"Kultur" in Belgium

Here is one of the most significant and striking books yet written on the fate of Belgium—for it is the work of a prominent Hungarian journalist, Odon Halasi, who recently spent several months in Belgium.

BELGIUM Under the German Heel

In this remarkable book the author describes vividly the torture which "Kultur" has inflicted upon Belgium, and the hatred it has aroused. He explains the systematic means by which the Germans try to smother this hatred as well as the national spirit of the Belgians. The experience of each of the principal cities of Belgium, at the time of occupation and during the author's visit, is described. The attitude of the writer of this book illustrates the fear and hatred which the policies of the Germans have inspired in their Austro-Hungarian Allies. Over 260 pages, cloth bound, illustrated; price \$1.50.

IF YOUR LIGHT WENT OUT!

SUPPOSE your lights grew dim to-day, what would your vision be? If you had a sudden stroke, and the doctors told you that it would prove fatal within 24 hours or less time, would you rest calm and peacefully as to the outlook for your widow and family? You have been successful, and reaped the rewards of your industry and thrift. Your family have all the earthly blessings that come to the well-to-do—the education of your children is being looked after, and there are ample funds for all current expenses; consequently they are all happy. And of course they will continue in this state?

You have always done your duty, and actually given your life for them,—hence you have fully provided for their continued support. As a prudent, thoughtful husband and father, you could not have done otherwise. BUT, if you have gambled on the chance of living, and there is an unpaid mortgage on your home, a wife unused to manual labor, and young children with only the beginnings of an education, you had better get busy and protect them with a sound insurance policy in THE CONTINENTAL LIFE INSURANCE COMPANY, before it be too late. Act NOW, and save them from the terrible penalty of neglect.

Heed this warning by seeing your nearest Agent of the Company, or write to either of the undersigned at Head Office for full particulars, stating your age at nearest birthday.
