ness hours a day for schooling, and after at you can work-do anything that is need-

that you can work—do anything that is needed.
"You shall have wages, and if you show any special aptitude for a trade, we can see that you have time to learn it."
At first Dick was about to give expression of wild delight : then he said, in a low voice :
"But, sit. Norry—..."
"I know," the doctor answared quickly : 'I have thought of that. I know your dread is institutions, but I think I can take you to me you will like for him just for a few hours yery day. Nancy is very willing and very had to board him, and at this school they have the back the blind. They find out whether new can be cured, and it not they teach hem to be happy aod useful. I think be hight go there to day."
Med I asy how Dick felt? It was decided of to take Norry with them. "Dick went with the doctor in his own haise, and I'm sure much of his dread of twing Norry over to the authorities faded ad spoken."
It was inst like a home—a rather small, omfortable house—previ ed over by a blind antieman and his bright, cheerful young ife.

It was just like a home—a rather small, comfortable home—presi ed over by a bind gentleman and his bright, cheerful young.
