

TERRIFIC STORM VISITED SIMCOE

Three Houses Struck by Lightning in Space of Few Minutes.

NEW CHAPLAIN FOR 133rd

Rev. Mr. Newcombe Will be Greatly Missed in Church Circles.

(From our own correspondent.) Simcoe, July 10.—During a violent thunderstorm which swept over the town Saturday afternoon, the homes of Thomas Pusie, West street, and Mr. Cook, Colborne street, and a house a mile east on the Lyndale property, were all struck by lightning within the short space of ten minutes. Fire started in the last named instance, but was promptly extinguished. No one was hurt, broken chimneys and reefs in the plaster were the only evidence left. The succession of crashes suggested the nature of a cannonade in progress. Inquest Opens The Forestville shooting affair begins this morning at 9:30. Porter, of Simcoe, will be present in Beecher's interest. Beecher is one of only four inmates of the county jail, and two of the others are under sentence: McDonald, the bigamist, and Roy Winters who has quite a criminal and prison record. Winters is under sentence of one year and 364 days at the Provincial prison, and with McDonald may be transferred any time.

New Chaplain Rev. H. C. Newcombe confirmed the report of his appointment as chaplain of the 133rd. He was president of the Simcoe Ministerial Association, and as such presided at the recruiting meetings held in the drill hall throughout the winter, and taking the chaplain's part in his turn with the other preachers ever since well known to the men. His departure will be felt by the Baptist Church throughout the county. He has, during the past almost three years been a very strong organizer, and a good public speaker. His quick wits stand to good account in the capacity of a chaplain in the army, a combination of the religious and practical instincts not at all common. He came to Simcoe from St. George in November, 1913, and of Marquette birth, and education. Mr. Newcombe will not likely sever his connection here at the moment, but may assist in recruiting for the 260 men still required for the 133rd.

CONFIDENCE IN GOVERNMENT

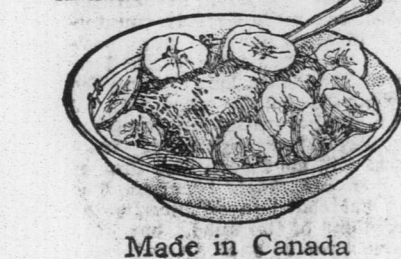

French Senate, by Overwhelming Vote, Supports Administration

By Special Wire to the Courier. Paris, July 10.—The Senate at the last of its secret sessions, adopted last evening by a vote of 251 to 6, a resolution of confidence in the government. Similar action was taken by the Chamber of Deputies several weeks ago. Among the six who refused to uphold the government were ex-Premier Georges Clemenceau and ex-Foreign Minister Stephen Pichon. The resolution "notes with satisfaction the results achieved by France and her allies in efforts that will insure united action on the front and counts on the government to take in collaboration with parliament all the measures of organization and action which will hasten victory."

BRAVE GIRL DROWNED

Georgina MacDonald Lost Her Life in Trying to Save Brothers. By Special Wire to the Courier. Montreal, July 10.—Georgina MacDonald, aged 14, Bordeaux, lost her life yesterday while trying to rescue her two little brothers marooned on a small island in the river at Sault au Recollet. The children rowed over to an island about ten feet square and the boat drifted away, leaving the children terror stricken. Miss MacDonald attempted to wade out to the island, but was swept off her feet by the swift current and drowned.

THE ENCHANTED SCISSORS

Once upon a time in a forest near a royal city there lived a ragged little boy who didn't know he was a king's son. He had strayed away, you see, when he was very little and a blind old woman who couldn't see his purple silk and velvet and the plumed hat upon his golden curls had taken him in and fed him. She called him Bimbo. Now Bimbo used to milk the spotted cow and mend the fence around a royal city where the old woman dozed by the fire he had his best time. For then, with the queer scissors hanging underneath the mantle, she used to cut things out of a paper—lords and ladies, castles and valleys, servants and horses, and everything that kings have. One night, when Bimbo had spread a royal city of paper out upon the table, and was busy cutting out a princess as he thought he'd like to marry, he made a wish aloud. He wished the city was real and all the lords and ladies in it—and that very minute the scissors turned to gold and set with diamonds and rubies and emeralds and a fairy stood before him, her gauzy wings set with jewels. But that was not all. Bimbo sat on a rug in a hut. The walls around him were castle walls and through the window he saw the royal city he'd cut out of paper. Only now it was marble and there were the lords and ladies, the servants, and soldiers, hurrying around in the moonlight. "Bimbo," said the fairy, "I'm your godmother and the scissors are enchanted. I made them so. They will ever obey a king's wish." Then the fairy vanished and there sat Bimbo in his castle, a ragged little boy with half a princess standing before him whom he didn't want to marry. He finished her with a bit of paper and wished she'd leave him alone. He went searching for the old woman and found her by the fire in the castle kitchen. He cut a paper gown for her and wished with a bit of paper that she would go away. In the twinkling of a star she was wonderful in silk and velvet. On the third day came marching the king who lived in the royal city and the ragged little boy of the new city he knew him for his son. I rather think that's what the old king claimed his son, castles and lords and ladies, enchanted scissors and all disappeared. As for the old, old woman who was blind and kind, Bimbo took her to his father's castle with him and took care of her ever after.

133RD LEFT FOR CAMP SATURDAY

Big Crowd at Simcoe to See Norfolk's Own Leave Town.

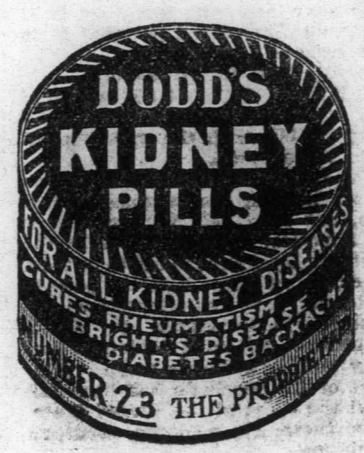

Simcoe, July 8.—The 133rd left for Camp Borden this morning, marching from the drill hall in order, arriving at the west side depot as the coaches pulled in and entraining with despatch, and in a most cheery mood. Hundreds of little house parties were held the night before and many of the men were loaded down with useful comforts and personal requisites for camp life, and many of the homes where soldiers were quartered have presents which testify the acknowledgments of the men for efforts to make their stay here a pleasant one. Although domestic ties were broken at home, Simcoe never saw such a turnout as lined the platform and yards for the full length of the train, which left in two sections at 7:30 and 8 o'clock.

GERMAN SUB WHICH SAILED ACROSS OCEAN

(Continued from Page One) the Casella Color Company, one of the firms to which the dyes aboard the Deutschland are consigned, said: "I was told about the submarine about a month ago, but in a most mysterious way. We were massed along the coast to mouth. 'As to the value of the cargo. I could not say. The value of the dyes depends on how highly concentrated they are, and it is likely that they are in a very highly concentrated form. I would guess that one pound of the dyes in the submarine would be equal to two pounds of the standard.' Upon the estimate of Mr. Matheon, it seems likely that the dyes on the Deutschland are worth between \$4,000 and \$5,000 a ton. Not Question of Status. Washington, July 10.—The fact that boarding officers found the German merchant submarine Deutschland, which was unarmed goods for forward, simplifying any question as to her status as a merchant ship in American waters. Officials realize, however, that the British and French embassies, while interested little in what the Deutschland has brought over, are concerned over the cargo of rubber and nickel she proposes to carry back to Germany and expect that nothing will be prevented by Germany's enemies to prevent her clearance. Some Points to Clear Up. Although the fact that the submarine is unarmed is of first importance, such factors as the composition of the crew and actual ownership will have to be established to determine whether the submarine should be classed as a naval auxiliary. Blockades Henceforth Ineffective? Naval officers, while attracted by the great size of the submarine, and her long voyage, consider the fact that she successfully ran the blockade attracts their more. Some of them pointed out that if a successful means of running a blockade had of seventeen years, she rose rapidly. He has been secretary for General Manager Alfred for the past three years and had a brilliant future before him. His parents, Mr. and Mrs. Joseph Moore, and one sister survive him. Windsor Man Hit by Train. Lumber Salesman Died Soon After Being Taken to Hospital. Windsor, July 10.—Leonard Cook, 36 years old, a lumber salesman, died in the Hotel Dieu here Saturday morning, the effects of injuries sustained some time Friday night, when he was struck by a Grand Trunk train. When Cook failed to return to his home on Douglas avenue by midnight his wife notified the police and a search was started. The missing man was located at the hospital, where he had been taken following the accident. There was nothing by which he could be identified, and not until Mrs. Cook reached the bedside was the identification made. Coroner Labelle has ordered an inquest to investigate the cause of the accident.

IRISH AFFAIRS NOW IN ORDER

Premier Asquith Will Make Statement This Afternoon. By Special Wire to the Courier. London, July 10.—At a moment when public interest is centered on the battles proceeding on the eastern and western fronts, parliament is again taking up the century-old Irish problem. After weeks of negotiations, which led to the resignation of the Earl of Selborne as president of the board of agriculture and the partial reconstruction of the ministry, the cabinet has reached an agreement, the terms of which Premier Asquith is to explain this afternoon. In anticipation of the premier's statement, virtually all the members of the House of Commons, with the exception of those serving at the front, are in London to-day. They went to the House early to obtain seats. The Irish Nationalists, many of whom remained with their constituencies until the last moment, to feel the pulse of the electors, were the earliest arrivals at the House. The settlement already has been endorsed by the Nationalists and Ulster parties, but is opposed by a small section of the Unionists of England and south Ireland. The terms of the agreement in general are known, but members of parliament were anxious to learn what inducements had been offered to the Marquis of Lansdowne, Lord Robert Cecil and Walter Hume Long who offered their resignations from the cabinet to remain with the government.

32,000 SOLDIERS IN CAMP BORDEN

Quartermaster's Department Did Good Work in Preparing for Rush. Camp Borden, July 10.—After the feverish activity of the past week, Camp Borden presented yesterday a scene of comparative quiet, most of the soldiers in camp enjoying a day of rest, though the work of the construction gangs went on without cessation. The new arrivals, however, who included, in addition to battalions from London, the entire subordinate staff from Niagara, and the remaining staff officers, did not share the rest given the troops who were already settled, but up till midnight men were busy putting up tents and getting camp lines in order. The first fatal accident that has occurred at the camp marked the day with the drowning of a private of the 142nd London Battalion while swimming in the Nottawasaga River, near Angus. Saturday's and yesterday's arrivals have brought the camp population up to close on the 32,000 mark, these being present now 22 battalions, most of which are at strength, or reasonably well-filled. All thirteen of the units from Toronto and the vicinity are now here, and seven battalions from London, these last having been formed into eighth and ninth brigades, with Lieut.-Colonel Robson and N. Smith as the respective brigadiers. The eighth London unit that was due to arrive—the 153rd—did not come owing to the appearance of spinal meningitis in the battalion, which made it advisable to delay the move until it is certain there is no danger of the disease spreading. Sleeplessness—You can't sleep in the slightest if your digestion is bad. Take Hood's Sarsaparilla—it strengthens the stomach, establishes that condition in which sleep regularly comes and is sweet and refreshing.

Ruling Issued by Board of Ry. Commissioner

Dried Peas, Whole and Split, A Being removed to Vegetable Section. By Special Wire to the Courier. Ottawa, July 10.—The Board of Railway Commissioners in regard to the application of the Montreal Board of Trade for an order directing that the rates published for the carriage of grain products from Ontario to points in the Eastern States be applied also on split peas and disallowance and of the Toronto Board of Trade for suspension of the schedules removing whole peas from the list of articles which are grain rates from and to the aforesaid territories, has issued this ruling: "In this matter, it appears that the new Canadian freight classification which the railways are preparing, it is proposed to remove dried peas, whole and split, from the section to the vegetable section, the following example of the American classification. While the rail will as proposed, remain the same at present, viz. eighth class, the fact would be that tariffs for the movement of grain in Canada would no longer include peas. The matter as presented has a bearing on a general issue as involved in the classification, and the matter should be until the classification is before the Board, and dealt with in view of the time the existing rate situation existed, this disposition does not appear to be unfair to the parties."
