans.—This seems to be a chronic case. Scratches are often difficult to cure. Purge with eight drams aloes and two drams ginger, and follow this with one ounce of Fowler's Solution of Arsenic twice daily every alternate week for six weeks. Apply hot linseed meal poultices to the heels for three days and nights, and after that dress three or four times daily with an ointment made of six drams boracic acid, twenty drops carbolic acid, and two ounces vaseline. If the parts become too soft, dress a few times with a lotion made of one ounce each of sulphate of zinc and acetate of lead, mixed with a pint of water. Do not wash. If her legs get muddy, allow them to dry, then brush the mud off. The zinc ointment might have been more effective had you added a little carbolic acid, about 20 drops of acid to each ounce of the ointment. She undoubtedly requires some constitutional treatment, as previously recommended.

Clydesdales, Percherons and Shires

I have just landed at Markham, Ont., the biggest shipment of Clyde Stallions and Fillies, Percheron Stallions and Fillies and Shire Stallions ever landed in Canada. I have more high-class show horses, more size, more quality, better breeding than was ever seen in Canada before. I have no head to select from. They are for sale at close prices and on the best of terms. Come and look them over.

Clydesdales! Clydesdales! Spring Hill Top Notchers

Gentlemen, we wish to remind you that owing to our late importations we won't be showing at any of the fall exhibitions. Our lot comprises fillies and mares, stallions, 3 and 4 years old. They are the ripe cherries every one of them, and must be sold at the lowest possible price to make room for this fall importation. There's no man who ever buys a stallion or mare but who comes back again; why, because we have the goods and back up what we say. We wish to thank every one for their kind patronage in the past. Yours truly,

J. & J. SEMPLE, Milverton, Ont., and La Verne, Minn., U. S. A.
