Apology Offered

By Conservative Agents for Charges Made Against London Liberals.

The Plea of Mistaken Identity Tendered-A Humiliating Situation.

The Facts of the Matter - Parties Ag grieved Have No Redress

Brantford Expositor of Monday. The farce of bringing three young nen from London and chargin; them with having personated voters in the interest of the Liberal candidate, has completely "petered out," as the sayng goes. On Saturday the Expositor said the charges were incapable of the slightest proof. The following letter of apology was received from Messrs. Wilson & Watts, the legal advisers of the complainants:

"Brantford, Ont., Feb. 1:, '97. "J. T. Hewitt, Esq., Barrister, City:
"Dear Sir,—Re O'Gorman and Coop er, I find on further investigation that Mr. O'Gorman and Mr. Cooper were not the parties that were guilty of personation at the last election, and, therefore, we will not proceed further in the presentation of informations laid in the matter. "I regret that Mr. O'Gorman and Mr. Cooper were mistaken for the guilty parties. It was clearly a case

of mistaken identity. 'Yours truly "P. S.—In reference to Mr. Fitzhenry, we take it for granted that his case was disposed of last Wednesday, he not being the man intended for the information."

The facts of the case, and the extremely flimsy pretexts upon which the names of three respectable young men were dragged in the mud in the effort to create an impression that hat Liberal victory was the result of personation, may be judged from the following narrative of the circum-

William Lockie's name appears on polling subdivison No. 8, at the fire hall. Someone voted on the name, either William Lockie himself or some one for him. Be that as it may, the Liberal scrutineer objected to the man, challenged his vote and make him take the oath. No objection was raised to him by the other side. Afterwards the Conservative scrutine claimed that the man who voted was not Lockie, and described the part who did so as a large, tall man. On the strength of this information Mr Adams, who had been on the Indian reserve all day until 4 o'clock, swor out an information against O'Gorman, who, in company with Mr Cooper, had charge of bringing the Liberal vote from London and there abouts to Brantford. The purport of Mr. Adams' oath was that he did not believe Mr. O'Gorman would attend a summons, and so it would be neces man and Mr. Cooper were at once apprised of the fact, and they at once started for Brantford, passing on the way the constable who had charge of the warrants. They instantly pre-sented themselves before the chief of police and demanded an explanation Conservative scrutineers, were supposed to have described Mi O'Gorman, immediately saw he wa not the man. The deputy returning officers, the poll clerk, the two Liberal scrutineer and the remaining scrutineer unhesitatingly said the same thing. Mr. O'Gorman was acquitted of the charge. And now with regard to Mr. Coop-

er: That person was charged with th ludicrous charge of having personated Mr. George D. Smith, the city hall janitor. Mr. Cooper is a young man of some 20 years of age, while Mr. Smith is a middle-aged man with a full beard, yet Mr. Cooper was charged with impersonating the janicharged with impersonating the jani-tor. Mr. George D. Smith's name ap-pears on two subdivisions, viz., No. 11, at the court house, and No. 12, at Peel street. The genial janitor voted at the court house. He was subse-quently told that he had been personated at No. 13. He, of course, reported the matter. What were the facts? No man applied for a ballot in the name of George D. Smith. The facts were inquired into, and what were they? A man came to the outside scrutineers, and in passing in, said his name was George D. Smith. When he got inside, however, he asked for a ballot in the name of Henry R. The Liberal scrutineer Patterson Mr. Edmund Harley, who had Patter son marked as a Conservative and a being in Manitoba, at once objected request of Mr. Harley the man took the oath. No objection was made to him by the Conservative scrutine According to Mr. Harley, this man was a short man with whiskers, and as unlike Mr. Cooper as any two men could possibly be. When Mr. Cooper was presented to the Liberal and Conservative scrutineers they all denied ever having seen him before. It was on this kind of evidence that two young men were brought from London and charged with a most serious of ence, annoyance and reproach. As to Mr. Fitzhenry: The attempt to connect him was more flagrant still. He had never seen Brantford in all his life, until he came to answer serious charge laid against him. This, then, is the sum and sub-stance of the loudly proclaimed charges of wholesale personation adequate remedy for persons placed in the position of these three young men. Their only remedy is an action for damages against the who may, or who may not, parties, who make be worth a cent.

MR. GLADSTONE'S MOTHER.

Literary Digest. In reproducing Justin McCanthy's Story of Gladstone's Life" outlook, we noted the fact that the biographer had very butle to say of Mr. Gladstone's mother. A Canadian reader of the Outlook, noticing the same omission, has since written to that journal as follows: "When one observes that Mr. McCarthy traces the genealogy upon the father's side back to the close of the thirteenth century and shows how an ancestor, Herbert de Gledistames, figures as one of the de theustaires, ingures as one of the lairds 'who swore fealty to Edward I.' one wonders why the mother should not be as much as mentioned by name. 'He (the father) was a pure Lowland Scotchman, and he married an Highland Scotchwoman.' Yes, but that woman could also trace here lies. that woman could also trace her line-age back to a thirteenth-century man who won against Edward I. one of the world's decisive battles and secured for Scotland her independence. Anne Robertson was descended in a direct line from Robert the Bruce. Upon reading the scant reference to this bot street.

child.

For years Dr. Radway has been laboring in the vineyard of medical science in improving the process of obtaining the active properties from medicinal substances without heat. This great desideratum he has successfully accomplished, so that every ingredient used in Radway's Sarsaparillian Resolvent and the Ready Relief and Radway's Pills are the pure, unadulterated, active properties. In Radway's Sarsaparillian Resolvent one teaspoonful contains more of the pure curative principle of Sarsaparilla than will be found in a quart bottle of the weak decoctions of the advertised Sarsaparillas.

"RADWAY ON OVARIAN TUMORS.
In Tumors, Nodes, Hard Lumps and Syphiloid Ulcers; in Dropsy, in Venereal Sore Threat, Ulcers, and in Tubercles of the Lungs; in Gout, Rheumatism, Rickets; in Mercurial Deposits—it is in these terrible forms of disease, where the human body has become a complete wreck, and where every hour of existence is a torture, wherein, this great remedy challenges the astonishment and admiration of the sick. It is in such cases, where all the pieasures of existence appearent off from the unfortunate, and by its wonderful, almost supernatural agency it restores the hopeless to new life and new existence, where this great remedy stands alone in its might and power.

In the ordinary skin diseases that every one is more or less troubled with, a few doses will, in most cases, and a few bottles in the more aggravated forms, work a permanent cure. TUMOR CURED

Dr. Radway, New York—Dear Sir: For temouragement of others in similar circum stances to what I have been, I think it right forme to return my heartfelt thanks to you for the benefit I have received from the use of the Radway medicines. I had been afflicted over six years with tumor in the abdomen. Had been to six of the best doctors I could hear of in Iowa. They all told me the same story, that my trouble was out of the reach of medicine, and that it would in time kill me. I happened to see in your Almanac about tumers being cured. I immediately, as a last resort, resolved to try your treatment. To my great surprise I soon experienced good effects, and with only using three botties of the Resolvent, one of the Rady Relief, and by continuing on with the Pills longer, I was completely cured. I was so enlarged that I was 4 feet 2 inches around, while now I measure 2; feet around. Before using your medicine I had not laid down in six months. Now, if this sketch will be of any benefit to suffering humanity, I am willing to have it published. Yours with respects.
