

### At Your Service

The only real rapid transit service in Toronto is the Taxicab. It transports you rapidly and in comfort, with promptness and precision—any time—night or day. It is not confined to a rail roadway, and cannot be blocked by the breakdown of the car ahead. You only wait a few minutes, because the main office and garage are located in the centre of the city. It has the unqualified endorsement of the principal business men and citizens everywhere introduced.

### The Logical Cab

Taxicabs are fast supplanting the horse-driven cab in all the cities of the world. The extinction of the horse-drawn cab is proceeding more rapidly this year, so that in another twelve months, perhaps, the hansom, once the typical vehicle, will have disappeared from the streets, except in the outlying districts, where it may linger for years. The Taxicab is the only logical cab in use to-day.

### The Public Want Modern Methods

Many of the great fortunes of to-day are built up by those controlling public service utilities. The enormous dividends paid by the companies handling such utilities as the electric light, telephone, telegraph and street car have been amassed because of the demand of the public. The public are quick to appreciate the advantages of modern inventions and methods. The public are willing to pay for these improvements; thus explaining the handsome dividends participated in by the shareholders of the companies controlling these public service corporations.

### Our Offering re Taxicabs

Our offering of the remainder of \$100,000 of the capital stock of Berna Motor & Taxicabs Limited, is still open. Orders are coming in from all parts of the Dominion.

This Taxicab stock \$6.00 per share. Par value \$5.00.

The results of the operation of the taxicabs in this city for the last seven months have proved that with the present equipment the Company can afford to pay a dividend of 2 1/2 per cent. quarterly, or 10 per cent. per annum. By increasing the number of cabs, the profits are bound also to increase.

### Money and You

The money that has been made by other people you cannot benefit by. The money that you can make for yourself is of personal interest to you. You can never make much money without making a reasonable investment. Money invested in the taxicabs to-day may be the basis of a large fortune for you in the future. At any rate promises to earn bigger dividends than the majority of the industrials that are offered on the market to-day. Mail us your subscriptions for Taxicab Stock at once before the allotment is exhausted. Write, phone or call.

### TORONTO PAPERS ON BIG GAME.

(Continued from Page 8.)

other punt from Williams, Simpson was forced to rouge, which made the score at quarter-time 4-0 in Ottawa's favor. The second quarter was much like the first. Both teams depended on their punters, and Simpson began to come stronger. A rouge and two dead lines fell to his prowess. Ottawa still led by 4 to 3, but Tigers were beginning to come strong, and the ultimate end was foredoomed. A punt from Simpson for a dead line, and a centre scrimmage back for an unconverted try, gave Hamilton a total of 9 points, while the best Ottawa could do was to get a touch-in-goal off one of Williams' punts, though they had one excellent chance to get over for a try, but dribbled the ball into touch instead. The play had started to get a bit strenuous in the third quarter, but in the last period they went after each other in catch-as-catch-can style, and many decorated the side lines. The spectators also got quite excited, and made jibes fine in true village style. Burton and Moore romped through the Ottawa's territory unopposed, and Burton got two tries and Moore one.

their old-time beatings on Saturday, though the Rough Riders did not collapse completely until the final quarter. However, it does not require a long memory to recall the Hamilton games with Victoria and other Toronto teams, when the real genuine Tigers were held to small scores until the last period of play, though the final score would be something appalling. The Rough Riders gave signs of weakening as early as the second quarter, and only phenomenal luck prevented a big score against them at half-time. The Ottawa were a very ordinary team, and no match for the Tigers on any grounds. That was quite apparent to everybody at Hamilton on Saturday.

As for the Tigers they are not as good as they used to be by a long shot. Such miffing and fumbling as Simpson, Moore and Smith were guilty of would have been very costly against a snappy team like Varsity. All three players redeemed themselves for their torpays, Smith being especially good on the defence, while the other two did much to carry the battle into the enemy's territory, but the mistakes they made could not be obliterated from the mind. The Tigers are also weak at the ends, in following up and in tackling. Marriott is not playing his game, and Turner is many degrees removed from Don Lyon. Lyon, however, will be in the next game, which will mean a lot to Hamilton if Don can show anything like last year's form. The Tigers have to beat the Argonauts here next Saturday to even create a tie with Ottawa, but neither Hamilton nor Ottawa considered the Argos had a chance, and went right ahead on Saturday night and arranged for the play-off for a week from Saturday in Toronto. The Argonauts would surprise even themselves by beating the Tigers, but if the Hamiltonians persist in playing such poor football as they did on Saturday even the despised Argos might take a fall out of them. The Oarsmen won their first game of the season at Montreal on Saturday, thereby duplicating their performance of last year with the same club, losing at home and winning in the enemy's territory. Tommy Stinson, Montreal's only good back division player, started to play on Saturday with a bad knee, but was forced to retire before the first quarter was completed.

### Basket ball.

The basket ball season at the Y. M. C. A. will commence to-night, when the Commercial League will open its series. The Mills' Hardware Co's team will play against the Y. M. C. A. and the Bankers vs. Wood Village Co. J. McKay will referee. The public is cordially invited. The Young Men's Union of St. James' Presbyterian Church, held their opening game of basketball in the basement on Monday evening, when a fast game was played between the Euraxas, of the Y. M. C. A., and

St. James, the latter team winning by a score of 27 to 26. The teams lined up as follows—Euraxas—Sleeman and Irons, forwards; Johnston, centre; Fleming and Warren, defences. St. James—Cook and Dean, forwards; Callowhill, centre; Crocker and Pirie, defences.

### Boxing.

London Referee: A very few years ago the idea of a Frenchman boxing fifteen rounds against a good English exponent of the game would have struck one as unnatural. Long since Lord Henry Seymour introduced pugilism into France, but much as it entertained the class of sportsmen who were represented by members of the French Jockey Club, it never caught on. Now, however, a large number of Frenchmen are keen about it, and Moreau last Monday put up an excellent contest with Goldswain at the National Sporting Club. Moreau was favorite at the start, and for several rounds seemed quite likely to land the slight odds which had been laid; but Goldswain was rather too much for him, though nobody could have stuck to an ex-communicated pugilist in an excellent contest with Goldswain at the National Sporting Club. Kansas City, Nov. 9.—Packer McFarland, the idol of the Chicago stockyards district, was given the decision over Cyclone Johnny Thompson, of Sycamore, Ill., in a whirlwind ten-round fight here last night. The battle was one of a scientific boxer who was able to hit and get away again, and a man whose main asset is slugging, and who could not get near enough to his shifty opponent to land.

### WHO CAN TELL?

Editor Kicker's Column, Hamilton Times, City: Sir—Would be pleased if you would let me know, through your columns, if there is a physician in the city who employs hypnosis as a curative agent. Or, failing this, where the nearest hypnosis hospital or school is located. Thanking you in advance, P. J. F.

## MARKETS AND FINANCE

Tuesday, November 9.—Both attendance and offerings were small on Central Market this morning, the former being particularly so. Meats were steady at the prices that have prevailed during the last week. There was comparatively no change in the prices of fruits and vegetables. Dairy produce exhibited no marked variation in price. Wheat was a little firmer to-day, it having been fluctuating quite freely of late. Buckwheat took a considerable drop in price owing to the large supply. The current prices this morning were:

Table with multiple columns listing market prices for various goods including Dairy Produce, Poultry, Fruits, Vegetables, and Smoked Meats.

## OFFERING OF \$400,000

7 Per Cent. Cumulative Preferred and Profit-Sharing Stock, in Shares of \$100 Each, in the SEMON COMPANY

TORONTO. Incorporated Under The Ontario Companies Act. LIMITED. Authorized Capital \$1,000,000. DIVIDED AS FOLLOWS: 5,000 Shares of \$100 each Cumulative Preferred and Profit-Sharing Stock, (1,000 Shares of which are reserved for future needs), \$500,000. 5,000 Shares of Common Stock \$100 each \$500,000.

DIRECTORS: J. C. SIEMON, Toronto, President. Director The Siemon Bros., Limited. W. R. TUDHOPE, Toronto, Vice-President. R. H. FILLMORE, Toronto, Secretary. J. F. LILLICRAP, Lakefield, President The Siemon Bros., Limited. E. R. TATE, Lakefield, Vice-President The Siemon Bros., Limited. Head Office, Toronto. Plants: Warton, Lakefield and Parry Sound. The Preference Stock is preferred both as to Assets and Dividends, and will share equally with the Common in any Dividend in excess of 7 per cent. thus, if the Common draws 7 per cent, the Preferred will be paid 7 per cent. and 7 per cent, equal to 14 per cent.

The Siemon Company, Limited, commences business by taking over as going concerns several successful manufacturing plants. The net earnings at present are already considerably more than sufficient to pay 7 per cent. on the entire issue of preferred stock. These earnings will be trebled or quadrupled when the factory extensions, which will be made at once with the new capital, will have been finished and be in operation. The timber limits of the Siemon Co., Limited, at present valuations, will equal in value the Company's entire authorized capitalization, and will in a very few years by the natural growth of timber and its yearly increase in value, be worth probably double the present figures. Investors in this stock are thus assured permanent and constantly increasing values of the chief assets of the Company and good dividends. There is no bonded indebtedness, and the preferred stock is so both as to assets and profits, and besides being cumulative, shares evenly with the common in any dividend over 7 per cent.

Applications for shares should be made at once to any of the undersigned, the terms being \$20.00 with subscription, \$20.00 on allotment, and \$20.00 monthly until balance paid. Wheat summary of the world by Broomhall, Liverpool: United Kingdom—The weather during the last week has shown some improvement, it having cleared, which has helped plowing. Argentina—The outlook for the growing crop continues very favorable. There are some private estimates given out which forecast an exportable surplus of 120,000,000 bushels and 128,000,000 bushels. Our agent's preliminary report on Sydney, Australia. Our agent at Brisbane cables that the crop outlook in New South Wales is fair; Victoria, good; South Australia, unsatisfactory. There is a disposition on the part of small growers not to sell for forward shipment. India—The sowing of the new crop continues, and grain already seeded is germinating well. Russia—The weather during the past week has been generally dry and cold, and this is unfavorable for the wheat already seeded. Arrivals at the ports and stocks there are liberal, but are not showing any increase. Rumania—Both the weather and the crop outlook is favorable, and supplies are light. Hungary—The outlook for the new crops is very satisfactory. Italy and Spain—The crops have started well. Supplies of native grain are scarce. Serbia, Turkey and North Africa—The weather is favorable for planting the new crop. France—The weather has improved during the past week, and seeding of the new crop is well advanced. Supplies are sufficient for the present requirements. Germany—The weather has been ideal for growing crops and also for late seeding. The weather, however, has now turned cold. Supplies of native wheat are increasing, and there is less active demand for foreign grain. There are some complaints heard regarding the outlook for potatoes.
