

THE ACADIAN.

WOLFVILLE, N. S., JULY 14, 1893.

The Defective Classes.

Bulletin No. 16 of the Canadian census, while possibly not as useful as some others, shows a great deal of work and presents some interesting statistics. It relates to the defective classes, viz: the insane, blind and deaf-mute.

The number of insane in Canada in 1891 was 13,335 an increase of 3,932 in twenty years. Nova Scotia has 1,373 of these, or an increase of only 119 in the twenty years. Quebec's increase was 1,200 and Ontario's 1,800. Of the insane born in Canada, 5,837 were born Canadian and 28 insane per ten thousand of population, as compared with 33 in the United States, 37 in Ireland, 32 each in England and Scotland, etc. In fact Canada's proportion of insane is smaller than that of any other country in the world where statistics are given, except Germany, where the proportion is only 24 in ten thousand.

Of deaf-mutes Canada has 4,819, an increase of 2,030 in twenty years. Of these, 3,598 are natives and 1,221 are foreign born. As to their educational status 2,759 can neither read nor write.

The blind in Canada number 3,368, an increase in twenty years of 792. Nova Scotia has 400 blind and New Brunswick 262. Of Canada's blind, 2,007 are natives and 1,371 foreign born. The need of educational effort is apparent when it is found that 2,464 can neither read nor write, and lack of education makes the blind one of the most helpless of beings.

It is amazing to find what occupations the trained sightless ones of Canada are filling. The difficulties to be surmounted in their becoming physicians have been overcome by 5; one is a stenographer and three more are civil engineers. Perhaps more remarkable still is it to find that we have, among the blind laboring classes, 2 pilots, 3 sailors, 8 blacksmiths, 12 carpenters and four painters. It is wonderful how successfully other faculties can be developed so as to make the loss of sight almost no bar to success to any walk of life.

A Royal Wedding.

London was on a fete on Thursday last on the occasion of the marriage of the Duke of York, Prince George of Wales, and Princess Victoria Mary Teck, which took place at noon in the chapel royal, St James Palace. The populace turned out in immense numbers to cheer the royal couple upon their return from the ceremony to Buckingham Palace, and walked on their way from Buckingham Palace to the Great Eastern railway station on their way to Southampton. The enthusiasm of the people evidently shows that they look favorably upon the young couple who at some future time may become King and Queen of the British Empire. Every true British subject, whether of British or colonial birth, will join heartily in wishing them long life and happiness, and peace and prosperity to the nation at large.

Business Failures.

The returns of failures in Canada for the past six months, without an increase of a million dollars in liabilities, bear favorable comparison with former periods. The number of failures since January 1st is 887 as against 751 the corresponding six months of last year. Total liabilities were \$8,215,759 as against \$7,225,238 the corresponding six months of last year.

The showing in the U. S. is poor. Liabilities this year equal \$170,000,000, nearly twice as much as in 1891, two and one half times as large as in 1885, and 114,000,000 larger than in the first quarter; this year compared with last was only \$4,000,000 without an increase in number of failures. There were 175 failed banks with liabilities of 43,000,000, an increase of 600 per cent in number over last year, and more than 800 per cent in debts.

A Nova Scotia Horse Abroad

The Boston Globe reports an exciting match race which took place at the Cotuit driving park, Cotuit, Mass., on the 4th, between Captain U. A. Hall's Dandy and D. B. Bentley's Victor. Dandy Eastmont won in three straight heats, 2:25, 2:30, 2:27. The winner was bred by Leander Shaw, of Hantsport, and sold by him to Capt. Hull. He was sired by Allie Clay (one of the Meadow stock farm stallions, of Billtown, King's county), his dam being Topsey, also dam of Mr. Curry's Topsey's Baby. Mr. Shaw is of the well-known breeding firm of Shaw Bros., who have a large farm somewhere near Walton, Hants Co. They had an auction sale of trotting stock last fall and realized fine prices for all the stock offered, two heads going to Lynn, Mass., and it was at this sale that J. W. Currie purchased Topsey's Baby, for whom he has since been offered \$450. Allie Clay has now two in the 2:30 list: Clayton, 2:21 1/2, owned by Wm. Ash, Lynn, and Dandy Eastmont, 2:25.

In an article on Dominion day, the Ottawa Journal says: "One can get rich faster in some other countries. One may starve more surely in other countries. One can rise to higher rank and honor in bigger nations. One cannot in any other nation make a living more easily, or more wholesomely. The conditions of life, education, progress, commerce and recreation can be improved in this country, greatly improved, but they are probably better for the mass of the people than the present conditions of any other country. God bless Canada."

A Splendid Record.

A PROVINCIAL INDUSTRY TREMBLES ITS BUSINESS IN THE LAST THREE MONTHS.

Some three months ago this journal informed its readers that a new provincial industry, that of the Hawker Medicine Co of St John, had completed its first quarter's business, and that its book showed a development of trade and a record of sales that was not only gratifying but really astonishing.

Another three months have now elapsed, and the company have balanced their accounts for the six months. The results show that in the last three months they have trebled the business of the first three: they have about doubled their working staff, and work has been carried on in the packers' room till 11 o'clock every night in order to fill orders promptly. From all parts of Nova Scotia, New Brunswick and Prince Edward Island, from Newfoundland and parts of the United States, the orders have rolled in. The business is now firmly established. The experimental stage is past. Repeat orders come in constantly, showing that where once the remedies are introduced they win permanent favor with the people, who know as soon as they have given any of them a trial that these standard remedies are all that they are claimed to be. Indeed, this last might readily be assumed with-out a trial, and judging solely from the character of the gentlemen who form the Hawker Medicine Co, as they are numbered among the leading citizens and successful business men of St John.

The Hawker Medicine company are now patenting their remedies in Great Britain and will presently extend their operations there, as well as more extensively to the United States. About the middle of this month Thomas Rankin, who so successfully introduced the Hawker remedies in Newfoundland this spring, will start and traverse the western part of Canada, from Montreal to Vancouver, in the interests of the company. With such a record as that of their first six months now closed, the Hawker Medicine Co. are evidently destined to achieve a great success. They control standard remedies, which have received the endorsement of leading physicians in Canada and the United States, as well as the fervent praise of sorely afflicted people who have by their means been restored to health.

Their place of business is at 104, Prince William St., St John, N. B., where they have the most extensive and elaborately fitted up premises of the kind in the lower provinces. William Hawker, the original inventor of the remedies, has been in charge in St John for 30 years, and had long prior to the value of the different remedies before the present company was organized. It is with pleasure that this journal records the company's wonderful success.

Annual Convention of the Maritime C. E. Societies.

The Maritime Christian Endeavor societies will hold their fourth annual convention at Halifax, from 1st to 3rd of August. The previous conventions have been full of interest, and it is expected that this one will be even more interesting as the movement has greatly increased each year, and there will probably be a much larger number present. Each society is to be represented by a delegate, whose names are to be sent to George W. Woods, P. O. Box, 532, Halifax, as soon as possible. We are advised that it would be well for all who intend going, to send names, whether delegates or not.

The Windsor and Annapolis railway has made the following resolution:— "Those who have paid one first class fare going to the lake and back for one third of one first-class fare. The steamer Bridgewater will issue return tickets for one fare—\$2.00.

The meetings will be held in St Matthew's Presbyterian church. The committee of the local union are busily engaged making all necessary arrangements, and we have no doubt will be well able to entertain their fellow Endeavorers.

Good Templars in Session.

The Grand Lodge of the I. O. G. T. order is in session in this city yesterday and to-day. The Grand Secretary's report showed there were now 122 working lodges in this jurisdiction. The present membership is 5,363, showing a loss of 888 members during the year. The loss is accounted for by the fact that little or no agency work was attempted.

The lodges over which the Grand Lodge has jurisdiction own property to the value of \$14,916. The officers elected for the year are: G. C. T.—B. D. Rogers, Stellarton. G. C.—Rev. J. W. Crosby, Amherst. G. V.—Mrs. Kate O'Connell, Halifax. G. S. J. T.—J. A. Simpson, Amherst. G. Sec.—J. B. Black, Amherst. G. Treas.—C. I. Wolfe, Wolfville. G. Chap.—A. B. Fletcher, Truro. G. Marshall—John Murphy, Windsor. G. G.—Sarah Connolly, Truro. G. Sentinel—A. Arthur, Amherst. A. S.—H. D. Ross, Amherst. G. Mess.—Jas. Clarke, Halifax. G. P. C. T.—B. B. Duncan, Grand Pre.

A very pleasing feature of the afternoon's entertainment was a visit from Minnabaha Lodge of Juvenile Templars, who submitted a complimentary address signed by Harry Eford, G. S. and Ben Crofton, Secretary. Mr. Crofton Dickey is the Superintendent of this Lodge, and spares no pains with the children.—Acadian Recorder, July 6th.

"The Canadian Magazine" for July.

This new and most creditable Canadian periodical will maintain in its July issue the high character it has had from the first. It aims to secure interesting, instructive and timely articles of national interest rather than material which appeals merely to the lovers of artistic excellence, and it succeeds in a way gratifying to all who have a patriotic regard for the country. A popular science article of great interest is "The Birth of Lake Ontario," in which Prof. Willmott of McMaster University, shows the ancient drainage of Lakes Huron, Erie and Ontario, then river valleys, through the Hudson river to the Atlantic. Mr. E. J. Toker's article, "Our Forests in Danger," is a well written, interesting and powerful appeal for systematic forest conservation. Attorney-General Longley furnishes a thoughtful article on "The Greatest Drama," the drama of each man's life. Jno. S. Ewart, Q. C., Winnipeg, the eminent counsel who defended the claim of the minority in the Manitoba school question before the supreme court, enters a powerful appeal for tolerance of faith, in his article "Fame in Schools." Rev. Prof. W. Clark's "Kingsley's Wives, Babies" is written in the charming style of that prince of Canadian literature Public School Inspector Hughes, of Toronto, in "Humor in the School Room," tells of many humorous incidents, mostly apparently of Canadian experience. "The Battle of Stony Creek," an illustrated article by E. B. Biggar, of Montreal, is a most valuable and painstaking addition to Canadian history, full of interest throughout, and much of it novel in information and treatment. Mr. Tipton's "At the Mouth of the Grand" is another illustrated article, and treats artistically of the Grand River of Ontario as it appears at and before its sluggish entrance into Lake Erie. "The Automatic Maid-of-All-Work," by Mrs. M. L. Campbell, of Ottawa, is very amusing, and Miss Florence Aston Fletcher's conclusion of her powerful story, "The Chamois Hunter," well maintains the interest of the first part. Altogether the number is a strong one, and will no doubt meet with a wide appreciation. The Canadian Magazine is published by the Ontario Publishing Co., Ltd., Toronto. Subscription, \$2.50 per annum.

The Scott Act and Electric Light Question at Annapolis.

A despatch to the Halifax Herald says: "Considerable interest has been manifested in the two questions which the mayor of Annapolis put before the people at last Friday's election. One, whether the town should have a Scott Act Inspector; the other, should the town purchase the electric plant at the figure of \$7,500, as offered by the company. Mayor Gillis put the first question to the people for the reason that there were two petitions, for and against the appointment of an inspector; the signatures of which people represented about an equal amount of votes. The council were equally divided on the question, and he did not want to put expenses on the town if they did not wish it. The other question, of course, meant heavy taxation if adopted. Quite a large number of citizens attended a meeting at the academy of music to discuss the questions. The sentiment was strongly in favor of a Scott Act Inspector, and not to purchase the electric plant at present. Notwithstanding this at the poll the vote to have an inspector was lost by a majority of 21, while the vote to purchase the electric plant was carried by a majority of four."

Tales of a Garrison Town.

This is the title of an interesting work from the combined pens of Arthur Wentworth Eaton and Craven Longstroth Betts, issued by a U. S. publishing house. The Toronto Weekly says of it:—"No Nova Scotian fails to recognize the faithfulness of description and portraiture which mark the well told 'Tales of a Garrison Town.' From the fine relation of generous and chivalrous self-denial by which 'Crossway' saved his friend; through the romance of 'The Fall of the D'Arays'; the boisterous humor of the 'Rev. Washington Ham's Triumph' and 'The Corporal's Trousers'; the graphic and stirring strength of 'Court Martial'; and the touching pathos of 'A Soldier's Funeral,' the reader will be held at a pace that never wearies, but on the contrary is bracing and exhilarating. Our only regret on closing the pages of these bright, typical and enjoyable Canadian stories, is that our country has lost these clever sons in whose work she cannot, however, lose her pride."

Price—Paper cover, 50c.; bound in cloth, \$1.25. By an arrangement with the publishers, we can offer the book to all paid up subscribers to the ACADIAN for 40c. and \$1 per copy according to binding. On receipt of amount, a copy will be sent to any address in Canada or the United States, postpaid.

CORRESPONDENCE.

DEAR EDITOR.—I am puzzled again. You know the liberals have been holding some kind of a time in Ottawa. Another fellow or two had kind of an argument about what they do at it. He said they took the duty off of flour because our member said a big speech about it and made them do it. I said I didn't believe it, but he said any fool might know the duty was off, it was so cheap, cheaper than in any other place in the world. I said I had heard the duty didn't make no difference at all in the price anyway. He said anybody might know a duty made things higher; that if the duty was off of beef and pork so we could get it from the Americans, we could buy it in this town for 3 or 4 cents a pound. I said I didn't see what the farmers would do if it was so cheap. He said all the same the duty was coming off when the liberals got in. He said too that our member said quite a lot about the matter duty, but the boss told him they couldn't touch that as the Yankees put that on. Which is right? I don't like to mention my name this time, as I heard the last time I wrote to you some people got awful mad and stopped their papers and threatened to sue you for libel and put you in jail. Howsoever some people will always make fools of themselves. JACK MCGINTY.

P. S. Do you know if he said anything up there about that post office or the Kinsler Bazaar. Also do you know if the Windsor and Annapolis Railway buys three engines and snow-plows in Boston and is there any duty on them.

Referring to the death of Mrs. Cohoon of this place, the Messager and Visitor, of July 5th says:—"The loss is a sad one; for she was a faithful wife, a kind mother, and a warm hearted friend to all who enjoyed her acquaintance. There are four children—three daughters and one son—who, together with the father, deeply feel this sad bereavement. They have the kindly sympathy and the earnest prayers of many friends. Bessie Cohoon was the daughter of Asa and Lovina Knowles, of Newport. She was therefore a grand-daughter of the late Rev. George Dimock, born Dec. 30, 1844; baptized at Newport by Elder William Burton, Jan. 9, 1850. She was united in marriage with Mr. Cohoon by the late Dr. Tupper, on the 28th of June, 1875; and as the death occurred on the 28th of June, 1893, there was one week over twenty years of married life. And they were twenty years of quiet service for the Master. Bro. Cohoon removed to Wolfville last October. Mrs. Cohoon was ill at the time, but it was hoped that the change might be beneficial. But this, it seems, was not to be. After eight months of intense suffering she was set at liberty. She was fully ready and willing to depart."
