The Testing Time!

Water Street

WHEN the test of the world-conflagra-tion called for every ounce of strength in every available man to stem the tide of destruction, one of John Barleycorn's greatest friends, Russia, was the first to abolish the Traffic because it could not meet the test. In good time, when her hour of test arrived, New Brunswick banished the great Drink curse let us hope forever!

After the war, in his turn, John Barleycorn is going to put New Brunswick to the test. Prohibition may again be voted

Every bit of lax enforcement and indifference is just so much ammunition for him to use against us. How does Prohibition meet the test?

Russia—

Some idea of the enormous effect of Prohibition is afforded by the wonderful example of Russia. In spite of the fact that millions of producers are in the army the savings of the people enormously increased. In 1912 and 1913 they were saving, per year, about \$20,000,000. In the first five months under Prohibition they saved \$60,000,000. In 1915 the banks took in \$265,000,000. For the first half of 1916, the Russian

The Dakotas—

Town and city population in South Dakota under License increased 168 per cent. in 20 years. In the Prohibition state of North Dakota it increased 494 per cent.!

Permanent Prohibition in New Brunswick

manufactured goods. In the "wet" Dakota it required no less than 3,602—813 more men -to produce only \$17,870,000 worth of manufactured goods, or \$1,267,000 less! In 1890 commitments to Insane Asylums in 'dry' North Dakota were 40 persons per 100,-000 more than South Dakota. After twenty years of Prohibition they were forty less! And the Prohibition State began the period with only about half the population of its neighbor!

2,789 men produced \$19,137,000 worth of

South Dakota has since adopted Prohibition.
