THURSDAY, JUNE 29, 1911.

USELESS ADVICE

The suggestion by some of his friends that Mr. Borden should throw overboard the plank in the party policy which says Canada should give Britain no preference unless Britain puts a duty on her imported goods...

It is not to be forgotten, of course, that this proposal is of the nature of a death-bed repentance. It was thrown out in the hope that the opposition might find it useful ball in his fishing for anti-reciprocity votes...

Mr. Borden's press agent considered it notable enough to be telegraphed all over the country that Mr. Haultain shook hands with Mr. Borden at Regina. Unfortunately he did not say whether Mr. Haultain spoke...

None the less, the fact that the suggestion is made is a plain admission that the preference has done good work, alike in developing trade between Canada and the Old Land...

The director of the geological survey expresses the view that the country to be opened by the Hudson Bay railway may be some surprises.

Mr. John Herton, M.P., says that though he does not believe in reciprocity, nine men out of ten in his constituency do; and that as the nine men have votes he thinks it better for himself to vote for the agreement...

By common consent the parade on Coronation day was the best yet held in the city. The whole day's program in fact, was well arranged and well executed, and reflects credit upon those who had it in hand.

MAKE THEM WALK

An autist continues to grace the police court with his unwilling presence one in a while, and to contribute a sum to the revenue of the city...

OBSERVATIONS

Toronto News—After being at a picnic on Saturday we are able to say that the day spent in the park rather better than usual, while the autist seems to have lost his favor.

Winipeg Free Press—The west is just getting into its stride as a wheat growing country. There will be two hundred million bushels harvested this year; three hundred millions a few years hence.

Victoria Colonist—Messrs. Monk and Bourassa are stumping Quebec together in opposition to the Laurier Government. The unusual feature of the case is that Mr. Monk opposes reciprocity and Mr. Bourassa favors it.

Montreal Herald—When Parliament adjourned those Conservatives who are against reciprocity and who would like to think they could win a general election in it were hoping they might get great encouragement from the local elections in Nova Scotia.

THE HALIFAX PLATFORM

It seems necessary to say—and insist—that the Canadian farmer is a really useful member of society, a loyal citizen, and a normally intelligent person.

Even our insouciant friends must feel some satisfaction in reading the message of President Taft, extending to our newly-crowned King the hope that friendly relations will continue to exist between the two nations over which our flag flies.

The director of the geological survey expresses the view that the country to be opened by the Hudson Bay railway may be some surprises.

By common consent the parade on Coronation day was the best yet held in the city. The whole day's program in fact, was well arranged and well executed, and reflects credit upon those who had it in hand.

EDMONTON BULLETIN, THURSDAY, JUNE 29, 1911.

It is imperative such as the country has not often seen. We are pretty well used in Canada to the fact that reciprocity is a political issue...

Here comes in the curious feature of the hostility on this side of the line may come from the same motive. When the Grand Trunk Pacific bargain was before Parliament one opponent said rather plainly that there was not really so much the matter with the agreement but that it should have been made with the Tories instead of with the Grigs.

Senator Cummings hints that the Democrats are opposing the reciprocity agreement chiefly because it was negotiated by their opponents. Some of the hostility on this side of the line may come from the same motive.

It is not necessary to tender the same advice regarding the reciprocity agreement. The voters of the district will suggest the action and supply the incentive himself.

RECIPROcity OR RESTRICTION?

FRENCH CANADIANS ARE VERY OUTSPOKEN

Young Nationalists Make Frank Speeches at Feast in the Place Viger Hotel, Marking Conclusion of St. Jean Baptiste Celebration—Government's Immigration Policy Struck.

Montreal, June 28.—Some very frank speeches were made at the banquet at the Place Viger Hotel, which marked the conclusion of the St. Jean Baptiste celebration, especially by members of the younger branch of the Nationalist party.

It is suggested that a recent rise in the price of railway tickets to Canada is intended to discourage immigration from the United States. If so the scheme will not likely be effective in any large way.

A steamboat explosion on the Mississippi serves chiefly to remind the distant reader that traffic has not altogether vanished from what was once the greatest trade channel of the continent.

Edmonton Sawmill Manufactory

The best that money can buy. Always in stock. Saws hammered and gummed, and all sawmill repairs.

Nichols Bros.

103 Syndicate Avenue Phone 2312. Edmonton

The Royal Trust Co.

Capital fully paid up \$1,000,000 Reserve Fund \$1,000,000

CLYDE

Bulletin Staff Correspondent. The Half-Way House trail between Edmonton and Athabasca Landing is a straight west is the post Clyde, in a store close to the new C.N.R. line...

The grain which has in the Clyde district and son, Hazel Bluff and other north and west of Edmonton is transported in wagons for from twenty-five to thirty of the nearest elevators at New settlers coming in with their increasing herds and larger stock beds have local demand for farm products of the railway...

What exemption from taxation means is shown pretty clearly in the case of the assessment of the C.N.R. property by the city. For school purposes the property is assessed at \$39,000, but for other taxes it can be assessed for only \$15,000, the amount fixed on at the time of the bargain with the company. At first the mills the taxes on the difference between these sums would amount to about \$24,000 per year.

Swat the fly. It is not necessary to tender the same advice regarding the reciprocity agreement. The voters of the district will suggest the action and supply the incentive himself.
