TORIC LENSES

ARE MORE BECOMING THAN FLAT LENSES.

The edges of Toric Lenses do not show as prominently as those of flat lenses. They fit in close to your eyes. You will find Torics much more becoming and useful. They give you a wider, clearer field vision. You should know about Toric Lenses. Let us explain them.

Shoe Talk—One.

No. 1

She dreaded this occasion— as you dread it now!

How uncomfortable it made her feel— this tedious "strapping" in crowded cars— dreaded the stork-foot discomfort it caused her.

But now she is unmindful of the long ride home— she is fresh-looking and happy— she has found both comfort and style in a smart, snug-fitting Cantilever Shoe.

The Cantilever adapts itself to every movement of your foot. A shoe made for comfort— money spent for your feet, sensible and such support to prevent fallen arch.

The Cantilever has all the features of a corrective shoe without the ugly appearance.

Here you have at last just the chic appearance you want in a shoe— combining a dainty style with comfort.

Come to our store and try on a pair of Cantilever Shoes
