

HUNKER CONCESSION

Will Soon be Worked on Large Scale

Robert Anderson Now En Route to This City to Begin Operations at Once.

Special to the Daily Nugget. Vancouver, July 7.—The important announcement is made that the government concessions on Hunker are to be worked again on an extensive scale. Robert Anderson, who has returned from London and sailed for the north from Seattle on the Cottage City this week, made the announcement that development work will be resumed immediately. For various causes these Hunker creek concessions have been kept shut while other properties have been adding to the Klondike output. One of the chief reasons why work stopped was a law suit, which started in the courts here and was taken also in London.

Alaska Telegraph

Seattle, July 7.—Brig. Gen. A. W. Greely, chief of the United States signal service, is on his way to Valdez, Alaska, to inspect the work of the telegraph line between Valdez and Eagle City. Building of the telegraph lines has been very rapid throughout Alaska the last year but it has been disappointment that the line between Valdez and Eagle City was not completed. In an interview Gen. Greely said: "The telegraph line across this country known as the all-American route should have been finished some time since. The delay is due to expected change of garrisons there; but now it is practically assured the line will be finished and communication opened to Valdez within a month or six weeks. The government has spent an unusual sum of money in this particular location and is desirous of completing the line as soon as possible." Gen. Greely is accompanied by her daughter who will make the trip to Alaska with her father.

Sad Suicide

Washington, July 7.—B. W. Pyle, owner of a third of the city of Greytown, Nicaragua, committed suicide because the United States abandoned the Nicaraguan canal route in favor of Panama.

Such a Nice Girl, Too

John Scott, the affable young gentleman at the White Pass office who receipts freight bills with such an air of distinction, is today up in the air, even more haughty than the bloated railway magnate is supposed to be, and all on account of a little insignificant telegram that arrived this morning from Lakeview, a suburb of Tacoma. "Girl, eight pounds," was all it said. In consequence of the arrival of the wire, Scott is today enjoying a holiday, and his fellow attaches in the office are singing "Oh, what a difference in the morning." Beautiful decorations now adorn the cashier's cage, one of them being a life-size picture of Harry Hooligan labelled "How papa looked when he received the telegram." The signatures to freight bills will hereafter be signed "J. H. R., per papa."

Will Leave Tomorrow

Quite a little theatrical contingent will leave tomorrow for the outside, consisting of Miss Lucy Lovell and Mr. and Mrs. Ray Southard. Miss Lovell has secured such a warm place in the hearts of the amusement loving public of Dawson that should she ever conclude to return she may rest assured of receiving a most hearty welcome. She is easily the peer of any actress that ever appeared in the city and the very many friends she leaves behind will wish her all possible success wherever she may decide to go. After a short rest on the coast and a visit with her mother Miss Lovell will proceed to New York where she will enter the company of Mr. Herman Vezzy, which opens at the Empire in September for the season. Mr. Southard's excellent voice will also be much missed this winter. He is undecided what he will do next season, but the probabilities are that he will return to his first love—the minstrel profession.

THE CALL IS SUED

Governor of California Hot on its Trail

Claims That He Has Been Libeled—Fraud Charged in Supplying Penitentiary

Special to the Daily Nugget. San Francisco, July 7.—A libel suit has been brought by Governor Gage of California against the San Francisco Call and is being fought in the most bitter fashion. Newspapers made charges of forgery and the substitution of bills in connection with the state's business at San Quentin penitentiary, also that personal supplies had been charged to the state and paid for and that from certain irregularities Gage had benefited. The governor filed a complaint of criminal libel against John D. Spreckles, owner, and W. S. Leake, manager of the Call. The complaint was filed at Wilmington, where there is only one justice of the peace. The Call claims that the case should be heard in some place where it can be disposed of before the next election and is making a fight "to get it before a court of competent jurisdiction and that is not under the thumb of any official." It claims that the appearance of the governor as his own attorney is indecent and adds that Gage has the help of lawyers who are paid by the state, and that in addition three other attorneys for him are paid by the state. The Call got the matter brought before Police Judge Fritz of San Francisco and that judge decided that he was competent to hear the libel suit. Attorneys for the governor talked of "collusion, fraud and judicial fear," and bolted from the court declaring that they would not go on.

GINZBERGS AT EAGLE

Interviewed by Several Creditors

Are Out of Jail on Cash Bond—Probably be Brought Back.

Old man Ginzberg and son Leonard, the recent owners of the 49 group of Bonanza claims who quietly left for the lower country owing everyone in Dawson they could owe and who were overhauled at Eagle by Harry Hamberger just as they were entering their boat to further penetrate the climate and interior of the United States, are still at Eagle but are out of jail on cash bond. On Saturday while R. M. Brown, Orr & Tukey's representative, and other of their Dawson creditors were at Eagle the Ginzbergs were brought before U. S. Commissioner Johansson when sufficient evidence was taken to warrant holding them until information on criminal charges could be sworn to and forwarded from Dawson, which procedure was taken today.

Brown, Orr & Tukey and all the other victims of the Ginzbergs have pooled issues and turned the total, about \$8,000, over to Harry Hamberger, who is still at Eagle and who will push the case for the return of the culprits to Dawson.

The Ginzbergs offered to pay in full the accounts of Hamberger, Dick Brown and Orr & Tukey, but as these creditors had pooled with others the offer was declined unless the entire \$8,000 is forthcoming.

Strong efforts were being made at Eagle last week by their attorneys to have the cash bill paid down for one of them in order that he might continue on down the river with the money. But the partial hearing of the case on Saturday quashed all hopes in that direction.

The Ginzbergs can lay no claim to protection under the Stars and Stripes as they are Russian subjects. Indications now are that they will be escorted aboard some steamer at Eagle probably next week and that when they again touch terra firma it will be in Dawson.

HOME FROM CHICKEN

Mr. A. Llewellyn Returns From Month's Trip

Only Small Amount of Work Being Done—Country is Spotted.

Mr. A. B. Llewellyn, of the firm of Llewellyn & Latimer, returned from a month's trip to the Chicken creek country, where he reports little active work in progress, there not being upwards of 40 men employed on the entire creek.

However, Mr. Llewellyn says it has been demonstrated that there is gold on Chicken creek and that it has been further demonstrated that the country is spotted.

On claim No. 5, owned by Barrett, but little work is being done. The pay is very good.

Claim 6 owned by French, is working seven men and is producing good pay.

A fraction off 6, owned by Shuers, is also working with good results.

No. 7, owned by the News party, is being worked but with what results Mr. Llewellyn did not learn. The same report is made of No. 8.

"Reports," said Mr. Llewellyn, "which say there is no gold on Chicken creek are not true and are injurious to the country. The truth of the matter is that there has not yet been sufficient work done on the creek to enable one to form a correct opinion as to the richness of it. There is no doubt of the existence of gold there, but it is in unknown quantities as far as is yet known."

There has been no scarcity of water this year, only a small rain being required to raise the creek.

Every Miller work is being done on either Miller or Glacier creek.

Mr. Llewellyn went and returned by the government trail which leads back from West Dawson. He found it so bad in many places as to be almost impassable for either man or beast. He says it would not be possible to take a wagon over it. He found the people of Chicken creek well supplied with provisions.

Ready for Trial

The following cases are down on the peremptory list for trial this week before Mr. Justice Dugas. In Mr. Justice Craig's department criminal matters will probably occupy the entire week, a jury having been summoned to be in attendance tomorrow. The gambling cases against Marchbank and Binet will come up tomorrow and there are four people up for arraignment this afternoon. If their cases are also ready they will be disposed of as quickly as possible. The civil cases on the list are as follows: Tuesday—Northrop vs. Hamilton; Barrett vs. Ames; Huntington vs. Martin. Wednesday—Yukon Sawmill vs. De Lion; De Lion vs. Craden; Huntington vs. Mogay. Thursday—Chambers vs. Canadian Bank of Commerce; Dawson vs. Frizelle; Cockburn vs. Cockburn. Friday—Harty vs. N. A. T. & L. Co.; Raymond vs. Faulkner; Love vs. McDonald.

Excursionists Return

The steamer Tyrrell which left here early the morning of the Fourth and excursionists to the number of 145 for Eagle, returned at an early hour this morning with everybody tired but pleased over what was a most enjoyable trip.

The steamer arrived at Eagle early in the forenoon of the Fourth and from that time until 5 o'clock on the fifth when the start for home was made the eagle screamed and the glorious season was otherwise duly celebrated. Eagle had the best of Dawson in that good weather prevailed.

A ball game the afternoon of the Fourth between the Dawson and U. S. soldier teams resulted in victory

...JUST RECEIVED...

Hannon's Shoes, Earl & Wilson's Collars and Cuffs, Stetson Hats and New Patterns in Fine Clothing

FIRST AVENUE HERSHBERG The Reliable Clothier, Opposite White Pass Dock 1st Ave.

for the boys in blue, the score being Dawson 9, Eagle 17.

On the downward trip dancing was indulged in all the way down as well as much of the way back. The excursionists speak very highly of their treatment by the people of Eagle who, without exception, did everything in their power to make the stay of the visitors pleasant.

J. A. CLARKE APOLOGIZES

Monroe Libel Case is Dismissed

Israel Uran Found Guilty of Theft and Will Come Up for Sentence Tomorrow.

The libel suit of "Curley" Monroe against J. A. Clarke which was down for trial this morning came to a rather sudden and unexpected termination by the defendant filing in court a written apology which he tendered Monroe and which was accepted. In the apology he expressed regret for having published the alleged libelous statements and trusted that the complainant would accept the acknowledgement of his error and contrition in the manner in which it was tendered. The letter was read by Mr. Hagle, K. C., who was appearing as the private prosecutor, and at its conclusion he stated on behalf of his client he would accept it if such action were agreeable to the court. His lordship was pleased to let it go at that, but before dismissing the case he delivered Joseph Andrew an homily which the man of many law suits will probably ponder over.

"I am glad to see that the accused has seen fit to apologize. It is no pleasure for the court to try these actions for criminal libel, but I should like to say one word before the case is dismissed. Parties should be careful how they drag before the public the characters of private individuals. Unless the public interest is concerned no man has the right to go into the private character of another and drag it before the public to injure him or bring him into public contempt where there is no public end to be served. The private life of an individual is his own, but if he is a public official and his private life is such as to reflect upon his character, then such publication may be justified but in no other case. There is an impression that if you can prove a man guilty of a wrong committed that that is sufficient to justify the publication of the statement, but such is not true. You must also prove that the public interest demands the publication of such statement."

Following the disposition of the Clark libel case, the criminal action against Israel Uran, charged with having abstracted a quantity of gold dust from the poke of a customer from whom he was making a purchase of dust, was taken up. The case submitted by the crown was substantially the same as was presented at the preliminary trial. The evidence showed that the complainant had entered the little cigar store

of the accused for the purpose of selling some dust and in some manner had been flimflammed out of several ounces. When the defendant took the stand he denied all knowledge of the alleged transaction and endeavored to prove by several reputable business men of the city that his reputation for truth, honesty and general probity was gilt edge and his career spotless. His witnesses testified that as far as they knew personally his reputation was good, but the evidence was very unsatisfactory to his lordship. When the question of character was brought up by the defense it gave the crown an opportunity to go into ancient history somewhat. It appeared that Uran has been in the police drag net upon several different occasions and they have him down on their little list as a very slippery individual. A little incident that happened on the steamer Flora at one time was brought out. The boat was on the way outside and Uran was a passenger. Some one, it is said, caught him in the act of going through the clothes of a member of the crew that were hanging over the boiler for the purpose of drying them out. In the witness box this morning he explained the matter by saying that at that time he had a fever and had crawled on top of the boiler to absorb some of the surplus heat going to waste. The clothes in question were hanging over his head and as they were wet and the water was dripping on his head he had merely reached up and squeezed the vest so that his peaceful meditations might not be further disturbed. That was all and he could prove it by "dirty witnesses."

The argument, which did not come on until the afternoon session, was of short duration and at its conclusion his lordship lost but little time in finding the accused guilty as charged. Uran will be brought up for sentence tomorrow morning at 10 o'clock. He is now out under \$400 bail.

For New People.

Mr. and Mrs. Bittner, of the Auditorium Stock Company, left on the Sybil Saturday for the outside, accompanied by Mrs. James Hall. It is Mr. Bittner's intention to engage an entire new dramatic company for the coming season at the Auditorium, returning here in time to open about the first week in September.
