

## CALFEE'S RURAL ARITHMETIC

*12mo, cloth, with diagrams and illustrations, 30 cents*

“In the 120 pages of the book there are six or seven hundred problems to be solved by the pupils, but their very character has the effect of whetting a desire for farm life. The chief reason of this, too, is that the problems are never fanciful but based strictly upon ascertained facts which may be relied upon in farm bookkeeping.”

—*The Montreal Weekly Witness and Canadian Homestead.*
