KERRY W. WATSON & CO.
Wholesale Druggists,
Sole Proprietors and Manufacturers,
100 Bay Street, New York.

SHERIFF'S SALE.

To be sold at Public Auction on Saturday, the 26th day of February next, in front of the Registry office Newcastle, between the hours of 12 noon and 5 o'clock p.m.

All the Right, Title and Interest of Robert J. Swain, deceased, in the property, which is a lot of land situated, lying and being on the Southerly side of the South West Branch of the Miramichi River, in the Parish of Nelson and County of Northumberland, being all the lower land, and the main meadow ground, to the river, and that lot of land of the said estate, the parish of Nelson as aforesaid, being Lot No. 6, bounded on the upper or Westerly side by a lot of land formerly occupied by one Cormier, and now owned by Edmund Jameson and John A. Bell, and on the lower or Easterly side by lands formerly occupied by the late Francis Flynn, deceased, in front by the South West Branch of the River Miramichi, and extending in the river to the mouth of the branch, containing one hundred and eighteen acres, more or less; which said Lower half of the said Lot No. 6, was conveyed to the said Robert Jamison by Edmund Jameson by Deed of Partition, dated the eighth day of October, A.D. 1850, as by reference thereto will fully appear.

The same having been seized under and by virtue of an Execution issued out of the Northumberland County Court, at the suit of Daniel McLaughlin against the said Robert Jamison.

JOHN SHIRREFF,
Sheriff of Northumberland.
Sheriff's office, Newcastle,
November 4th, A.D., 1880.

WANTED.

A number of good boys to sell the North Star on evenings of publication, Wednesday and Saturday.

Also, a few cords of wood. We will give for every cord of dry wood the Star from now till January 1st, 1881. Deliveries in any part of the country will be made directly or by mail, or by express to any address. For further information see Star club rates on first page. Apply at office of publication, defunct Gleacher building, Water St., Chatham

PHILADELPHIA, Nov. 10.

The Norwegian bark Union, arrived here, brought Capt. Neilson and crew of nine from the Norwegian bark Leopold, bound from New Brunswick to Liverpool with lumber, abandoned Oct. 16th, sinking.

The Leopold, Neilson captain, cleared from Newcastle, October 1st, with a load of deals bound for Liverpool, G. B., for orders.

Cruelty to Animals.

It is too bad there are no humane laws here to protect poor dumb beasts that can't plead their own case. Last evening we saw four country folks in a wagon, one beating a poor animal with its neck stretched out, coughing so as to be heard over half the town. The animal stood stock still in the middle of the street to cough, and the man in a frenzy plied the whip the harder. We see so many things like this about Chatham, that we feel sometimes like giving up in despair, and letting the woful state of affairs wag along.

A Meteor Shower.

Thousands of people all over the world stayed up last night to see the meteor shower which is usually seen in some part of the world about the 12th of November in each year. About the 12th, the Earth passes in a region occupied by the meteoric train of one of the known comets, and as those bodies move through space with wonderful velocity, they ignite by friction with the atmosphere of our earth, sometimes escaping into the ether, and sometimes falling into the farmer's field, a mass of molten metal. What we call shooting stars are meteors, or aerolites, which get out of their latitude, having strayed away from the main body, acting as a tail for some comet, and come to grief by getting into our lower atmosphere. So far as we can learn there were no meteors seen last night, though they may be seen tonight.

The Surveyor General has arrived home.

FIRE.—About 8 o'clock this morning a fire was discovered in the barn owned by O. Willard, Esq. near the English Church. The steam and hand engines were quickly on hand the latter in charge of fireman Morrissey doing excellent work. Through the exertions of those in charge of the steam fire engine the fine residence of Mr. John Harvey was saved from fire, but the building was badly torn up by a number of destructionists. It would be well for the fire department to furnish a few men with shot gun for use on such occasions. The loss of the barn and contents is estimated at \$1,000.00 The former was insured for its full value.

Cow PASTURES.—The Dr. in his efforts to suppress his laughter endangers his specie, every time he passes it.

Sawney sits in his window quietly enjoying the sight of his breezy cow scratching herself against an ornamental tree. Mr. McKenzie—has no cows.

"But suppose Mulligan ran against him?" I said.

"I could not in that case answer for definite results, not being conversant with the attainments of the gentleman you mention. But I think Fred, that is my nephew, possesses in a remarkable degree the forensic talent which would seem to be indispensable in the administration of those responsibilities devolving upon the incumbent in the civic chair."

At this moment a band of "Ingen people" came along, the Commissioner gave a sudden bow, wheeled about and left me.

In this connexion I may tell you, that Charley, after coming from church Sunday, and he would not then make a statement which he did not believe, assured me Fred would be returned. Mr. Russell had expressed the same belief—so that Fred's election is now a moral certainty.

The opinion of all sensible people in town is, Mr. Sterling will be elected, no matter who comes out.

[From another correspondent.]

We had a fire here this morning about 8 o'clock; it broke out in Mr. Willard's barn, and the Steamer did good work. They had to stretch their hose to the river and may have lost a little time, but they took a wise course by going to where they would not have to change a line for water for the old hand engine that they got to work, also pumped one of the tanks dry in a short time, and if the Steamer had to depend on that the damage to property for want of water would have been great. Our Fireworks are practical and able men and have sufficient common sense to know what to do and how to do it at the right time. I saw Mr. Call and Mr. Kitchen in the thick of it and of course the others also were at their posts doing their full share of the work at other points. I think our Fireworks will compare favorably with those of any other city. I hope they may see their way clear to do something about their water supply.

OUR YOUNG WOMEN.

We have before pointed out what a

pitiful life it is to have so many young women leaving us for the New England towns, when our means of means here, if they only would, might be able to give employment to them all the year round at occupation suitable to the women, and profitable to the employer. In

more ways than one we are menaced by this going out.

We are all acquainted with the story of the ancient Romans, who had to steal the Sabine women for wives. Our young men will have to follow the women away if the exodus can't be stopped, or they will have to raid the County of Carleton, or somewhere else—and put up with wives not having very small feet.

Sold by all druggists. 25 cents a bottle.

LOCAL MATTERS.

Large Yield.

Mr. Patrick Connors of the Back Lots, last spring planted two barrels of potatoes from which he has just dug 45! Resumed.

We believe Mr. Snowball's mill has resumed for a few days; but only two of the gangs are going for scarcity of hands.

Errata.

In noticing the Bledfield election W. Bamford should have been E. Bamford, R. Attridge, R. Attridge, and J. Holmes, S. Holmes.

Smelt Fishing.

The Advocate in its last published a well-timed article on the above subject. The time has now come for the united action of smelt fishers, that the trade may not be ruined in the American market, and the fish exhausted only to produce this end.

Gurling.

From all we see and hear the Roaring' game will be patronized well in Chatham this winter. The fraternity will have a large covered rink near Davidson's tannery, and its dimensions will be about 130x40 feet. The building will be soon enough to have the rink ready for the first of the season.

Our Delegate.

We regret to tell Mr. Anslow that we do not get his paper now, and that we miss its cheerful face, and bright readable little chit-chat very much.

The "Advocate."

We regret to tell Mr. Anslow that we do not get his paper now, and that we miss its cheerful face, and bright readable little chit-chat very much.

If the paper is still published we would like to get it; and if Mr. Anslow can't afford to give it in barter, we will subscribe for it.

Some nights ago Mr. Rogan's store Chatham was entered and about \$20 worth stolen. The police are investigating the parties should be well punished if caught."

Personal.

M. D. J. Greene, of St. Johns Newfoundland, was registered yesterday at the Dufferin, St. John.

Philadelphia, Nov. 10.

The Norwegian bark Union, arrived here, brought Capt. Neilson and crew of nine from New Brunswick to Liverpool with lumber, abandoned Oct. 16th, sinking.

Newcastle Local Items.

PERSONAL.—Mr. Sweet proprietor of the "Dufferin" St. John, arrived by express Thursday morning and in company with some others proceeded to Tabusintac for a few days shooting.

The Surveyor General has arrived home.

FIRE.—About 8 o'clock this morning a fire was discovered in the barn owned by O. Willard, Esq. near the English Church. The steam and hand engines were quickly on hand the latter in charge of fireman Morrissey doing excellent work. Through the exertions of those in charge of the steam fire engine the fine residence of Mr. John Harvey was saved from fire, but the building was badly torn up by a number of destructionists. It would be well for the fire department to furnish a few men with shot gun for use on such occasions. The loss of the barn and contents is estimated at \$1,000.00 The former was insured for its full value.

Cow PASTURES.—The Dr. in his

CANADIAN NEWS

The portions of the Canada Pacific road completed, or in course of con-

struction, which will be handed over to

the syndicate, are as follows:

Miles.

Fort William to Selkirk [main line] 40

Selkirk to Pembina [branch] 85

Selkirk to the Red River [main line] 20

In British Columbia [main line] 127

Total, 818

Professor Macoun and other autho-

rities estimate that there are at least 200,

000,000 acres of good land in the

North West, so that after satisfying the

land grant to the syndicate and their

own reserves, the will still have 150,-

000,000 acres to dispose of. It is pro-

posed to sell enough of this to enable

the Government to construct branch

roads running North from the main line,
