WINNIPEG MAYOR'S NOTE OF WARNING

Manufacturing, Rather Than Wholesale Selling, Necessary to Build up Community—Convincing Statistics

In a recent speech to the Canadian Credit Men's Association, at Winnipeg, Mayor R. D. Waugh gave some very interesting statistics showing the deterioration of Winnipeg as a manufacturing centre. No one can accuse Mayor Waugh of being an exponent of protection or interested in manufacturing enterprise; he simply spoke as the civic head of the greatest city in Western Canada—as a business man, who analyzes a source of economic loss to his community.

The mayor stated he might be too optimistic, yet he ventured the opinion that we in this favored land of Western Canada had passed through the critical period in the great economic crisis which the world is experiencing. He trusted that this period in our history would be the beginning of a new era of sane productive development of our great natural resources and possibilities. The promotion of manufacturing interests is one of the live topics of the day, and in this connection his worship gave the following facts and figures. These figures refer to the manufacture of goods in Winnipeg, and the importation of goods into Winnipeg, comparing the past two years:

1914	1915
Output of...	25% loss
Mfrs. ... \$ 43,000,000	\$ 32,000,000
Lab. hands 18,000	12 to 14,000
Wages ... 10,000,000	7,500,000
Imp. goods 140,000,000
Total goods maa. and imported 183,000,000

Working Day and Night
 It is a known fact that Eastern factories are working day and night to keep ahead of orders. Compare, for a moment, the citizens of Montreal, Toronto and Winnipeg, considering the estimated population, in 1914 and the value of manufactured products in 1914, and how much this amounts to per one hundred thousand population:

1914	Manufactured	100,000
Population	Products	Population
Mon. 650,000	\$300,000,000	46,000,000
Tor. 450,000	200,000,000	44,000,000
Win. 200,000	43,000,000	21,000,000

This clearly shows that Eastern manufacturers are increasing their output tremendously per 100,000 population, while in Winnipeg we show a large decrease as compared with 1914. As closely as can be estimated Winnipeg will not average \$16,000,000 worth of manufactured goods per 100,000 people, or \$5,000,000 less than in 1914. In that year it was estimated that Winnipeg manufacturers employed approximately 18,000; in 1915 fourteen to fifteen thousand at the outside. Wages of the workers consequently will decline from \$10,000,000 to a little over \$7,000,000, with a corresponding decrease in the purchasing power of the individual.

In 1914, Winnipeg imported goods to the value of \$140,000,000. This makes a total of manufactured and imported goods of \$183,000,000. "If," said Mayor Waugh, "we could manufacture one-half of this amount in the city of Winnipeg, it would make a payroll, on the basis of these figures of approximately \$22,000,000, and instead of employing 18,000 people we would have over 40,000 at work in our factories."

Buy Home Products
 "Most of the food products made in Canada are manufactured under a government standard. Therefore, the goods made in Winnipeg are just as pure as those manufactured anywhere in the Dominion, furthermore, they are decidedly fresher and have less shrinkage, from the consumers' standpoint. If we are to be a greater commercial centre we must develop our manufactures and support our manufacturers by purchasing home products whenever possible."

These figures clearly indicated that we are unconsciously endeavoring to construct a warehouse city. We import \$140,000,000 of goods in a year—not for the consumption of Winnipeg, but it is remembered, but for transportation and re-sale to the urban and rural population of the Canadian West. That the vast proportion of this great Western order is not made in Canada would seem evident. Comparison is at times a useful factor. In Western Canada we have neglected manufacturing and the

building of the home market, consequently we must decrease the population of our cities, for the factory workman, if he can, follows the job.

Tariff and the States

A protective tariff has made the United States the wealthiest nation in the world. Doesn't it seem foolish to destroy the source of our national prosperity by turning it over to all the other nations of the world?—(Exchange.)

SIGNALS OF DISTRESS

Kentville People Should Know How to Read and Heed Them

Sick kidneys give many signals of distress.

The secretions are dark, contains sediment. Passages are frequent, scanty, painful. Back ache is constant day and night. Headaches and dizzy spells are frequent.

The weakened kidneys need quick help.

Don't delay! Use a special kidney remedy.

Booth's Kidney Pills cure sick kidneys, backache, and urinary disorders. Kentville evidence proves this statement.

James Foster of Gaspereau, N. S., says:—"For several months I had been very much troubled with lame and sore back which inconvenienced me very much in working. The pains in my back were so severe at times that I would have to stop my work. The kidney secretions had also been highly colored and contained a heavy sediment. I had tried various remedies to relieve me but without receiving any benefit from them. I then learned of Booth's Kidney Pills through an advertisement and procured a box at J. D. Clark Pharmacy and found in them almost immediate relief. Today I feel as if I had a new back as it does not trouble me in the least. The kidney secretions have disappeared and I feel better generally. Sold by Dealers. Price 50 cents." The R. T. Booth Co., Lt. Fort Erie Ont., Sole Canadian Agents.

Frightfulness of German Warfare

Rev. Dr. MacDonald, editor of the Maritime Baptist, but who is now a member of the 5th Field Ambulance of the Canadian forces, in a recent letter home, tells an interesting story. He says that two German aeroplanes were brought down by the British guns. One fell in front of the Canadian trenches in "No Man's Land." Rather than let the men have the machine in good repair, they turned their machine guns upon it killing one of their own aviators and wounding the other. The wounded German was rescued from his own men by Canadians and when he regained consciousness he denounced his people and gave the Allies some valuable information.

Another British Victory

London, April 6—The town of Felahie, in Mesopotamia has been captured by the British, it was announced officially today. All the positions gained have been consolidated, and counter-attacks by the Turks repulsed. Felahie is in Mesopotamia, below Kut-el-Amara, where a British force under General Townshend is beleaguered. It has been the scene of several engagements between Turkish troops and the invading British forces. This is the second victory of the British to be reported officially in the last two days. Announcement was made yesterday of the capture of Umm-el-Henna, on the Tigris, about twenty miles below Kut-el-Amara.

Substitutes for the Bar

Calgary, Alta., March 30—The city of Calgary will establish municipal bowling greens, quail pitches and golf links. Mayor Costello in suggesting this action declared it was one way of providing a substitute for the bar.

King George Makes Donation of £100,000 To the Treasury

London, April 2—King George has placed £100,000 at the disposal of the treasury. A letter accompanying the donation says: "It is the King's wish that this sum, which he gives in consequence of the war, should be applied in whatever manner is deemed best in the opinion of His Majesty's Government."
