TENTH YEAR. WEDNESDAY MORNING AUGUST 7, 1889. PRICE ONE CENT

THE BRETHREN FALL OUT

THE "CLARKE CLIQUE" ROASTED IN THE COUNTY ORANGE LODGE.

Honest John McMillan Endorsed for the Mayor's Chair—Illustrious and Prominent Officials Who Were Censured—Frank Somers to Flee to Ireland.

There is a nice little boil going on within the precincts of the Orange order, and above the sizzing of the pot can be heard the words: "Which of us is to be the next mayor?"

The brethren have all along practically run the City Hall, the Fire Brigade, the Police Force, the Custom House, and now it is said they intend to lay heavy hands on the Civic Throne itself, and no one but an Orangeman, or a very stout-kneed Protestant at least, will be allowed to sit thereon.

There was a great racket at the meeting of the County Orange Lodge the other night and the amount of "squaring" and "queering" that was done was enormous. President and Worshipful Brother John McMillan left the room the white-haired boy of the County Lodge, and it is said the members thereof will use their utmost endeavors to put John in the mayor's chair next year. County Master Ald. William Bell was also loaded up with fealty and confidence by the lodge, and he was sent forth with the seal of approbation attached to his collar. Bro. Bell is to get the support of the County Lodge for a seat in parliament, one of the West Toronto constituencies, when the redistribution takes place. The brethren are hoping, for the sake of Mr. Bell, that this is not a case of distance lending enchantment to the view.

Mr. James L. Hughes, Past County Master, who is to run against Hon. G. W. Ross in Middlesex, was also "endorsed" by the County Lodge.

These illustrious brethren had all proven themselves loyal to the principles of the order, had been strenuous in their opposition to the Jesuit Bill and had fought the friends of the Dominion Government, Hon. Mackenzie Bowell included, at the recent meeting at Goderich of Grand Lodge. It was decided that John McMillan, who is District Master of Centre Toronto, should have the solid support of the order for mayor, and this, with the Reform vote that he is likely to secure, will put him there against all comers, Mayor Clarke included. This is the calculation at least. And no one will deny that Honest John wants the place.

Then the "roasting" process began. The first one to be thrown into the pot was Mayor E. F. Clarke, Grand Treasurer of Ontario West and Deputy Grand Master of British America. This illustrious brother was roasted, boiled and jumped upon by the County Lodge for: 1. The stand his paper has taken in the whole discussion of the Jesuits' matter; 2. Because His Worship did not head the procession at the famous meeting in the Pavilion. The members of the County Lodge declared that Mayor Clarke is primarily an Orangeman, and he should never lose sight of that fact.

The next brother of high estate to be censured was Frank Somers, Past County Master, and that gentleman is about to set out for Ireland to escape further wrath at the hands of the infuriated brethren.

Mr. Robert Birmingham, Grand Secretary of Ontario West and Treasurer of the Conservative Union of Ontario, was the next victim. The County Lodge told this errant brother that it would be eminently better satisfied with him if he paid more attention to his office of Grand Secretary than he does to organizing for the Conservative party.

The last brother to be sat upon was Mr. John Graham, Past District Master and an aspirant to the County Master's chair. All of the brethren thus censured were labelled the "Clarke clique." They were declared to have acted as weak-kneed Orangemen throughout the whole Jesuit controversy and to have thought more of the political party to which they belong than of the order and its principles.

This action of the County Lodge creates a big breach in the order, and there is no guessing where it will end. The "Clarke clique," as it is called, is to be strongly opposed by the friends and followers of Ald. McMillan. As Mayor Clarke is now upon the broad ocean there is no telling what he will do about it all when he gets back to town. His arrival will be anxiously awaited by the brethren of the city.

HONEST JOHN M'MILLAN SPEAKS.

He Tells the Story of the Equal Rights Trip.

President McMillan arrived from Quebec at noon yesterday. "I would have been earlier," he told The World, "but I missed connections in Montreal and that kept me late."

"Are you disappointed with the result of your interview?"

"Not a bit. I was not surprised, neither were there any of us who felt that way."

"Do you think the Governor-General spoke for himself or the Government?"

"Decidedly for the Government. He had the whole speech cut and dried. There is no denying it that he was very fidgety."

"How did you take his remarks?"

"They were simply a rehash of Sir John Thompson's arguments. Exactly on the same lines. There was one thing, however, that hurt us. That was at the close of his remarks he undertook to lecture us and give us advice about personal animosity and how we ought to bury it. Why, the deputation was composed of the most liberal minded men you could find. Principal Caven would not hurt a fly, and I am sure Mr. J. K. Macdonald and Dr. Davidson are equally mild mannered."

"Then you do not think he voiced his personal opinion?"

"That is my opinion. He started out with a warning that no argument would be allowed. I suppose he meant that no replies were to be given to his arguments, for he had a printed list of our objections and answered them seriatim. Dr. Davidson of Montreal made a grand speech."

"What other course will you adopt now?"

"That is in the hands of the Executive Committee of the association. There will be no new party, but a reconstruction of the old ones and a change in the character of our legislators and those whom we send to parliament."

EQUAL RIGHTS ASSOCIATION.

An Organization for Quebec Province Perfected at Montreal.

MONTREAL, Aug. 6.—A meeting was held this afternoon to form an Equal Rights Association for the Province of Quebec. Delegates were present from all parts of the province, and Dr. Davidson presided. Addresses were delivered by the chairman and by Mr. Alexander Fraser of Toronto. The officers of the newly formed association are Dr. Davidson, chairman; Rev. D. W. Morrison, vice-chairman; James Harper, secretary; J. F. Norris, recording secretary. Resolutions were adopted similar to those presented to the Toronto convention.

Country Before Party.

OTTAWA, Aug. 6.—There is a movement on foot promoted by Irish and French Catholics here to give Lord Stanley a reception on his return here for his attitude in regard to the Jesuits question.

The Ottawa Orangemen met last night to consider the report of the delegates to the Governor-General. The reports having been made and fully discussed a resolution was adopted denouncing the Dominion Government for its action through the Governor-General, renouncing all parties and calling on Canadian Orangemen to place country before party in the impending struggle against Papal aggression.

Adams' Tutti Frutti for the breath.

THE MILLERS ARE MOVING.

Organizing Local Associations Throughout the Province.

With a light breeze playing on his tilted white plug, Citizen John Brown sailed down Leader-lane yesterday afternoon.

"What are you doing now?" said a Young Man of The World when Citizen Brown had cast anchor.

"We are organizing the whole province," he said. "In addition to the local association of millers already formed we will form others in Hamilton on Friday, in Sarnia on the 14th, in Woodstock on the 15th, in London on the 16th and in Peterboro one was formed to-day. Before the year is out," he went on with a big head of enthusiastic steam, "we will have a central association with a membership of 2000 strong. We will issue our market sheets to members and get to buying on an export basis."

Citizen Brown then went aloft in the Board of Trade to confer with Secretary Plewes.

A Meeting at Peterboro.

PETERBORO, Aug. 6.—A meeting of millers from the counties of Northumberland, Victoria, Hastings, Durham and Peterboro was held in the Town Hall here to-day. A local organization was formed with John Hull of Lakefield president and W. H. Meldrum secretary. The meeting was addressed by Secretary David Plewes of the Dominion Millers' Association on the grievances under which the millers of the Dominion suffer in regard to the working of the duties on flour and wheat. A resolution was passed unanimously that the millers of the district use all their influence with the farmers to sign a petition to the Government to reduce the differential duties on wheat and flour. A resolution was also passed to pledge themselves to buy wheat by tester, both car and street.

THE TEACHERS IN COUNCIL.

Will There Be a Change in the Present High School System?

The High School teachers met again last night at the Normal School. A motion was carried expressing the opinion that as school boards have to pay for examination supplies they should also have the privilege of purchasing them themselves and wherever they please.

This resolution, offered by Mr. Strang of Goderich and Dr. A. P. Knight of Kingston, was carried by a standing vote:

That we have heard to-day with deepest regret of the sudden death of Mrs. MacMurchy, the wife of our esteemed fellow-teacher, the headmaster of Toronto Collegiate Institute; and that we tender Mr. MacMurchy our tender and heartfelt sympathy in the sudden and sore bereavement which he has been called upon to suffer, and we earnestly pray that the Almighty Father, who has thought fit in His infinite wisdom thus suddenly to remove to the home above one so devotedly esteemed and greatly beloved, will in His goodness and tender compassion comfort and sustain the other members of the sorrowing household, and enable them to bear the heavy burden of affliction thus laid upon them.

The secretary was instructed to make arrangements so that the teachers may attend the funeral in a body.

A discussion was then commenced on the changes in the high school course proposed by the Minister of Education, from which the reporters were excluded.

A VISIT TO "NEW ONTARIO."

Hon. Charles Drury on a Month's Tour Through the North.

Hon. Charles Drury, Minister of Agriculture, left Barrie yesterday on a trip through Northwestern Ontario. He will spend ten days in Muskoka, Parry Sound and Nipissing to see what kind of land there is in those districts and the inducements that are there for settlers. He will remain a short time in Sudbury and will then journey on to Port Arthur. In this vicinity he will visit the silver mines and examine the suitableness of the country for settlement, particularly the land in the valley of White Fish River. He will make this examination by wagon, and will go on to the Rainy River district to make similar examinations there. He will be gone about a month.

Storage for merchandise, furniture, etc. Special attention to forwarding. Frederic Nicholls, 63 to 69 Front-street west.

The York Pioneers on the Days of Yore.

The monthly meeting of the York Pioneers was held yesterday afternoon in the Canadian Institute. The president and the secretary not being present Mr. Crawford, president of the Brampton division, took the chair and Mr. McCarthy acted as secretary.

The secretary was ordered to send letters of condolence to the relatives of the members who had died since the last meeting. Their names are John Watson, Eglinton; Henry Vander Smissen, and George Harcourt.

The rest of the time was spent in recounting incidents of the Battle of Lundy's Lane, and an hour was pleasantly spent in "fighting their battles o'er again."

Always use the best Everyday Soap.

The Rat Poison Will Not Kill Her.

May Spears, a girl 18 years of age, was removed from 35 Teraulay-street yesterday afternoon to the Hospital suffering from a dose of rat poison, which she had taken with suicidal intent. When discovered she denied having done so, but a letter found on the table in her bedroom indicated the intent beyond doubt. In it she stated that her father and step-mother had turned her out of their home, 58 Esther-street, and the epistle concluded with the desire to be buried by the side of her mother. At latest accounts the girl was doing well. She will not die.

Passengers are taken direct from Union Station to the boat, not a dozen yards to walk.

Was It an Attempted Suicide?

Last night as a Don and Danforth-avenue car was passing Princess street in King a man dashed across the road and threw himself directly in front of the wheels. Happily for him the driver had a firm hold of the brake and a good grip on the horse, bringing the car to a standstill within a few inches of the man's body. As soon as he saw his attempt at self-destruction frustrated the fellow jumped up and started down the street towards the Esplanade.

The Horse Disease in the Western Counties.

The Provincial Government have, at the instance of the Minister of Agriculture, issued a commission to Dr. Bryce, Secretary of the Provincial Board of Health, to proceed to the district, including Kent and Lambton, and take evidence bearing upon the outbreak of a contagious disease which has recently appeared in a number of horses. The nature of the disease is somewhat obscure. The commission will begin its duties in Chatham on Tuesday or Wednesday next.

THE BARRICADED BEACH.

THE BOARD OF WORKS WILL INVESTIGATE R. S. WILLIAMS' ACTION.

Inspectors Who Want Horses and Carriages Are Recommended to Take to the Fleety Bike—Those Dundas-street Bridges Again Under Discussion.

Chairman Carlyle of the Board of Works called the members together yesterday afternoon. There were present Ald. George Verral, E. A. Macdonald, Lennox, Tait, Small, Macdougall, Fleming, Shaw, Woods, Bell, Carlyle (St. And.) and Assistant City Engineer Cunningham. Among those on hand to express their personal grievances was ex-Ald. Pells. He complained that R. S. Williams claimed to have the patent of the water lots in Kew Beach and was locking up all the residents there by closing up Lee-avenue. This motion by Ald. Small settled the difficulty for the time being:

It having been represented to this committee that R. S. Williams is obstructing the street running along the lake shore eastward from Lee-avenue and preventing the residents of the city living in that locality from access to Lee-avenue and thence to Queen-street, the City Solicitor be and he is hereby instructed to take steps to ascertain by what right Mr. Williams obstructs the said street, and if necessary by action or otherwise to compel him to remove all obstructions which he may have placed upon the said street forthwith.

Ald. Carlyle (St. And.) strongly complained of the quality of the macadam laid down on the streets in St. Andrew's Ward. The majority of the stones were large enough to be boulders, and people driving over the roadways ran a great risk of being pitched out. The Chairman, Ald. Carlyle and Fleming will investigate.

An application by Drain Inspector William Hill for the cost of keeping a horse and buggy for Department service was referred to the City Engineer for a report. Plumbing Inspector Clarke complained that work was getting ahead of him and necessitated a horse and buggy during the busy season. The chairman strongly opposed the claim, saying that it was too much of a good thing for a city official to be driving around in a buggy.

Ald. Carlyle: "This inspection amounts to a farce. You will not give them proper facilities and then there is no proper inspection."

Ald. Macdonald: "Give him a bicycle. That will do."

Engineer Cunningham: "I agree with Ald. Carlyle. We should give our plumbing inspectors all the facilities possible."

Ald. Carlyle: "I move that a sub-committee be appointed to report at the next meeting whether assistance is necessary or not." The motion was carried.

The Rosedale Ravine-Road Extension.

The resolution in council by Ald. Gillespie that Rosedale Ravine-road be extended from Park-road to Yonge-street instead of as now, ending is at that point, was strongly opposed by Ald. Shaw. He said that if the people wanted the road extended to Yonge-street they should dedicate it. The resolution did not seem to be in the line of Ald. Gillespie's general conduct in council.

Ald. Gillespie, who was present, supported his resolution from his point of view. He held that Rosedale Ravine-road to Park-road was dedicated by the property owners only on the understanding that it was to be extended to Yonge-street. He did not know anything about the values, but he held that it was better for the council to continue the road to Yonge-street. Even if the road stopped at Park-road an easement would have to be bought for the Rosedale sewer to Yonge-street.

Ald. Shaw returned to the charge, stating that he was amazed at the position taken by Ald. Gillespie. The discussion practically resolved itself into a duel of words between these two old enemies. Then Ald. Tait attacked the representative of St. Paul's Ward, getting very personal in his remarks. Ald. Fleming, Macdougall and Verral supported the Gillespie motion, which was carried, Ald. Shaw, Small and Bell voting against it. This means that the city will pay out $10,000 for the road-way to Yonge-street from Park-road. The matter will be fought out again in council.

Those Dundas-street Bridges.

The next important item brought up was the oft-repeated question of the Dundas-street bridges. Ald. Woods took a prominent part in the discussion. The City Engineer presented another report, declaring himself in favor of the combined College and Dundas-street bridges. It was evident from the very start that the West End members were not in accord. Ald. Bell and Woods wanted the Dundas-street scheme pure and simple, while Ald. Lennox urged reasons in favor of the College-street bridge being added. Ald. Bell hinted in pretty strong language that the College-street scheme was brought in simply to burk the older one. Ald. Lennox in reply stated that he had been advocating the College-street scheme for years. The Engineer's report was practically as follows: That plan No. 2 be adopted. This provides for the combined construction of Dundas and College-street bridges at a cost of $113,000, divided as follows:

Bridges, grading, etc., on Dundas-street	$ 50,000
Bridge, grading, etc., on College-street	28,000
Land and damages on Dundas-street	25,000
Land and damages on College-street	10,000
Total	$113,000

And the payment for the foregoing will be distributed in the following manner:

Contributed by railway companies for Dundas-street	$ 20,000
Contributed by city for Dundas-street	30,000
Contributed by local assessment for Dundas-street	25,000
Contributed by city for College-street	14,000
Contributed by local assessment for College-street	24,000
Total	$113,000

After a great deal of warm discussion a sub-committee composed of Ald. Bell, Woods, Lennox, Tait and Small was delegated to take up the whole scheme and report.

What the Engineer Reported.

The City Engineer reported in favor of the payment of $400 to Mr. E. Potts for damages in connection with Garrison Creek sewer; that sewers be constructed in Wellesley-crescent, Wellesley-street, Evans-avenue, and a lane in Portland-street; that a stone flag sidewalk be laid in Leader-lane to a point 125 feet southerly; also a granite sett pavement on the same thoroughfare for the same distance, and from that to Colborne-street a granolithic pavement; cedar block pavements in Morris-street and Cornwall-streets. The report was adopted.

An application by the Heisler Electric Light Company for the same privileges accorded the Toronto Incandescent Company was referred to a sub-committee.

The following letter was read and caused considerable adverse comment:

GENTLEMEN: I beg to draw your attention to the circumstance that the ever increasing difficulties and responsibilities of my position as your assistant engineer on roadways have rendered the rate of remuneration which I have hitherto received, in my opinion, totally inadequate to the duties which are required of me. I therefore earnestly request that you will make this communication the subject of your consideration at your present meeting.

JOSEPH MEADOWS.

Ald. Fleming: "I never have heard about any official resigning because his salary was inadequate. I move that the communication be left over until Mr. Sproatt returns." It was so ordered. Mr. Meadows' salary is $1200 per annum.

The All-conquering Flannel Shirt.

The summer flannel shirt has drifted upon us and camped like a bailiff levying an execution. It has gathered all our best people into its folds. ARRESTED IN BUFFALO.

Toronto Thieves Traced to the Bison City and Captured.

The Toronto detectives are happy over the fact that two dangerous local crooks who have been operating in Toronto are at last laid by the heels. The local officers during the past month have been fairly well convinced that a gang of three men, David Irwin, John Southworth and George Cranham, all with penitentiary records, have been responsible for the many house robberies which have taken place in Toronto within the past month. On July 25, however, before the crimes could be fully traced to them, the two left for Buffalo. They got off the train at St. Catharines, and the next day a house was raided in that city and quite a haul was made. The Toronto police were hard on their track, and learning that they had again started for Buffalo so informed their brethren of that city. The result was that yesterday Irwin, Cranham and a new pal, who gave his name as O'Brien, were captured in Buffalo. The chances for a long term for each are good, and the only thing the city detectives are sorry for is that Southworth was not pulled with the gang.

THE DIRECTORS BUSILY ENGAGED.

Various Details Disposed of at the Industrial Exhibition Meeting.

The regular meeting of the Industrial Exhibition Board was held yesterday afternoon. Mr. J. J. Withrow presided, and there were present Capt. McMaster, Donald C. Ridout, Ald. Swait, B. Saunders, R. W. Elliot, J. E. Mitchell, Col. Gray, Robert Davis, R. B. Hamilton.

A bylaw defining the duties of the new treasurer, Mr. J. E. Mitchell, was passed. It was, after some discussion, determined to add a directors' room on the grounds to be attached to the dining-room. A letter from Victoria, B.C., asking that a court be set apart exclusively for their exhibit was read. Manager Hill was instructed to reply that all necessary accommodation would be provided. Tenders were received from P. Burns and the Ontario Coal Company for the supply of coal and wood. Their figures were precisely the same and the contract was awarded to Mr. Burns.

The request of a dozen of side show proprietors, asking that they be allowed to go on the grounds, was refused for the reason that the directors wish to keep the exhibition as free from these semi-gambling schemes as possible. It was decided to erect new gates at the eastern entrance and also to expend $500 on accommodation for the dog show. This will be a permanent improvement. It was also resolved to pay half the cost of the enlargement of the Little World building, and a committee was instructed to discuss the question of sewing machine accommodation. A new flag pole and flag will be put up on the main building.

Manager Hill Very Busy.

Manager Hill of the Industrial Exhibition has his hands full just now making and completing arrangements for the coming fair. The interest already being evinced in it in all parts of the country attests the importance that is attached to our great show.

All departments in the exhibition will be fully represented, and where possible the exhibits will be superior to those of last year. The agricultural section will be superior. New exhibits will be found there. The Ontario Agricultural College of Guelph will exhibit interesting specimens of grain and corn, with statistics of experiments, which will prove of great value to the farming community.

The request of Charles Stevens to be recommended to the committee on probationers was granted. The Moderator, Rev. Alex. Gilray, and Mr. Elder were appointed a committee to fill the vacancy in St. Andrew's Church at Vaughan. Rev. Thomas Goldsmith, late of St. John's Church, Hamilton, was received as a member of the Toronto Presbytery.

A petition from the adherents of the Seaton Village mission asking permission to organize as a congregation was granted. A petition from the people at McMillan's, on the Queensville charge, asking that the church be reopened during the summer months, was also granted.

Messrs. Thomas Nattrass, B.A., and Alfred Gandier were examined and received as probationers.

The following were appointed a nominating committee: Rev. Messrs. J. M. Cameron, T. T. Johnston, G. E. Freeman and Mr. Elder.

Another Scaffolding Accident.

He Came from Washington Territory.

I want to look at some of the bargains in furs that you are offering just now, said a gentlemanly stranger on entering Dineen's establishment yesterday. I came all the way from Washington Territory to have a sail on your great lakes, and if I can find anything in your house to tempt me I will probably purchase. The salesman pointed to the stairs leading to the fur department, where they both disappeared. A reporter who happened to be in the hat department and overheard the above remark asked if this is not an unusual occurrence buying furs in summer. Oh, no, said Mr. Dineen, we have a demand for furs all through the hot weather! Strangers coming from warmer climates and our own people going from home all take fur wraps along, and the people with money prefer buying when the goods are the cheapest. Oh, yes, prices are lower than they will be next month!

Tornado at Kansas City.

KANSAS CITY, Aug. 6.—At 1 o'clock this morning a small tornado passed over this city from northwest to southeast, tearing down chimnies and outbuildings, but doing little damage in the city. As it went on it appeared to gather force and increase in size. It was followed by a heavy electrical storm and rain fell in torrents for half an hour, deluging the streets and stopping traffic.

Cornwall and Toronto to Battle for Honors.

When two such teams as the Cornwalls and Torontos contend for the championship the very best exhibition of lacrosse may be expected, and the grounds at Rosedale on Saturday next will be the scene of such a contest. Both clubs are equally determined to win, and as the Cornwalls have already defeated the Torontos this season, the home team are determined to wipe out that defeat if possible, and are working steadily with that object in view. All lovers of our national game will be well repaid for any trouble they take in going to the lacrosse grounds on Saturday to witness the contest.

The Express Company Censured.

MONTREAL, Aug. 6.—The coroner's jury in the inquest on the body of William Rogers, the express messenger, concluded their deliberations to-night and returned this verdict: "That William Rogers came to his death from an explosion in the express car on the train leaving Montreal at 10.15 on the evening of Friday, August 2, but what was the real cause of the explosion we have not had sufficient evidence to determine. We are unanimously of opinion that the Canadian Express Company, in whose employ the deceased was, did not exercise due precautions as they are by law compelled in the shipping of a large quantity of explosives known as fireworks, but acted in a grossly careless manner in so shipping such explosives, thereby endangering the lives of all the passengers on the train, and, as has been proved, resulting in the death of William Rogers.

HE OWED $12.

The Hardships of a Hamilton Debtor and His Family.

HAMILTON, Aug. 6.—One of the most deplorable cases of hardship that has come to the attention of the public here in years has just been brought to light and been remedied by the officers of St. George's Society. This morning W. H. Gillard, president, and Jesse Linger, chairman of the charitable committee of St. George's Society, applied to Judge Muir for the release from Barton-street jail of William Lees, who on Wednesday last was arrested and placed there for contempt of court. From the representations made by these gentlemen, his honor unhesitatingly complied with the request. Lees is an organ builder and a respectable and industrious man, but could not get regular employment at his trade here and got into debt. He owed $12 to a furniture dealer and neglected to pay attention to a judgment summons. The creditor then had a warrant issued for his arrest for contempt of court, and on Wednesday last Lees was arrested and lodged in Barton-street jail. He had not been working steadily for some time, but on the Monday previous had started to work. In jail he was taken ill with dysentery. Shortly after her husband was arrested Mrs. Lees was confined. She was alone in the house with her 3-year-old child, and there was no food or fuel on the premises. The following evening the 3-year-old child got out on the front steps and the wind blew the door shut and locked him out, and the little fellow cried himself to sleep outside, while his mother had not strength to get up and let him in.

THE HALIFAX CARNIVAL.

Second Day's Proceedings—Great Crowds Witness the Sham Battle.

HALIFAX, Aug 6.—The military and naval display attracted a throng of visitors which nearly doubled the city's population to-day. The review of troops on North Common was rushed through in quick time, the troops acquitting themselves to the satisfaction of General Ross and General Sir Fred Middleton, the reviewing officers. The mimic conflict was a scene of great interest. The 63rd, 66th, the West Riding Regiment, Royal Artillery, Halifax Garrison Artillery, and 3000 marines and sailors participated in the battle. The first gun was fired at 10.30 and a rapid and heavy fire was kept up on both sides until the attacking party, finding the defenders in too great force, finally retired.

Mr. Mercier's Followers in Council at Montreal Yesterday.

MONTREAL, Aug. 6.—A general caucus of the Parti National was held to-day at the Government offices in response to an invitation issued by Premier Mercier some days ago to his political friends. None but those who had received invitations were admitted. The invitations did not mention the object of the meeting, so that all who entered were in darkness or presumed to be. It was very largely attended by both the Rouge and Castor wings of the party. The object of the caucus is known to be to consult the party on the advisability of holding the provincial elections shortly.

FOUGHT LIKE DEMONS.

A Fierce and Bloody Battle Between two Factions of Coolies.

SAN FRANCISCO, Cal., Aug 6.—The Japan Gazette reports a terrible riot between two factions of Chinese coolies at Sang Kong, Siam. Five thousand men engaged in a conflict, spears and firearms being used, and a great number were killed. The coolies were under the influence of drink and fought like demons. Several dug spears into the wounded men and held their bodies aloft, yelling hideously. The Siamese troops charged the rioters, and after bayonetting a number quelled the disturbance, capturing 900, who were afterwards released with a light fine.

A WAR OF EXTERMINATION.

BLOODY HORRORS OF THE HAYTIAN CONFLICT.

Prisoners' Throats Cut in the Market Place of Port-au-Prince—Unfortunates Executed for the Amusement of the Troops—Feverish Excitement.

NEW YORK, Aug. 6.—A despatch to The Times dated Port au Prince, July 28, says: Legitime has been cutting the throats of prisoners in the market place. Hippolyte is advancing nearer and nearer each day. Fear bordering on frenzy appears to have seized hold of many of Legitime's soldiers. They refuse to stand fire, and it only remains for the contagion to become universal to enable Hippolyte to march unopposed into the capital of the south. The idea of offering quarter to surrendering troops has long died out, and capture now means something worse than death. Hippolyte slaughtered eighteen men who fell into his hands the other day, and in retaliation the terrible scenes in the market place have been enacted. None of the inhabitants of Port au Prince expect the least mercy accorded them should Hippolyte's men ever force an entrance into the city. This thought has served to bring on a condition of mind little short of distraction, and it now needs but the sounding of an alarm to throw the whole population of Port au Prince into feverish excitement. Despair has seized hold of many of the people, while others await the end with indifference.

Severe fighting has taken place at a camp and in a marsh near the city, where 500 of Hippolyte's men gained a lodgment. All the houses and brush in front of the city have been burned by the opposing forces, and the country is probably ruined. On July 26 Hippolyte's position was subjected to general bombardment by the forts and men-of-war. Some of the shells when exploded brought forth a series of yells from the marsh, the meaning of which there could be no mistake. Just before sunset Hippoltye ordered a charge on Lacoup. Legitime's men fled to the interior of the fort at the first appearance of the attacking force, and for half an hour kept up a fire on Hippolyte's men gathered below. At this moment the report was sent to Port au Prince from Lacoup that it was impossible to hold out longer and calling for reinforcements. All the available men in the city were pushed forward, and with considerable impetuosity attacked Hippolyte. The latter beat a hasty retreat, carrying away with him eighteen of the garrison captured during the first of the attack. Of these unfortunates eight men were shot on reaching Hippolyte's camp, while the others had their throats cut in sight of the whole body of troops. All were executed for the amusement of the troops.

Spies reported this act of Hippolyte's to Legitime and the latter immediately ordered the prisoners on hand to be taken to the market place. There were eight of them in all, tied arm to arm and they were led strongly guarded to the open market. Here an immense crowd had collected, which was at fever heat of excitement. One by one the men were gagged in plain view of everybody, and then with the utmost deliberation, their throats were cut like so many beasts, the crowd yelling vociferously as each man fell quivering to the ground. In the very middle of the killing, one man managed to ungag himself and filled the air with the most piercing cries of fright. This pleased the crowd so much that the gags of all the remaining prisoners were taken out, and the cries of agony of the wretched men fairly rent the air. When the butchery was completed, a great yell went up from the crowd for Legitime, and it was evident that the southern leader had gained a point in the confidence of his followers.

The other evening a command of eighty of Legitime's men attempted to go the round of the works. The command was surprised by the enemy and fired upon from all sides. The officer in charge was the first to fall. The command immediately attempted to escape by flight, but all were captured except two. These two hid in the bush and report that they saw their comrades shot down in cold blood to a man. All of the captives begged for mercy and hurrahed for Hippolyte, but not one of them was allowed to live. It looks as if the war is to be one of extermination, for it means death to be captured by either party.

The Black Diamond's Escape.

OTTAWA, Aug. 6.—Hon. Mr. Bowell, Minister of Customs, has received a full report from Victoria regarding the escape of the Black Diamond. The report will in due course be submitted to the cabinet.

LONDON, Aug. 6.—The Times holds that there is not a particle of justification for the high-handed seizure of the Canadian sealer Black Diamond. The seizure, it says, is contrary to international law and comity. It relies on the good sense and love of justice of the American people to assist in the settlement of a question that ought never to have been raised.

The Montreal Molasses Combine.

MONTREAL, Aug. 6.—The Canada Sugar Refining Company, following the example of the St. Lawrence Refining Company, has closed down. This is due in both cases to a desire to get rid of surplus stock.

For the past eighteen months a combine of grocers has existed to force up the price of molasses. The price rose from 35 to 49 cents, but some of the members were discovered underselling and now the whole trust has collapsed, reducing prices to the former limit.

The Ex-Champion at His Island Home.

The World yesterday saw Hanlan over at Hanlan's Point, where, if anywhere, his foot is on his native sand. The oarsman, accompanied by his wife and little daughter, was at the Point, the object of congratulations from friends and the admiration of the public. It is still interesting to observe the attention that a sight of the ex-champion elicits from his fellow-citizens. The small boy follows in admiring troops and the bigger girls beam on him with admiring eyes. He, more than any other Torontonian, has made for his city a world-wide reputation, and those who claim the honor of fellow-citizenship with Ned like to show it by an admiring look as he passes by. May O'Connor come back with the belt and a new right for the Queen City to esteem herself the mother of oarsmen!
