**W.D.C.**  
THE WELLINGTON  
THE UNIVERSAL PIPE

JUST smoke—clean, dry smoke  
down to the last piece of to-  
bacco—that's what you get from a  
Wellington. The moisture stays  
in the well. The bowl is genuine  
French briar, fashioned and fitted  
by a master hand. The W.D.C.  
triangle trade-mark tells you so.  
Good dealers have the shape and  
size you want—\$1.25 and up, and  
worth every penny of it.

New York

## At the City Council.

The Municipal Council held its  
regular weekly meeting last evening.

Mayor presided and Councillors  
Messrs. Brownrigg, Mulvey and Tait  
were present. After reading the min-  
utes the following business was dis-  
cussed:

Mayor Barter, President Truckmen's  
Association called attention of the Coun-  
cil to the pay of carmen from Novem-  
ber 1st, which is \$8.00 per day. The  
Council will pay from this out.

A letter was read from C. R.  
Munroe in connection with the lay-  
out of Sudbury property, plan of  
which has been already approved, and  
in question of the cost of making  
roads and also the cost of laying  
sewer and sewerage for which the  
property is to pay were discussed. It  
was agreed that all the property will not  
be laid out immediately and arrange-  
ments may be made for one street at  
a time.

The Nfld. Industrial Workers' Asso-  
ciation, through their Secretary,  
Mr. Knight, called attention  
to an application signed P. P. Moore,  
who appeared in the Royal Gazette  
the right to use the waters of  
the St. John's River in the district  
of St. John's for the purpose of driving  
a mill. The Association wanted  
to know if it is the wish of the Coun-  
cil that the waters reserved, they  
being already memorialized the Ex-  
ecutive Government with reference to  
the Water Power. They offered to  
bring the Council in this matter if  
necessary. After some discussion, on  
motion of Councillor Brownrigg, se-  
conded by Councillor Tait it was car-  
ried that a protest be made to the  
Executive Government, granting these  
waters to any person or individuals,  
and if necessary the Mayor be author-  
ized to call a public meeting to take  
up the matter.

Applications were received from A.  
Barnes for right to install motor,  
on Bunn Hill to repair houses,  
between Street, and Hung Shing  
to permit to extend porch rear of  
house, Monkstown Road, and from  
James Cummings to approve plans  
for building on Pleasant Street. The  
Council approved; the two  
cases to be reported into.

The City Engineer's report dealt  
with the question of repairing blow-  
out and laying of the sewer on For-  
th Street. The Health Officer's report and the

## West Coast Notes.

(Western Star.)

Caribou have been very scarce of  
late.

It is stated that Bishop White will  
pay his first official visit to this coast  
next year.

A Port aux Choix man was badly  
gored by a bull recently. One of the  
animal's horns was driven into his  
leg.

Among a recent list of recipients  
of the Distinguished Conduct Medal  
was the name of Pte. James O'Quinn.  
Evidently this refers to  
James O'Quinn, of South Branch.

There are many indications that  
moose are becoming very plentiful,  
and numerous signs of the animals  
have been seen this fall at numerous  
places from Seal Island on Lower  
Humber to way beyond Eddy's Lake.

Up to Saturday night there had been  
fourteen deaths from the influenza  
epidemic between Deer Lake and  
Spruce Brook, not including those at  
Lark H., and since several more  
deaths have been reported.

The coal at Begonia Seam, South  
Branch, now shows a width of 22 feet,  
and still going strong. The great  
drawback is the lack of men for op-  
erations. It is proposed to construct  
a line of railway from the trunk line  
to the workings.

Plumbing Inspector's were also read.  
A requisition for uniforms for the In-  
spectors was acceded to.

After disposing of some other rou-  
tine business and passing of the pay  
rolls and Bills the meeting adjourned.

**A Happy Child in Just  
a Few Hours.**

When cross, constipated or if feverish  
give "California Syrup of Figs,"  
then don't worry.

Mothers can rest easy after giving  
"California Syrup of Figs," because in  
a few hours all the clogged-up waste,  
sour bile and fermenting food gently  
moves out of the bowels, and you have  
a well, playful child again. Children  
simply will not take the time from  
play to empty their bowels, and they  
become tightly packed, liver gets  
sluggish and stomach disordered.

**Personal.**  
Mr. J. McRae is at present here on  
a visit from Mr. Grace.  
Miss M. Archibald, of the Second  
City is in town.  
Mr. John Tapp, of Mr. Grace, is re-  
gistered at the Crosbie.  
Lieutenant Ray Bennett of the  
Canadian Flying Corps, is a passen-  
ger by the incoming express.  
President H. D. Reid, of the Reid  
Nfld. Co., has gone on to Montreal,  
where he will remain for a couple of  
weeks.  
Rev. E. J. Rawlins, who has been ill  
of pneumonia, has shown signs of re-  
covery, Dr. Hogan reports.  
Ex-Serg. Chas. White a B. P. boy, who  
returned only a short while ago  
after an absence in France of more  
than four years, has been appointed  
purser on the Prospero. Before join-  
ing up, he held a similar position on  
the Portia.

**Circuit Court.**  
The Supreme Court on Circuit con-  
sisting of Mr. Justice Kent, Deputy  
Sheriff Carroll, Clerk S. Butler, Crier  
Cahill and Miss Rowe, stenographer,  
left by this morning's train for Brigus,  
from thence proceeding to Mr. Grace  
and Carboneau. Mr. C. J. Fox ac-  
companied them, and other lawyers  
will follow shortly.

**Health Report.**  
During the week 5 cases of diph-  
theria were reported in the city and  
five residences were disinfected and  
released from quarantine. At present  
in hospital are 21 diphtheria, 3 scarlet  
fever, 4 small pox, and one influenza  
patients, while being treated at home  
are one case of diphtheria and one of  
typhoid. Fifty-four influenza cases  
are being treated at the Grenfell Hall  
hospital.

plication to be made by Letter  
ONLY.—oct14,1f

**Royal Commis-  
sion Mooted.**  
The Western Star says: "Rumours  
are in the air that after the war, an  
agitation will be put on foot for a  
Royal Commission to investigate the  
affairs of this Dominion."  
Here's wishing success to the agita-  
tion.

**MINARD'S LINIMENT CURES DIPHTHERIA.**

## Nfld Scotch Cured Herring.

There has been relatively little ac-  
tivity in the market for Newfoundland  
Scotch cured herring since last re-  
ports, although some minor sales have  
been reported. As a result of this in-  
activity prices have weakened to some  
extent and it is now understood that  
sales are being made at the range be-  
tween \$24 to \$27 per barrel, accord-  
ing to quality. As supplies are not by  
any means liberal, it may be expected  
that before new fall caught herring  
come into market the present hold-  
ings of winter and spring herring will  
be entirely exhausted. The New York  
market has probably received its full  
supply of herring from this source  
for the present season, and the de-  
mand will have to be met out of depot  
stocks. As there has been compara-  
tively little movement in Newfound-  
land herring during the present  
month, merchants and importers have  
evidenced a weakness which reflects  
itself in the prices. Those who were  
holding at \$27 per barrel appear to be  
content to take \$25, and it is possible  
that some would be willing to sell at  
\$24 for fish which have been held  
much higher. The consumption of  
Scotch cured herring in the Metro-  
politan district has been curtailed, in  
the opinion of the trade, by the con-  
tinued warm weather, but once the de-  
mand is resumed importers are of the  
belief that stocks here will be quickly  
cleaned up.—N. Y. Fishing Gazette,  
Nov. 2.

Two patients were admitted to  
Grenfell Hall Hospital yesterday:  
Jas. Murphy, Signal Hill Road, and a  
small girl named Mitchell, whose  
father, mother, and two sisters were  
admitted yesterday. Two were dis-  
charged, and several removed to the  
convalescent ward.

A message from Dr. Green, of  
Bonne Bay, to Dr. Fraser, stated 100  
cases had developed there and two  
deaths had occurred. Dr. Green, who  
has been ill, is now able to work and  
needs no further help, but deplors  
the lack of mail and freight, which  
would contain many needed articles.  
Dr. Cron wired from Hr. Grace yester-  
day that 21 cases had appeared  
there last week.

Another message stated that there  
were 105 persons ill and one death at  
Broad Cove, Bay de Verde. Accord-  
ing to messages to Magistrate  
Fitzgerald, there was one death  
at Gambo on Tuesday, and three other  
patients were seriously ill, but other-  
wise the conditions were normal. Dr.  
Smith visited Glenwood on Monday  
and treated the sufferers, afterwards  
proceeding to Badger Brook and Mil-  
lertown, where he found conditions  
improving, though a large number of  
persons are yet ill. For the week  
ending yesterday, Nov. 14th, 1,749  
cases had been reported from the vari-  
ous districts, with 60 deaths.

## The Epidemic Abroad.

Almost unbelievable conditions ex-  
ist at Moose Jaw, Sask., and vicinity,  
as the result of the Spanish influenza  
epidemic. Eight persons working  
with a threshing outfit were found  
dead, no medical help being near.  
These occurred in the farming sec-  
tion. In one house in Moose Jaw the  
parents of two children were discov-  
ered dead, the little ones playing about  
the corpses. Just outside the town in  
another house, the relief committee  
found the body of a man, who had been  
dead three days, with the wife lying  
beside the corpse of her husband un-  
able to move. Other cases of a simi-  
larly pathetic nature have been locat-  
ed. There is no help to be had for  
love or money and those afflicted
