Inspector Edwards Brought the Matter Officially to the Attention of Board.

#### PUPILS ARE INCREASING

Mr. Edwards Denies Pushing Children

Ahead, So as to Show Accommodation is Lacking.

At the meeting of the board of education yesterday afternoon, the crowded condition of the public schools was officially drawn to the attention of the members.

Inspector Edwards, in his report mentioned this fact prominently, and urged that something be done immediately to relieve the congestion. The crowding is particularly heavy in the lower grades.

Dr. Teasdall asked the inspector whether or not it was true that took pupils from the kindergarten and promoted them in order to crowd the grades.

Mr. Edwards stated that he had consuited with the principals of the kindergartens regarding promotions, and had suggested that the cluidren there six years of age and over should be promoted. If they spent eight years in the public schools, they would be fourteen when ready for the entrance. He merely consulted with the matter.

Mr. Edwards says further:
Schools Are Full.

"Since September, 1908, when the total enrollment was 4,596, there has been a steady increase both in enrollment and average attendance. The consequence is that practically all the schools are full, while in the primary rooms the attendance is altogether to high for efficient work.

In grades 1 and 2 the average number of pupils on the roll for each of the district deputy grand master.

In grades 1 and 2 the average num-ber of pupils on the roll for each teacher is 43.9 and 44.3 respectively. In grade 1 no teacher should have more than 35 if proper training and individual attention is given, while in grade 2 no more than 42 should be in the room. There is urgent need for immediate relief in Empress avenue the room. There is urgent need for immediate relief in Empress avenue school, where there are 65 and 54 in grades 1 and 2 respectively. In Victoria school there are 68 on the roll in grades 1 and 2 respectively. In Victoria school there are 68 on the roll in grade 1. Pending the fitting up of the house purchased by the board, half the class comes in the morning, and the remainder in the afternoon. In the eastern part of the city both Aberdeen and Chesley avenue schools are crowded. The attendance in these schools bids fair to increase in the near future to an extent that will require increased accommodation.

drugs goes in an attempt to cure the stomach.

People are made to believe that in order to gain health they must doctor their stomachs and use cathartics. So the doctor gets his fee for the stomach and the druggist for the physic, until the savings of a lifetime are exhausted and yet no cure.

Let's be reasonable.

The sick stomach is in every case the result of over-cating, hurried mastication and improper choice of foods. The mucous lining all the way down the food tract loses its sensitiveness, and when food is forced down the muscles fall to respond. They do not churn the food as they should. The glands no longer give out gastric juice to dissolve the food and render it capable of assimilation. The man has become a dyspeptic.

#### You Can't Cure Catarrh By Swallowing Drugs

Sicken the Stomach, But Don't Reach the Germs of Catarrh-Hence Their Failure To Help

To cure an ailment in the throat or thest, to rout out Catarrh or Asthma, t is essential that the medicine be conveyed direct to the affected parts. why no other remedy has This is why no other remedy has achieved such world-wide success as Catarrhozone, which alone can be breathed in one second to every air cell in the breathing organs. The healing vapors of Catarrhozone mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs—all parts are saturated with the rich piney essences that ease heal and cure.
