Outright Sales.

going to the European or any other market, is to be commendporters will unite in agreement on this all-important matter. The time has come when a change must perforce take place in our antiquated and ultra conservative methods of disposing of the staple product of Newfoundland. That which was considered good enough and safe enough one hundred years ago, or even twenty-five years ago is not sufficiently practical for the present day. Business the road machinery and an assistant has been revolutionized by the The special machinery in use is not submarine cable, by wireless and other means of swift communication, and it is high time that Newfoundland sloughed her scarifier, a grader and a road drag. roundabout ways of transacting The scarifier tears up the road and foreign business and adapted herself to the modern idea. Consignments have had their day, road drags, which plane off the unand it is time now that they even surfaces and help to harden the should be abandoned. Old road. Mr. R. Hibbs, Chairman of the fashioned bills of exchange are no longer necessary in commer- necessity if this road is to be perfectcial enterprise. The telegraph ed. In certain sections the road has and radio have superannuated been worn low, and these, to be propsuch conservative arrangements. Small profits and quick returns give greater results in the long run than slow sales and It is expected that this road will be large gains. The great advan- completed by the end of the present the turnover, and the firm that the Portugal Cove, Petty Harbor and tage to profitable business is in makes the greatest turnover in the year is the firm that commands success. And not only that, but in catering to the of funds. Last year only \$7,500 was tastes of their customers they attract others

The consignment system meant hurrying cargoes of fish dule was passed then put their cars to market, without careful inspection as to quality. Many and many a cargo in the past was underbulked with good fish, but topped off with inferior cure, when a rush order was made for the ship to sail. Result, as grants are still very small, and despite has been pointed out time and ing the past twenty years and the conagain, that the hasty stowing sequent deterioration of the roads, the of half-cured fish on the top of grants have been augmented by only the well-made article, and in the twenty per cent, an amount entirely hatches, caused the former when disproportionate to the traffic inheated to infect the latter, the natural consequence being that the whole cargo was more or commission should be given the right less rendered unfit for consump- to raise a loan for road improvement tion and had to be thrown away. on Government guarantee. The in-This happened not once only to pay the interest and provide a sinkbut in numerous instances. The ing fund for the ultimate repaym adoption of the system of out- of the principal. By means of the right sales would mean the amount which could be borrowed, perabolition of all hasty and crude manent roads could be built, and the ladings of dry fish cargoes. It would not be very much. Mr. Hibb would further mean that every and Mr. T. Soper are working enershipper would be obliged to personally supervise the quality of the cause of better roads, and their fish going on board ship and its efforts should inspire others to give stowage. Or if not able to do what assistance they can. so in person would have to employ a competent agent. Quality would thus be ensured as no inferior cure of fish would be passed for shipment. Rule of thumb and the slipshod and careless methods of the past] would have to go under if the would have to go under if the principle of outright sales were adopted. Cargoes would have England from the A.N.D. Co. adopted. Cargoes would have

yould necessarily have to be an improvement in the splitting salting and making, all of which would not only redound to the advantage of Newfoundland in eneral, but to the various shippers in particular. More care in the making of our chief article of export must be exercised in the future. Competition is keen in markets hitherto held by this Colony, and if we wish to retain hese the brand "Newfoundland Produce" must be the guarantee of quality.

Road Work.

COMMISSION WANTS TAXES ON VEHICLES.

During the past three weeks the tive, and the Topsail Road is now considerably improved. The work on this road is being done by only three days. men. One is Mr. Jos. Dawe, foreman. The others are an operator for House adjourned at 5.30. only saving labor but also is helping to put the road in better condition than ever before. There are four machines. These are a tractor, a softens it, putting it in the condition necessary before the grader can be used. The grader is followed by the Road Commission, told the Telegram to-day that a steam roller is an urgent erly renaired should be macadamiz ed. For this work a steam roller must be used. In places the Topsail Road has been built up over two feet week. Work will then be begun on

TAX ON VEHICLES.

Mr. Hibbs stated that the Road Commission was greatly hampered by lack collected in motor car taxes. This was a result of the new schedule being delayed in the House. Many motorists who had run their cars without licenses up to the time the scheaway. There were also sixty cars in Conception Bay whose owners have not paid taxes. The Commission will take steps this year to make these people pay up. Mr. Hibbs thinks that there should be a small tax on all vehicles using suburban roads. The road the enormous increase of traffic dur-
