

Twenty Minutes Time Enough?

To Cure the Worst Headache From Any Cause—New Reduction Method.

Most headaches and pains yield instantly to the new Reduction Method—Dr. Shoop's Twenty Minute Headache Cure. The cause for these pains is congestion—a rushing of blood to the nerve centers—which distends the veins to nearly the bursting point. Swollen and enlarged, these veins and capillaries exert an irritating pressure on the myriads of nerve branches and fibres. Then there's a pain, and finally that excruciating, ceaseless ache. This new Reduction Method disperses the blood, distributes this overflow, and directs it to the proper channels. It frees the nerve pressure and irritation—the pains and aches disappear because their cause has been removed. You may try a thousand other remedies, but the remedy which brings prompt relief and will be successful—the congestion—it must embody the Reduction Method. This medicine has thus found a way—simple and sure, yet the only way—to thoroughly overcome these attacks of Headache and Neuralgia. The effect of Dr. Shoop's Twenty Minute Headache Cure is prompt—perfectly suited to all forms of Headache and absolutely positive in every temperament. For sale and recommended by

NAMING A TOWN.

How Abilene Came to Be Selected by Mrs. Hersey.

Abilene was named by the wife of the founder of the town, T. F. Hersey. With her husband she had come to central Kansas in the spring of 1857. They lived in a log house on the west side of Mud creek and were the first settlers on the town site, although no town then existed nor was there one until 1860. Then C. H. Thompson, who had moved to the county from Leavenworth, bought from the Kansas Pacific Railway company a tract east of Hersey's and laid out a town.

When it came to the naming of the future city Mr. Thompson went to Hersey and asked him to suggest a name.

"No," was the reply, "let my wife do it. She is a great reader."

Mrs. Hersey was a graduate of a seminary in the east, and her little library, which she carried with her in her wanderings, was one of the ties that bound her to the girlhood life. She was a devout Methodist and knew her Bible from "cover to cover." When she was asked to name the town she turned to the New Testament for suggestion. There, in the third chapter of Luke, first verse, she found this: "Now in the fifteenth year of the reign of Tiberius Caesar, Pontius Pilate being governor of Judaea . . ." and Lysanias the tetrarch of Abilene."

"Call the town 'Abilene,'" said she. "It means 'City of the Plains,' and that exactly describes the location."

So Abilene it was, and in the fight for the county seat, wherein it contested with Newport, Smoky Hill and Union City, it long since passed away, good fortune attended it, and the new town became the county capital for the 378 dwellers then in Dickinson county.

HOW THE TIGER KILLS.

Never Faces His Prey, but Attacks It on the Flank.

I have taken considerable trouble to find out how tigers kill large game. Some time ago I was asked to come and see a full grown bullock that had been killed by a tiger. On examining it I found the animal had its neck broken, and there were claw marks on the nose and shoulder, but nowhere else. There was no doubt that the tiger had jumped at the bull and landed on the shoulder, and when the bull turned his head to gore the tiger he must have put his claw out and with a sudden jerk broken the neck.

On another occasion I went to see a young buffalo which had been killed by a tiger and found the same thing had happened. There were similar marks on the nose and also on the near shoulder, which clearly indicated that this animal had been killed in the same way. Malays who have actually seen a tiger killing a buffalo told me they saw the same thing happen; also that in dragging off a heavy carcass, such as buffalo or bull, he gets most of the weight across his shoulder.

This must be fairly correct, as I have often followed a kill, and the marks left indicate that only a portion of the animal was trailing along the ground. I have known a full grown bull, which ten men could not move, dragged for two miles by a tiger in a heavy jungle, where roots of trees and swamp had to be gone through. In no case have I seen the pug marks facing the wrong way except when stopping to feed, which proves he must carry a portion of the animal over his shoulder.

The old idea of a tiger killing large game by a blow from his paw is nonsense; besides, in India a tiger never faces his prey, but attacks him on the flank unless charged. Another curious fact that may seem very like a fairy tale is that a tiger does not seem to mind a small lamp being tied over a kill about ten feet high, but will come and feed. I have known three occasions when this has been tried, and each time a tiger has come to feed upon the carcass.—London Field.

BRITISH BRIEFS.

England's first representative parliament assembled in 1265.

Caesar conquered Britain in the year 55 B. C. The Roman occupation continued nearly 600 years, or until 410 A. D.

In 1679 was passed the habeas corpus act, which, along with the right of trial by jury, is the great bulwark of Anglo-Saxon liberty.

The great plague was introduced into London in 1664 by bales of cotton imported from Holland; 100,000 persons succumbed to the disease in one year.

Cromwell's long parliament assembled in 1640; Charles I. was beheaded Jan. 30, 1649, and Cromwell became lord protector in 1653. In 1680 the Stuarts were restored to the throne.

Westminster abbey, where the kings and queens of Great Britain are crowned, was originally a Benedictine monastery. It was founded by Sebert, king of the East Saxons, about 616.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way.

To appreciate the simplicity and ease of washing with Sunlight Soap in the Sunlight way you should follow directions.

After rubbing on the soap, roll up each piece, immerse in the water, and go away.

Sunlight Soap

will do its work in thirty to sixty minutes. Your clothes will be cleaner and whiter than if washed in the old-fashioned way with boiler and hard rubbing.

Too Much Levity.
Kilduff—For a bill collector young Dunn displays considerable ill timed levity. Skidmore—In what way? Kilduff—When he comes after an account he says cheerfully, "Did you want to see me today?"

A Rule For the Day.
Give us to awake with smiles; give us to labor smiling. As the sun brightens the world, so let our loving kindness make bright this house of our habitation.

Only as a Last Resource.
Luck is a good enough thing to trust to after you've done everything else to invite success.

Two of a Kind.
"You say that Faro Jim came to his end through contributory negligence?"
"Yes," answered Broncho Bob. "He showed down four aces in a poker game, an' two of 'em was the ace of diamonds."

Great Provocation.
"You say, madam, that you were under great excitement when you struck this woman."
"Yes. She had just found the family Bible with my age in it."

The poorest people on earth are those who make the most of what they have and the least of what they are.

Rejected.
"I have called," said the confident young man, with a manuscript sticking out of his pocket, "to see whether there is a vacancy in this office."
"No," replied the melancholy editor as he looked round the place; "I'm sorry to say there is none. Even the waste paper basket is full."

A Change.
"Well, well! There goes Miss Strong. When I saw her last she was posing as a bachelor girl. That's her hobby."
"All that's changed now. She dropped her hobby for a hubby."—Exchange.

Fleshmaking Food.
Cream gruel, according to an eminent English authority, is the ideal nourishment for thin folk. A teacupful taken at night immediately before retiring is said to give marvelous results. To be at its best it must be perfectly made, then thinned with sweet cream. Taken in that condition and warm, it is agreeable as well as fattening and produces just that sense of satisfied hunger essential to ideal rest. It is claimed that perseverance in the treatment yields such apparent results that the cheeks can be seen to expand from day to day.

The Pepper Vine.
The pepper vine grows best in a wooded valley where there is plenty of moisture and abundant foliage to protect it from the heat of the sun. It is given a rude sort of cultivation. The growers plant it, keeping the grass from its roots, and when the tree near which it is planted has no lower branches strings or poles are placed in proper position to enable the vine to climb the tree. It needs no further attention.

Sarcastic.
"Yes, my dear; I believe in transmigration of souls. I may be a brute in my next life."
"Wouldn't that be discouraging—or don't you care for a change?"

In Plain Words.
"What," asked the judge, "was the cause of the altercation?"
"I didn't see anny, yer honor, but it was him callin' me a liar that shtarted the fight."

The Bengal canal, 900 miles in length, is the longest artificial water course in the world.
