 and mix dry. Mix it fresh every time—it
 only takes a minute. Stir round till the
 lighter coloured Paisley Flour disappears and
 sift through a dredger.
 In this way you have a self-raising flour
 superior to anything you can buy—one in which
 the raising powder has lost none of its virtue by
 waiting, exposure to air or damp in shops, etc.
 And it will cost you no more, if not less, than
 ready-made self-raising flour.
 Paisley Flour is sold in 22c, 14c. and 5c. tins.
 The 22c. tin will raise 7 pounds of flour.
