W. F. MACLEAN. MONDAY MORNING, JULY 14, 1884.

An Experiment That Might Be Tried. ritories has not been working well of

price. In Winnipeg, recently, No. 1 wheat was bringing from 95c. to \$1, and were flattened, but saved. Within a circuit of nearly two hundred miles from this quoted "slow" at from 25c. to 30c. Now, suppose that two or three breweries were licensed in the Northwest, and that licenses to retail beer only were also granted, the law against the introduction of spirits being still rigidly enforced. If the people could get good beer without breaking the law, the temptation to break the law by bringing in spirits would be pected that the pressure upon the authora trouble which threatens to grow to seri- Atlantic every night. ous proportions ere long, if a way of dealing with it be not found.

Dry Houses v. Damp Houses. The importance of selecting dry loca-

tions for residences is, says the Scientific American, very aptly illustrated in the following extract from an address by Professor R. C. Kedzie before the Michigan

Two brothers in Vermont, of strong and Two brothers in Vermont, of strong and vigorous stock, and giving equal promise of a long and active life, married wives district, and that many iron workers are of a long and active life, married wives district, and that many iron workers are either bow his head in prayer, or to study idle, with a prospect of their number incorresponding in promise of future activity.

Consider the caurent consecting plant when it causes the moneyless man to either bow his head in prayer, or to study it is a prospect of their number incorresponding in promise of future activity.

Consider the caurent consecting plant when it causes the moneyless man to either bow his head in prayer, or to study it is a prospect of their number in the architecture of the church ceiling! the architecture of the church ceiling! the continued frankly, "when I was at college I never paid any attention to botany." vigorous stock, and giving equal promise are 20,000 shipbuilders idle in the Tyne callings—farming. One of the brothers London Times, which so frequently lec- Yet an attendant of St. Laurent's catholic built his house in an open and sunny spot tures Canadian "colenists" upon the beauties church, Montreal, has actually sued the where the soil and subsoil were dry; shade of free trade and the evils of protection. trees and embowering plants had a hard sorrowfully admits that things are lecting to pass the plate to him on Sun time of it, but the cellar was dry enough in a very bad state. Has the Cobden days. It appears that there is a feud its parts was free from every trace of breadwinners? Yes, indeed. One of its this method of heaping coals of fire upon dampness and mould; there was a crisp and elastic feel in the air of the dwelling; the farmer and his family had that vigorous elasticity that reminds one of the spring and strength of steel; health and tion! The difficulty is, however, that sprightly vigor were the rule, and sickness men who are not in the receipt of wages the rare exception. The farmer and his cannot buy where they like, and in fact wife, though past threescore, have yet the look and vigor of middle life.

The other brother built his house in a beautiful shady nook, where the trees seemed to spread their protecting arms in benediction over the modest home. Springs fed by the neighboring hills burst forth near his house, and others by his barns; his yard was always green even in driest time for the life blood of the hills seemed to burst out all about him in springs and land means more paupers for shipment to tiny rivulets. But the ground was always | Canada. wet, the cellar never dry, the walls of the room often had a clammy feel, the clothes mildewed in the closets, and the bread moulded in the pantry. For a time their vigor enabled them to bear up against these depressing influences; children were born of apparent vigor and promise, but these, one by one, passed away under the touch of diphtheria, croup and pneumonia; the mother went into a decline and died of consumption before her fiftieth birthday. and the father still lives, but is tortured and crippled by rheumatism.

Whatever may be the ultimate upshot of the printers' strike, the Mail must be regarded as having been badly outgeneralled not only by the men who left it so badly in mind gives way beneath the strain upon the lurch last Friday night, but by the his scissors hand. The latest victim is Globe, which has reduced it into a false Mr. Storey, the once brilliant editor and position as an exponent of the "good publisher of the Chicago Times. Mr. times" theory. The Mail's participation Storey experienced every success that in the movement to reduce wages was a heart could wish. He has acquired inpolitical blunder of the first magnitude. fluence and amassed wealth, only to have Its counting room has given the lie direct a conservator appointed to look after his peace for same county, and Thos. S. Shento its editorial department, and the effect money. We observe that it is only rich of this inconsistency will be felt in contosts vet to be. An atmosphere of reck- The poor devils who do the hard work of the whole establishment, and its leading ity. There is nothing like plain living to spirits write and act without reflection. The Mail has-or had-money. What it are the uses of adversity." needs most is brains.

The London Standard says that a moveholding 8700 shares, are in favor of the change, as also of a thoroughly effective reduction in the expenditure. Four fifths of the entire capital is in the hands of Scotch and Canadian shareholders. The same paper further says that another circular has beast their ability to repeal the law therein.

County. Thos. Page Wadsworth, Winnipeg, to be a commissioner for taking affine the expenditure. Four fifths of the expiration of the time of the adoption of the act, without waiting for the expiration of the three years of its territories for use in the courts of Ontario. Thos. J. Hunt, Philadelphia, attorney at the expiration, which clapse next May. To this end they are organizing Halton, and beast their ability to repeal the law therein.

Reginald McLeod, as chairman. He traverses the statements of his colleagues, Lord Elphinstone and Mr. George Warrention of expenses to the lowest possible figure; (3) The number of directors to be reduced to a maximum of nine and a minumum of five; (4) That no liabilities whatever should be incurred which would involve preferential charges of any kind on

the company's property. The great northeasterly rain storm of the political situation in our own country vation of the good name of the city, so far June 25 and 26, which marked the close of altogether without similar indications of a as that is now left among the possibilities, the long dry spell, appears to have done good time coming. The French bleus are has led the local press to keep the edious wonders for the crops. There must have not now the docile followers of their leaders been "millions in it" for the good of the that they once were, while the dry bones been "millions in it" for the good of the country, both in Canada and the States, judging by what papers from all quarters have since been saying. A New York paper, the Dry Goods Bulletin, says: Early in the week the mercury reveled in the nineties, and seemed to delight in placing the business community on the silk list. Wednesday [June 25] was not quite so hot, but excessively murky; every article of Globe gives them a right to thrust them opposition without a grievance. That the judging by what papers from all quarters have since been saying. A New York paper, the Dry Goods Bulletin, says:

Early in the week the mercury reveled in ren Anglin as his man Grady. Driven out the nineties, and seemed to delight in placing the business community on the silk list. alized through the increasing difficulties of Wednesday [June 25] was not quite so hot, imagine that their connection with the the situation. Nor is the evil likely to die but excessively murky; every article of Globe gives them a right to thrust themout of itself, the probability being that the wear seemed glued to the person. At selves upon counties which can be used as out of itself, the probability being that the difficulty of enforcing the law will be growing greater every year, until the whole permit system ends in a grand collapse.

Now, let us make a suggestion which it might be worth while to try in two or three places, by way of experiment. Barley, not being in as much demand out there as wheat or oats, is very low in the control of itself, the probability being that the difficulty of enforcing the law will be growing greater every year, until the wear seemed glued to the person. At might the wind changed and soon after sunset furious storm of wind and rain prevailed. This continued all night, the mercury dropping from 87° at 3 p.m. to 54° at 7 a.m., Thursday. Rain fell in copious torrents during the night. The parched earth and the scorched vegetation received new life. Throughout all Jersey, eastern the future.

Barley, not being in as much demand out there as wheat or oats, is very low in the stream of the person. At the person. At the person counties which can be used as stepping-stones back to the seats which a gold ring, as he did, becomes of they forfeited.
