

NEWS OF THE PROVINCE

Heavy Fall of Snow Near Vancouver - Visit of Hon. Clarke Wallace.

The Worst Storm for Many Years - Mining in and About Trail Creek.

(Special to the Colonist.) VANCOUVER, Sept. 19. - Hon. Clarke Wallace, comptroller of customs, will be here tomorrow, on a tour of inspection.

There was a heavy fall of snow in the mountains near Vancouver last night. No injury was done by the Wiggins gale last night in the harbor. The storm was not violent here, but anchors were lowered and ships were swung out.

A large amount of snow was swamped and sunk at Seveston. The steamers Iona and Edgar had not been reported to-night and some fears were expressed.

VANCOUVER, Sept. 20. - Captain Beck, of Seattle, who has been canvassing here for funds to erect a home for the adult blind on the coast, collected \$131.50.

The scheme to construct a marine railway in Vancouver is meeting with great favor here, but some opposition is made by Deadman's Island being chosen as a site for the railroad, owing to its proximity to Vancouver's play ground - Stanley Park.

The Vernon council have engaged Vancouver's City Engineer to advise them as to the construction of waterworks. The water supply will be taken from springs in the town or from a lake in the immediate vicinity.

An inquest was held on the body of M. J. McLeod, killed at Hastings mill, and a verdict of accidental death returned.

Work is progressing very favorably on the Cariboo and Horsely mines. It is thought no clean-up will be made until the end of the season.

The eighty-fifth anniversary of the republic of Chili was celebrated by Consul Morcia. All the consuls in the city were his guests and some very eloquent speeches were made.

Rev. Mr. Pridley's place as pastor of the Congregational church will be filled by Rev. H. C. Mason, of Brandon, Man.

Two men, Johnson and Ward, were arrested on a charge of being drunk this morning. It was discovered that they were both crazy. They were immediately examined and will be sent to the asylum.

Collingwood Schreiber, deputy minister of railways for Canada, arrived in Vancouver by to-day's express.

The bottling department of Doering & Marzetti's brewery was damaged by fire last night.

Caple Bros. and Charles Day are taking photographs of Stanley Park and the city. They will be arranged in album form and sent to England for sale and presentation.

WESTMINSTER, Sept. 19. - At the mouth of the river the storm was the worst for many years. The waves swept across the cannery wharves and dashed the spray over the tops of the buildings. Many salmon boats were battered to pieces by being knocked together. The ship Wythop at Costello's cannery broke from her moorings.

The sad announcement was made to-day of the death of Garnet, 12 year old son of Judge Bole, from typhoid fever. Garnet was a bright intelligent lad and a favorite with all who knew him. The news reached Judge Bole while he was in Victoria.

Chief Theodore Akerman, of the Westminister fire department, who in his official capacity as Grand Chancellor, K. of P., of British Columbia, recently visited the K. of P. lodges at Kamloops and Vernon, has just returned, and states that although he found times rather dull he was greatly pleased with the evident fertility of much of the country visited. He was surprised to find such an extent of wheat land as he saw in the Okanagan country and the Spallumcheen valley. At both Kamloops and Vernon apples and plums of very fine quality were seen. The fruit trees were apparently free from pests, and as a consequence, the fruit, apples particularly, was clean and very marketable, both in flavor and appearance. Orchards and gardens are irrigated, with excellent results. The vegetable season, especially tomatoes, of which tons were then on the vines - were equal in size and quality to anything he had ever seen in California.

J. J. Wilson, Fort Haney, brought to the city 25 boxes of peaches the product of one tree, which he sold at one dollar a box.

WESTMINSTER, Sept. 20. - Another public meeting will be held on Saturday to consider the bridge question.

There is only room for three more patients at the provincial asylum at Vancouver in sending two patients over this week.

A rather interesting game law case was decided in the District court yesterday. A year ago Douglas Lymington got permission from George Goddard of Langley, to shoot deer on the farm owned by that gentleman. A short time ago Lymington killed two deer on the Goddard farm, on which Goddard the son is living, giving one of the deer to Goddard Jr. Goddard Jr. lived a mile away from the farm. Lymington was charged with illegal killing of deer, and Captain Pittendrigg who heard the evidence has fined the accused \$25. The case has been appealed.

NANAIMO, Sept. 20. - To complete arrangements for holding the synod here on the 18th proximo, a meeting was held on Wednesday evening, and a committee appointed composed of Rev. Canon Good, Rev. G. Taylor, Messrs. J. S. Stannard, E. E. Taylor, C. W. Durrant and W. H. Simpson, with the assistance of two ladies from each church. The synod has been instituted nearly twenty years and this will be the first occasion on which it has been held outside the cathedral city of Victoria. It is expected that at least fifty ministers and lay delegates will be present, and the session extend over three days.

Wellington Horticultural, Agricultural and Industrial show opens to-morrow, and from the manner in which it has been advertised to ought to be a great success. The missionary steamer Glad Tidings arrived to-day from Port Simpson. Her captain reports trouble in the vicinity of Cape Mudge caused by whites supplying Indians with liquor. On the 10th inst., a klootch

was drowned out of a canoe while intoxicated. Eleven unopened bottles were found in the canoe. The Indian agent at Alert Bay is endeavoring to secure the arrest of the guilty parties.

ROSEBUSH. (From the Rosebud Miner.) The men at work in the Deer Park mine broke into a body of clean ore Tuesday afternoon. A very satisfactory assay was had from it and development will now be pushed forward with greater confidence than ever.

Some high grade ore has been found on the Alberta, a claim lying south of the Iron Cliff on Columbia mountains. Free gold was found in some of the rock taken out this last week.

The Midway, a claim on Stony creek, west of Blue's sawmill, has been bonded to E. L. Sawyer, of Tacoma, and will be developed as soon as the vein is every appearance of promise. An assay of \$20 in gold was made from the surface.

The St. Elmo is looking well. The tunnel at the east end is now about 40 feet into the cliff and the face is well mixed with ore. Solid ore is exposed as any moment. Some very good concentrations are showing \$24 in gold has been found near the west end of the claim, but no work is being done there at present.

A new opening has been made on the Homestead ledge nearly midway between the shaft and the short tunnel. The ore was found in solid mass near the surface and a test showed 151 ounces in silver and \$12 in gold.

J. L. Warner, of Seattle, has purchased the one-third interest in D. J. Hughes in the O. K. mine, and has been on the property most of the week making suggestions as to development work, which is badly needed.

Work on the tunnel of the Jumbo was commenced Tuesday. The opening for the tunnel was made about 225 feet down the hill and will give a depth on the ledge of 150 feet. When the surface was cleared off for the tunnel opening some very good looking copper was found.

The notice of Robert E. Lee has been reduced to four men, pending the arrival of the new pump and hoisting machinery. Exploration continues in the new surface opening, from which assays ranging from \$41 to \$55 in gold have been obtained.

Solid ore has been struck in the opening about 100 feet southeast of the lead of Erin tunnel, at a depth of eighteen feet from the surface.

Some very high assays are reported from the Indian Consolidated, sometimes called the Good Friday. A tunnel has been started in on the ledge, which is of immense proportions, and ore found in considerable blocks that run high in silver with a fair value in gold.

Work is to be resumed on the Gertrude. Situated at the west of the War Eagle, it can hardly fail to catch one or more of the gold bearing ledges. Expert mining men have no doubt that good ore will be found in that part of Red Mountain.

Two careful samples were taken from No. 2 tunnel by the O.K. mine. One from the face of the tunnel, and the test showed one to be \$25 25 in gold and copper, and the other to be \$21 25 in gold and copper. The percentage of copper in one was 5, the percentage of copper in the other was 3.

The War Eagle compressor is to be located at the bottom of the gulch east of the present workings of the mine. A force of men is clearing the ground and getting the foundations ready for the new 200 horse power boilers.

The showing on the Iron Horse is greater and more astonishing than ever. On Thursday a chamber sixteen feet square had been put in the ore and no walls found. Three crews of men are at work, one in the face of the tunnel, one in the south end of the cross cut and one in the north end. On Thursday Mr. Humphreys knocked off half a bushel for a length of two feet from the south side and an assay of this showed \$75 in gold to the ton. He took a large sample along five feet of the face further north and the assay of this showed \$46 in gold to the ton, making an average of \$64 for seven feet.

The Roderick Dhu is now coming rapidly into notice. A tunnel has been run in 18 feet on the ledge from the Sheep creek side of the hill. The ledge is four or five feet wide between very clean, well defined walls, and the rock in the face of the tunnel is thoroughly streaked with mineral. It is a good concentrating ore, but will no doubt soon turn into pure sulphide.

The air is bad in the Centre Star tunnel, and pipe has been ordered and will be in place in a few days when work will go on as usual. An upraise is being made at a point 450 feet from the tunnel entrance, and when this is completed the air question will be settled. The tunnel will be extended 100 feet further to the line of the Le Roi, when it is expected 100,000 tons of ore will be exposed.

The Centre Star is already a big mine. It has one ore chute 134 feet long and from 10 to 20 feet wide - one will run \$25 to \$30 in gold, and another chute of still greater extent that will average \$12 in gold. The face of the tunnel, headed directly for the Le Roi, is in solid ore of good grade.

(From the Prospector.) The town of Trail is just now in the focus of fortune's rays. The townsite shows up admirably since the streets have been cleared. Three or four new buildings are being constructed and many more will be soon. The smelter site has been surveyed, and excavations are being made for the foundations of the buildings. This work must be completed within twelve days. Contracts have been let for most of the material required in the smelter. Anderson & Co. tally, the contractors, expect to have ready for business before the first of November.

It is hardly "Lo, the poor Indian," in these days. Several tribes are very well-to-do. The Cherokees have large wealth, both in money and lands. The Chickasaw Indians, says an exchange, have in cash invested by the government for their use, \$260 for every man, woman and child, and besides each has 930 acres of good land. This a family of five have \$1,300 cash and 4,550 acres. Some other tribes are as well-to-do. They are also having cash to advance their children, and many are taking advantage of them. It is well that the latter days of the red men are better than those that have passed.

THEODORE DURRANT.

Anticipated Attempt to Make Out an Alibi Forestalled by the District Attorney.

Organist King Admits that it Had Been Suggested to Change His Evidence.

SAN FRANCISCO, Sept. 19. - The Durrant trial has become the fashion. Society has set its approval upon attendance at its sessions, and yesterday for the first time, an acknowledged belle of Pacific Heights was the accused from a front seat. Reva, C. O. Brown and D. Hanson Irwin were in evidence for the church, while M. Arismendi, consular representative of the Carribean, looked on for the diplomatic.

A preliminary hearing was conducted, important by the prosecution. The fear was entertained by the district attorney that from the testimony of Mrs. Leak the jury might get an impression that it might have been Alise Durant who had shot the woman who accompanied Durrant to the church on the afternoon of April 3. To remove the possibility of doubt on this point Miss Turner's testimony was available and it was thought advisable to call it.

Edna Lucille Warner testified that she was a member of the Society of Christian Endeavor, of which Durrant was secretary, and was a member of Emanuel church. Then the district attorney asked her this question: "Were you in Emanuel church with Theodore Durrant on the afternoon of Wednesday, April 3?" Witness replied: "No." There were no further questions, no cross examination, and the witness was then excused.

George R. King, organist and associate of Durrant in Emanuel church, said he had seen Durrant well. Durrant was assistant superintendent of the Sunday school and sometimes sang in the choir when witness presided over the organ. On the afternoon of April 3 King went into the church to practice the new piece. After he had been a few minutes Durrant walked in. Durrant's hair was disheveled, he was pale and agitated, and he looked ill. He had his coat and hat off, and explained his appearance by saying that he was repairing a leak in the gas pipes, and that he had been overcome by gas.

The prosecution seemed to emphasize slight discrepancies in the testimony of King, who was plainly using every means to the best of his ability to make Durrant's testimony as consistent as possible. Everything that could be construed as injuring Durrant's case could be extracted from King only with the greatest difficulty. He had seen Durrant, he admitted, after the preliminary hearing, and also Durrant's father and mother, with whom he had talked over his testimony regarding Durrant on that fatal afternoon.

King, under the skillful questioning of the district attorney, finally admitted that it had been suggested to him that he should testify that he had seen Durrant on the afternoon of April 3, but that he had refused to do so, and that he had been in the county jail by defendant, and in the office of Durrant's attorneys by Attorneys Deuprey and Dickinson. This admission created a tremendous sensation. Deuprey excitedly jumped to his feet and shouted that the whole story of his endeavoring to change the testimony of the witness was a myth in the brain of the witness. But, as to his dispute Deuprey's remarks, the district attorney asked him to testify that he (King) was a close friend of Durrant and anxious to see him acquitted. He said he had examined all the gas jets in the church after Durrant's arrest and he could find no leak in any place. He said Durrant was not heard, but that his power to have him arrested and his testimony changed had been made in the county jail by defendant, and in the office of Durrant's attorneys by Attorneys Deuprey and Dickinson. This admission created a tremendous sensation. Deuprey excitedly jumped to his feet and shouted that the whole story of his endeavoring to change the testimony of the witness was a myth in the brain of the witness. But, as to his dispute Deuprey's remarks, the district attorney asked him to testify that he (King) was a close friend of Durrant and anxious to see him acquitted. This admission created a tremendous sensation. Deuprey excitedly jumped to his feet and shouted that the whole story of his endeavoring to change the testimony of the witness was a myth in the brain of the witness. But, as to his dispute Deuprey's remarks, the district attorney asked him to testify that he (King) was a close friend of Durrant and anxious to see him acquitted. He said he had examined all the gas jets in the church after Durrant's arrest and he could find no leak in any place. He said Durrant was not heard, but that his power to have him arrested and his testimony changed had been made in the county jail by defendant, and in the office of Durrant's attorneys by Attorneys Deuprey and Dickinson. This admission created a tremendous sensation. Deuprey excitedly jumped to his feet and shouted that the whole story of his endeavoring to change the testimony of the witness was a myth in the brain of the witness.
