Notes and Comments.

If the messages of date June 30th are to be relied on, it would appear that the efforts of the Powers to prevent hostilities between the Balkan allies themselves were as futile as their former efforts were to avert war between the allies and the Turks. There is still hope that matters may not have really been pushed to extremities. The soldiers of the allies are mainly farmers. Last year they did not commence hostilities until they had the harvest in and everything stowed away for the winter. If hostilities have really begun in earnest and should continue, there will be little harvest in the Balkan States this year. Under these conditions, and considering the heavy losses in life and property and the present stringency in the money market, it may be that the governments of the allies will avoid a long intestine strife, although there may be sundry outbreaks among the soldiers along the outposts.

The estate of J. P. Morgan, it is said, will realize \$100,000,000. This estimate is attributed to Thomas E. Bush, who has been investigating the books of the Morgan houses in London and Paris on behalf of the States. It is but an illustration of the tepid-

ency of the age for the poor to grow poorer and the rich to grow richer.

According to a report which is going the rounds, the Minister of Fisheries will spend the next two months on the Labrador. The Government, we hear, intend to send down a number of lights for that coast, and that will be the official pretext for the visit. It is somewhat of a coincidence that Mr. Piccott spent the summer of 1908 largely in travelling along the coast of the Labrador canvassing for votes for the fall election. Does Mr. Piccott intend to repeat the same performance this summer? The Ministers of Sir Edward Morris are remarkable for picnicking and moving around the country. Their office duties seem to sit lightly upon them. Apparently they may be dispensed with at any time for a picnic, particularly if it is a canvassing picnic.

Auto in Collision

In trying to avoid running down two Torbay women, who were seated in a wagon driving citywards today, an automobile driven by Mr. J. Parsons, crashed into a house on the Portugal Cove Road. Mrs. Parsons, wife of the driver and her sister were in the motor car. Both occupants were badly frightened and Mrs. Parsons' head was cut. The auto was badly damaged. The prompt action of driver Parsons saved the lives for certain of those who were in the milk wagon.

Cable News.

Special to Evening Telegram.
NEW YORK, To-day.
The bodies of seven persons, lodged at a small hotel, known as Tilla Hotel, were taken from the top floor following a fire in the building last night. A dozen injured were taken from the hotel.

SALONKI, To-day.
It is thought here that Bulgarian policy is directed to gaining time to complete a concentration of forces and that a general attack was undertaken by Bulgarians to secure important strategic tactical positions. In accordance with instructions previously received, the Greeks who were greatly outnumbered fell back on the Struma River. The Bulgarian attack on the whole Panghalion region including the town of Elentari, have fallen into Bulgarian hands. Thirty-six thousand Bulgarians attacked Duevghali at 5 o'clock this morning and defeated the Servians, cutting off railroad communication. It is reported a strong Greek force is surrounded by Bulgarians and in a critical position at Nigrita.

Visited King George Institute.

To-day Captain Smith of H. M. S. Cumberland and His Excellency Governor Davidson paid a visit to the new King George the Fifth Seamen's Institute. They were met by Manager Jones, who showed them through the building. Needless to say the visitors were highly pleased with what they saw. Prince Albert, who was invited, could not attend owing to his time being taken up with his ordinary duties on board ship. The Prince has sent a photograph of himself to the institute to be hung alongside the portraits of his father and mother, that now adorn the wall in the main entrance of the building.

The Police Court.

Two ordinary drunks were discharged.
A labourer, for assaulting and wounding his brother with a flatiron, was remanded.
A seaman, drunk and disorderly and breaking a pane of glass, was put on board his vessel.
A machinist, drunk, was fined \$1 or 3 days.

A labourer, for assaulting the police and for the larceny of a quantity of crockeryware, was remanded for eight days.

A cabman, charged with being drunk in charge of his horse, was fined \$1 or 3 days; and for driving without lights was fined \$2 or 7 days.

Put Tax on Bananas.

Senators Think Monopoly Can Afford to Pay Five Cents per Bunch.

Washington, June 19.—Slight increases are suggested by the Democratic members of the Senate Finance Committee, which they claim would add \$5,000,000 to the revenue. The bulk of this increase has been provided by taking bananas from the free list and making them dutiable at five cents a bunch, on the ground that they are controlled absolutely by a monopoly, and by the repeal of an act which exempted brands used in fortifying wines from the full internal revenue tax of \$1.10 a gallon.

Boy Hurt.

A boy named Richard Cranford was driving along Water Street in an express this forenoon, when the horse suddenly turned into Springdale Street the vehicle careened quickly and the lad was thrown with much force to the pavement. His head was badly cut and he was dazed for the blow.

Had \$200.

The man who disappeared from Bell Island last week, as exclusively reported in the Telegram, had over \$200 on his person, possibly more. His friends are very anxious about him and his family live on the island. He is a native of Trinity, not Harbour Grace. His brothers who reside here will try and locate him.

WILL ENTERTAIN THEM.—The lady friends of the South Side Cadets campers who occupy the tents on the South Side Hill, will give them a good time at the camps to-morrow. Over forty persons will be present and an excellent time is assured them.

GOES ON EXCURSION.—The S. S. Euphrates leaves here at 6 a.m. to-morrow taking a large number of excursionists to Bell Island. After returning Thursday she takes a load of pretty good shape but battery it seems to be utterly neglected. The owners should look to the matter.

FIX THE GROUND.—Those who kick football in the League games on St. George's Field, are loud in their complaints as to the condition of the ground. Heretofore it was kept in pretty good shape but battery it seems to be utterly neglected. The owners should look to the matter.

COD BURST TRAPS.—So plentiful was codfish outside this port yesterday, that the traps of Messrs. Lowe and Peckford burst with the weight of fish they contained when the time was ripe, and most of the fish was lost. It was too stormy for small boats to get out.
